Good Morning,

I've uploaded all of the documents. To the extent that I'm able to anyways.

The FCC Website has a flag that states the site is running slower than usual right now. When I had attempted to upload KAGO-AM last Friday, it wouldn't show up when I uploaded it, despite showing "Success".

Checking in this morning, I've apparently uploaded 9 or so copies. So I've gone through the website and gotten a "Success" when uploading the rest of the stations files. I'll be double checking this afternoon to make sure they've all been uploaded properly. As I don't want another multiple upload scenario.

Let me know if you have any questions.

I've got the FCC Website to show 4 out of the six stations as having the files uploaded.

KHIC and KFXX are still not showing. Although some of the other stations are taking multiple refreshes to get there.

Thanks for the update. Can you take another look before the end of the day?

I got through double checking KAGO-AM, KLAD-AM, KAGO-FM, and KLAD-FM all of which showed the 4th QTR update.

KHIC and KFXX weren't showing as updated, and when I tried to upload, it wasn't working.

Got this error message for both KHIC and KFXX

Thanks for the screenshot and emails. We'll upload this thread as documentation with them to show we attempted and were unable.
