

WBVM 90.5 FM Inc. Internship Program 2013

Spirit FM welcomes all college students who have a desire to learn more about radio and communications. An internship with Spirit FM can lead to success in the radio and broadcasting business in a number of areas. Internships are open to students who are studying communications, marketing, radio and television, computer science, or electronic engineering. Internships are not paid positions; however, students earn college credit for the semester/quarter. Therefore, all applicants must be enrolled in college and have an interest in radio, journalism, telecommunication, marketing, and/or liberal arts programs that apply to communication.

Internships are limited in number so you are encouraged to apply early. Typical duration of an internship is 4 months, but is flexible to meet the course requirements. You are encouraged to discuss this opportunity with your guidance counselor, professor or course instructor to insure that it meets curriculum guidelines. Once accepted into the program, interns will work with Spirit FM staff and class schedules to work out a schedule that is agreeable to both parties and, at a minimum, match the college credits earned. Interns may also be subject to a mid-term evaluation.

If you are interested in becoming a Spirit FM intern, please email jmorris@spiritfm905.com. Include your name, email address, college you attend, your major, expected graduation date, field or department of interest (engineering, production, promotions, etc.), fall or spring semester and goals. You should also provide a Letter of Introduction that outlines goals for the semester. Please include a resume and a recommendation from faculty or advisor.

In 2013 Spirit FM hosted three (3) interns and three (3) volunteers

<u>Name</u>	<u>University or Educational Institution</u>
Rev. Peter Waweru	Gregorian University, Rome, Italy
Scott Samuels	International Academy of Design and Technology, Tampa
