OLD SCHOOL & TODAY'S R&B

This reports contains

***Section 1: The issues that are important
to the local community in this quarter***

***Section 2: Issues and Concerns in The
Lafayette Area And How KNEK Dealt
With Those Issues.***

Community Issues

Black Lives Matter

-We address that many people in Black people are systematically discriminated against and killed by law enforcement.

Vaccines

-The Urban community has some trepidation taking the COVID-19 vaccine. There has been a longstanding mistrust of government in the urban community. We're educating people not the best way to get back to normalcy is to trust this vaccine.

Black Economic development

-there has been many concerns about having a voice economically. There has been a push by many community leaders to have the urban community support and shop black owned businesses to bolster these businesses and to have a better economic stance in the general market.

Gun Safety

-Several people in the area have been shot by guns and there is cases where children get access to a loaded weapon. We are working to pass along information about gun safety.
