Just as most cars need to be refueled constantly, so does the nation’s blood supply. The American Red Cross has faced a concerning drop in blood & platelet donations this summer. Donors are needed to give blood in August to help prevent a shortage. The decline in donations has caused the Red Cross blood supply to shrink nearly 20% in recent weeks. Type O negative blood donors & platelet donors are especially needed. Choose a time to give now, so you can help pump up the blood supply for those in immediate need of care. Schedule your appointment through the Red Cross Blood Donor App, by visiting RedCrossBlood.org or by calling 800-RED CROSS.
