\*\*\*\*\*

1..Daily coverage on the ongoing status of help from FEMA, SBA, State of Hawaii, and Maui County of health concerns due to the aftermath of Fires. Coverage of improment of the drinking water both West Side and Kula areas. The Governor and Mayor were guests on all stations giving updates on progress of restoring services in a series of short form updates.

2. Special broadcasts of employment potential of Maui business that need help in staffing as some locations reopened after fire. Guests appeared with interviews on need to match people who need a job with biz who need employees.

3.Log Term COVID seems never to go totally away so stations broadcast safe methods to protect population from spreading and what to do if you have it.

4. Visitors have returned to the Island and the need to educate them on what they may do without disrupting the recovering process and being sensitive to it. With 20,000 displaced people now on the East Side, traffic has become an issue.

5. The need for local housing for not only for the thousands of West Side residents who lost their homes but even before the fire there was a housing shortage and not being addressed by the County.

6. Coverage of the rebuilding of the West Side to it does not become a Disney Land tourist trap but a local, vibrant, living historic return to it's roots as Hawaii first capital..
