WOMEN'S ISSUES	The National Desk	5/20/2021	7:00 AM - 9:00 AM	0:02:37	Reporter Angela Brown finds that when it comes to struggling to work, young mothers have been hit the hardest. Many people are returning to work as the pandemic eases and vaccinations increase, but that is not the case for mothers of young children. They are one of the largest groups that have not returned to pre-pandemic levels. The explanation is simple, many schools and day care centers are still close. Around 10 million U.S. mothers living with their own school-age children were not actively working in January — 1.4 million more than during the same month last year, according to new U.S. Census Bureau data.
