QUARTERLY ISSUES/PROGRAMS REPORT  
SECOND QUARTER, 2015**

**April 1, 2015 – June 30, 2015**

**CONTENTS:  
PROGRAM DESCRIPTIONS  
“ISSUES OF CONCERN”  
QUARTERLY ISSUES AND PROGRAMS REPORT  
ISSUE RELATED PUBLIC SERVICE ANNOUNCEMENTS**

**Prepared by:  
Melissa Sullivan  
Executive Assistant**

**PROGRAM DESCRIPTIONS**  
**PROGRAMMING THAT ADDRESSES**  
**COMMUNITY ISSUES**

**The Boston Sunday Review** – The Boston Sunday Review is a two-hour public affairs program that airs every Sunday 6AM-8AM. This program covers issues that are of concern to people in the Boston area. The host of the The Boston Sunday Review, Mat Schaffer, schedules guests to discuss these issues on this program, thus making the show issue responsive.

**Public Service Announcements** – WBZ-FM has 85 scheduled spots per week dedicated to recorded Public Service Announcements. A great majority of these PSA's cover issue-related topics.

## **ISSUES OF CONCERN SECOND QUARTER, 2015**

1. ENVIRONMENT  
Why nuclear war would be an environmental disaster, how solar energy can reduce global warming, how the zoo conservation efforts save endangered species around the world, how local lawns and gardens have been affected by the cold winter, how drinking water comes to Boston, environmental aspects of buying and eating locally, how Boston Harbor is impacted by the development of the Waterfront neighborhood, a look at new space discoveries
  
2. POLITICS  
Details of the newly announced framework to halt Iran's nuclear program, a look at the rise of terrorism in the Middle East, the announced (and unannounced) 2016 presidential candidates, how Boston funds public art in the city, how politics impacts the NASA budget and future space exploration, possible negative effects in the rush to decriminalize/legalize marijuana
  
3. HEALTH  
Why nuclear war would be a global health disaster, a look at marijuana addiction, the health benefits of marathon running, the ABC's of nutrition, the latest developments in the search for a cure from breast cancer, the threat of brain damage from concussions, the physical benefits of a good night's sleep, how to deal with stress and anxiety in daily life, the health aspects of buying and eating local, efforts to mandate labeling of all food products because of potential health risks, new efforts to legislate better eating habits, the growth of the hospice movement, the physical threat of hoarders
  
4. MEDIA  
How the face of HIV/AIDS has changed in the past 25 years, discussion of the Rolling Stone article that brings to light the mishandling of sexual assault cases on campuses, how the city of Boston healed after the 2013 Marathon bombings, whether or not the media coverage of Bruce Jenner's transition is good for the transgender community, media coverage of the campaigns for the 2016 Presidential candidates, the growth in popularity of beer making and drinking in New England
  
5. EDUCATION  
Why autism rates are on the rise, the relationship between Franklin Park and Stone Zoos with local schools, the treatment and education of mentally ill children, how the threat of brain damage from concussions will impact sports, "The No Hungry Kid" campaign which feeds hungry children

6. ECONOMY                      How solar energy can stimulate the economy, a program that feeds terminally ill people who can't feed themselves, the economic aspects of buying and eating local, a program to help feed hungry children in low income neighborhoods, the economic underpinnings of the classic game of Monopoly
  
7. DISCRIMINATION            Changing attitudes toward people living with HIV, the discrimination people with autism face on a daily basis, legislation proposed to prevent discrimination against trans people in public accommodations, how to rise above the stigma of mental illness, a campaign that teaches nutrition skills to mothers in low income neighborhoods
  
8. GOVERNMENT                How solar energy can help Massachusetts be more independent of fossil fuels, government programs and research to help stop the spread of the HIV virus, new government restrictions on universities that mishandle assault charges, how the government needs to get involved to help people with autism live fulfilling lives, efforts to lobby Mass lawmakers to pass legislation helpful for Alzheimer's patients and families, how western government is reacting to the rise of terrorism, new efforts to legislate better eating habits and if it can work
  
9. PSYCHOLOGY                A look at marijuana addiction and why it complicates the efforts to decriminalize/legalize it, whether or not intuition is an ability, the psychology of mystery writing, the psychological benefits of a good night's sleep, how to deal with stress and anxiety in daily life, stages of grief, the psychology of smell, the psychology of murder and pressure of family fame, the psychological threats of hoarding and how to treat hoarders
  
10. TECHNOLOGY              Technology involved with halting Iran's nuclear program, how solar energy can reduce global warming, how a secret unit of artists used sound and special effects to mislead the German Army after the invasion of Normandy, how to protect people against identity theft, mandating products with Genetically Modified Organisms to be labeled because of potential health risks

**QUARTERLY ISSUES AND PROGRAMS REPORT**  
**SECOND QUARTER, 2015**  
**(April 1, 2015 – June 30, 2015)**

Unless specified, all issues were discussed on segments of the public affairs program, The Boston Sunday Review, hosted by Mat Schaffer, which airs between 6AM and 8AM every Sunday.
