Bus drivers are walking the picket line in Milwaukee County, their first walkout in more than 35 years. Hundreds of union drivers went on strike early Wednesday morning, after contract negotiations with transit officials broke down. One of the main obstacles is the transit system's plan to hire retirees as part-time drivers. The strike could last until Saturday.

The stage is set at the UWL for the arrival of the President today. The equipment needed to transport him from the La Crosse Regional Air arrived shortly after noon Wednesday. An Air Force C-17 landed, bringing in the entire motorcade. Secret Service crews spent 45 minutes unloading. The plane will sit there until the President leaves. As for the airport, they say people flying out today can expect short delays but nothing major. Gillett says the airport will only close for 10 to 15 minutes later today. Once the President arrives until he leaves the airport it shouldn't impact outgoing flight times by more than 15 minutes.

Wisconsin's Joint Finance Committee plans to finish its work on the state budget today, now that republican leaders say they've reached an agreement on the spending plan. Slug: OVERTIME10

Here's what we've learned about what the President will say in his speech. He's going to talk about new rules regarding how employees are paid for the overtime they work. Under the new rules, any worker putting in more than forty hours a week, but earning less than fifty thousand dollars a year, must be paid more for that extra time. Right now only workers earning less than 24 thousand dollars a year are guaranteed overtime after working forty hours in a week. Workers above that level who are classified as administrators, executives, or professionals aren't guaranteed OT and President Obama says too many employers have taken advantage of the current limit by labeling more and more employees as so-called "managers" to avoid paying overtime. Senator Tammy Baldwin says it's a needed measure.

But what do the changes mean? And why are some on both sides of the aisle upset? Sweeping changes to the open records laws in the state budget would limit public access to communications within legislative offices, including those about how and why a bill is written. A new Amtrak study says adding a second round-trip between Saint Paul and Chicago could prove popular. The study estimates ridership on a second daily train could exceed 150,000 passengers a year... But Minnesota and Wisconsin would have to subsidize about \$6.6 million in operating shortfalls annually. It says the necessary infrastructure improvements could range from \$142 million if the route ends in Saint Paul to as high as \$257 million if stops are also added in Minneapolis and Saint Cloud. Amtrak's only train now serving the Twin Cities is the once-daily and often late empire builder from Chicago. The Minnesota and Wisconsin Departments of Transportation as well as La Crosse County asked Amtrak to conduct the study.

The state budget is nearing completion as it passes through the State assembly this week looking for approval. Many democrats say the proposed cuts to education, transportation and environmental issues need to be discussed and even resolved before the Governor signs the budget within the next week. Representative Jill Billings says one of the biggest downfalls of the budget is its adverse effect on education across the state. She says the La Crosse School District will see cuts of almost 400 thousand dollars next school year as a result of state budget cuts. The Sage Program, designed to keep classroom sizes small in districts with a high number of low income students, is also being phased out and the expansion of the private school voucher program is one Representative Billings says the state cannot sustain. Billings says some of that money is being given to parents of students already paying tuition at private schools and subsidizing that education from public school dollars is something the state can't afford.

A bipartisan group of lawmakers wants to give more teeth to one of Wisconsin's Drunk Driving laws. It involves making sure drunk drivers assigned interlock ignition devices actually use them. Under current law anyone who gets a first offense OWI at twice the legal limit of intoxication or gets a second or subsequent offense must get an ignition interlock device on their car. But many offenders simply transfer that car into someone else's name or borrow a car to drive in order to get around the law. The new legislation would instead attach the device to the driver, instead of their vehicles, by requiring an ignition interlock restricted license. This bill also increases the penalties for violating the law. This bill creates a criminal penalty of 6 months in jail.

### **STRANGER THAN FICTION**

"20/20" goes inside the stranger than fiction story that prompted unkind comparisons to the movie "Gone Girl," a bizarre abduction plot. When Aaron Quinn reported that kidnappers broke into his home, abducted his girlfriend Denise Huskins, and demanded a ransom, their story garnered national attention. The couple was initially accused by some investigators of staging the whole thing and Vallejo, CA police eventually dismissed the case as an elaborate hoax. Just this week, in a shocking twist, police have arrested Matthew Mueller, a disbarred Harvard-educated lawyer and US marine veteran who is now being linked to a crime with similarities in Dublin, CA to that in Vallejo, CA. As more bizarre twists and turns emerge in the headlines every day, is there a widespread kidnapping ring? Are there more victims who have not come forward? Cecilia Vega reports.

### **MANHUNT**

It was a scene out of a blockbuster movie – two men sentenced to life in prison for murder escaping through a hole in a pipe, emerging to freedom from a manhole. Yet, there were no cameras rolling, and no director to yell "cut." Instead, this real life prison break captivated the nation last month and kept a small upstate New York town on edge until convicted murderers Richard Matt was shot and killed and David Sweat was shot and captured. With exclusive and unprecedented access to the hunt for Sweat and Matt, "20/20" details the most complete picture of how the felons successfully executed the brazen prison break and how the manhunt played out. Gio Benitez and Linzie Janis report.

Friday, August 7, 2015

### **THE WAR NEXT DOOR**

Thirty-one gunshots fired, two men dead and another badly wounded. But the alleged shooter Billy Woodward claimed he did nothing wrong – he was just defending his family from his neighbors' alleged months-long harassment. Woodward claimed his Titusville, Florida neighbors made him and his family prisoners in their own home, threatening him to the point that he believed his shooting spree wasn't murder, but legally justified under Florida's controversial Stand Your Ground law. Deborah Roberts reports.

From the first outsider who discovered the lion had been killed, to all-new details about the killing and questions, "20/20" takes viewers to Hwange National Park where it all began – and ended for the beloved tourist attraction.

Friday, September 25, 2015

### **OJ SIMPSON TAPES**

Football legend OJ Simpson was found not guilty of murdering his ex-wife Nicole Brown Simpson and her friend Ron Goldman in his criminal trial 20 years ago next week. In that famous televised trial, Simpson evoked his right against self-incrimination by not taking the stand. Yet, in the civil trial brought against him, Simpson was forced to testify under oath for the first time on tape. Those tapes, part of a treasure trove of almost 150 boxes, have been stored under lock and key for almost 20 years. - A blind man at a café asks a fellow diner to verify how much cash he has. The diner says the blind man has four dollars when in fact, he has four \$20 bills – and she pockets most of his money. How will bystanders react?
- A group of teens are humiliating a homeless man on the boardwalk, promising to give him money if he earns it by doing what they ask. How will bystanders react?
- What happens when a young man is told that he shouldn't be buying clothes at a Newark, New Jersey fashion boutique specializing in urban wear — just because he's white? How will fellow shoppers react? (OAD: 6/20/14)

- It is one of the oldest carnival tricks in the book: a man will ask to guess your weight, height or age for a small fee. If he guesses wrong you get a prize, but if he guesses right he pockets the fee and you leave empty handed. But what if the game took it a bit too far and the “What Would You Do?” carnival worker did not just stop at guessing but actively tried to insult the contestants? How will bystanders react? (OAD: 8/8/14)
