Ministry – Faith	KLOVE’s Positive People News Podcast with on-air 60sec promo for podcast	July 2023	4 per week, 16 total	60sec Podcast 8.59min	<p>Family Sells Everything to Serve God in Central America</p> <p>BJ and Robin McCoy weren't on their church's recent mission trip to Guatemala, but when members of the mission team returned to tell them about a special need in Guatemala, the McCoys felt called to uproot everything they've known and start fresh in Central America. Their move requires that they leave behind their current jobs (BJ has worked for the state of Kentucky as an environmental scientist and Robin has been a high school principal) and start work at the Christian Academy of Guatemala, a school that "exists to support the missionary community in Guatemala by providing a biblically-based, quality English education to prepare lives for Christian service." BJ said. “We are selling everything we own--our house, our vehicles, our boat, our cat (laughter) and our family is headed to serve at the Christian Academy of Guatemala." Their young children, Scout and Jay and excited about the move. Will language be a problem? Robin says, "I feel like this is one way that God really prepared our family is I was actually a high school Spanish teacher before I became an administrator." The McCoys are in awe of the way God's hand is on this adventure. "It's almost a daily occurrence of we're just amazed at how He's put things in place and allowed things to happen," Robin said. The family plans to leave the United States on July 11, and will stay the entire school year. They're asking for prayer as they head out on this new adventure.</p>

Healthcare	KLOVE's Positive People News Podcast with on-air 60sec promo for podcast	July and August 2023	4 per week, 16 total	60sec Podcast	<p>Police Officer Creates Software to Help Families Who Have Loved Ones with Alzheimer's, Autism</p> <p>There's a tendency for some people with cognitive issues to 'wander.' They can easily get lost and may not be able to adequately communicate their circumstances to people they see, or even police. Orangeburg, S.C., Public Safety Officer Lt. Jennifer Haig noticed on Facebook that the family of a friend from her high school days was trying to help a loved one who has Alzheimer's. "And I just started thinking 'what could be done to make things a little bit easier for them?'" Officer Haig has known the family for years, and Joe Bonnette – the person with Alzheimer's – was once her volleyball coach at school. So, this was personal. Jennifer started researching to learn more about the ways Alzheimer's and other conditions can stress families – and what might be helpful. This led to a concept, which Lt. Haig shared with her supervisors. And they saw the value. The software program became known as Project Bonnette, named with Joe in mind, but to serve any family in need of this special life-protecting registry.</p>
Sports – Human Trafficking	KLOVE's Positive People News Podcast with on-air 60sec promo for podcast	July 2023	4 per week, 16 total	60sec Podcast	<p>Bicycle Challenge Against Human Trafficking, Jeff Crashed At 54 mph! Amazing Recovery</p> <p>Jeff Conaway signed up with Team ZOE to take part in the super-challenging Race Across America. The ZOE goal was to raise awareness of human trafficking, especially involving children. Brad shared about ZOE's mission and also about the annual Race Across America. That is an ultra-endurance competitive cycling race that starts in Oceanside, California, with the finish line at Annapolis, Maryland, 3,100 grueling miles later. The 7-day race got underway in June of this year. Jeff and the team were 800 or 900 miles into the race when the unimaginable happened halfway through Colorado! Jeff and his bicycle crashed at 54-miles-per hour on a descent in a remote area of the Rocky Mountains near Trinidad, Colorado. Jeff became the rider who 'went down.' As his recovery continues, "It's been a blessing. I feel great." And Jeff notes that his wife, Chloe, a nurse, was initially concerned that he would never be walking again and was fully prepared to "take care of me for the rest of her life." "From that, and where I am today is nothing short of a miracle." Now, just weeks after the crash, Jeff has gotten the green light from his medical team to go back to work. He's still "nursing" his collarbone, but his wounds have healed. He's going on daily hikes with his family and even riding a stationary bike. "Back to my normal way of life and couldn't be happier!" He explains that ZOE takes part in the coast-to-coast race every-other-year, "So as long as the team wants me back, I have every intention of being on that team" in 2025.</p>

Childhood Issues	Closer Look	8/6/23	7:00pm	17min	Free Brand-New 'Threads' for Teens in Foster Care Children in foster care often arrive at a new placement with just the clothes on their backs. Animal Safety	Closer Look	8/6/23	7:17pm	13min	Retired Racehorses Cool Hooves at Old Friends Farm, Kentucky Nearly 200 elderly horses get free hay and healthcare at Old Friends Farm in Georgetown. Residents have included famous thoroughbreds Silver Charm and Touch Gold, but also others not famous but whose owners could no longer care for them. "We owe it to them," says farm founder and caretaker Michael Blowen. "These horses are to Kentucky what the automobile is to Detroit." Nearly 200 horses get free hay and healthcare at Old Friends Farm in Georgetown. "We go through 350 lbs. of carrots a week," Blowen laughs. A dozen more Old Friends horses live nearby at a care home for elderly humans to provide the unique comfort of equine companionship. The Farm has even inspired a copycat version in Japan. Horses can live 25-30 years so after they are no longer bred or raced, they still have many years of life ahead. Blowen prides himself on giving these hardworking animals rest from labor and the freedom to express their unique personalities. "They're smart and they're different...and they literally tell us what they want and when they want it," like Silver Charm, he says, who does not like to be petted – but enjoys posing for selfies with visitors. "We had one woman with Asperger's who said Silver Charm gave her a kiss and she decided life was worth living again," Blowen recalls. "We have all kinds of stories like that of what these horses have done for people."

Healthcare	Closer Look	8/20/23	7:00pm	15min	Tackle Childhood Obesity at Home, Church, and School Millions of American kids suffer words like chubby or chunky – or fat – to describe their young bodies. The COVID-19 lockdowns only worsened already alarming levels of childhood obesity, as the CDC found the BMI (body mass index) in children ages 2-19 years old increase nearly doubled during the pandemic. Excess weight weakens growing muscles and joints and can lead to juvenile diabetes or even trigger life-threatening asthma “Prevention is what we really want, right?” says Geri Henchy, Director of Nutrition Policy at the Food Research and Action Center (FRAC). “We want kids to be in environments that are not obesogenic; where they’re gonna get healthy meals, where there isn’t a lot of junk food, where they have activities -- that’s really gonna make a difference for kids.”
Family Issues	Closer Look	8/20/23	7:16pm	14min	Teens Aged-Out of Foster Care Get Help From ‘Dream Makers’ Without family and often lacking life skills, former foster kids become homeless adults by the thousands, turning to drugs and crime on the streets just to survive. “Every statistic you hear that is going bad in the United States, a lot of them link back to the foster care system and those kids just not being taken care of.” Dream Makers steps in to link aged-out foster kids with practical assistance by connecting them with the generosity of strangers. “It totally up to the community to fulfill the dream.” The young adult with a need fills out an application to ask for things that teens with families could easily get from a mom or dad: like money for work clothes, or a laptop for school, or maybe a used car – but Melton says the most common dream request from these youth by far is – food.

Economy	Closer Look	9/3/23	7:00pm	29min	Food Prices, Fight Inflation from Your Fridge Inflation, simply defined, is a rise in the cost of things we need to live – like food. When COVID-19 forced shutdowns, foodstuffs no longer flowed easily and inexpensively from farms to factories and stores to your kitchen. This global disruption, combined with federal fiscal policies to fight economic slowdown, nearly guaranteed that Americans would feel checkout sticker shock. Food prices are especially vulnerable to pressures of the pandemic, says Joe Balagtas, Associate Professor of Agricultural Economics at Purdue University. “Higher farming costs, like fertilizer, fuel,” make basic ingredients more expensive. Even the Russian invasion of Ukraine in early-2022 “created uncertainty” as both nations had previously been major exporters of global wheat. The tight labor market in the U.S. also affects your total at the register. “Labor along the food supply chain accounts for something like half of the cost of our food,” he says, so “while good for individual worker, rising wages increase the price of food we purchase -- because the cost of delivering those goods to us in the grocery stores and restaurants is rising.” While our grocery bills are undeniably afflicted by global factors, lifestyle blogger Jordan Page challenges us to focus less on prices and more on waste. Another strategy for eating on a budget? “Make your protein the sidekick and not the hero,” she offers. “Take that steak, cut it up, make fajitas with lots of veggies and tortillas and rice, things that fill you up they have a variety of nutrients -- but cuts down on your cost exponentially.”

Mental Health	Closer Look	9/10/23	7:00pm	13min	Like CPR, Get Trained in Youth 'Mental First Aid' How do you approach a teen without getting a door slammed in your face? "A trusted adult is what a youth needs more than anything," says Lori Butterworth of AIM, which strongly recommends all adults get certified in Youth Mental Health First Aid. She compares it to CPR. "What if we worked really hard to raise the probability that when a child or teen has a mental health crisis that there is someone there to help them and save their life?"
Human Trafficking	Closer Look	9/10/23	7:14pm	16min	Teens Chatting on Social Media Vulnerable to Human Traffickers "Just so you know, some kids that are trafficked actually aren't taken from their home – they still live at their house." How does this happen? Social media chats. Expert tricksters spend months -- or even years -- lying to build friendship. Your good and smart kid may believe their online friend is their age "by the time they went to meet this person, it wasn't who they thought they were." Once the youth is tricked into sexually explicit activities, they may be too afraid to tell you.

Woody came up with the idea of donating an RV to someone in need. Woody started a non-profit called Emergency RV and in the past five years, they've been able to donate more than 130 recreational vehicles to people in need. "We've delivered those now in fires in the Pacific Northwest, we helped with the big tornadoes that happened in Kentucky a couple Christmases ago, a Native America tribe who lost about 60 homes in southern Louisiana after Hurricane Ida so we've kind of expanded and have been all over the country now," Woody says. Woody jumped into action after the fires in Hawaii. "The last five that we've sent, we put on a ship to Maui to some of the 18 firefighters who lost their homes and there's just no shelter and it's a really tight market, so we were able to get free shipping." How has providing shelter affected Woody? "It's changed me fundamentally. Things that used to bother me...you know getting a flat tire on my car or just things that happen in life...it doesn't bother me anymore. I mean, my problems are really not problems."</p>

Social Media	KLOVE's Positive People News Podcast with on-air 60sec promo for podcast	Sept. 2023	4 per week, 16 total	60sec 15.50min Podcast	<p>Rob Kenney, "Internet's Dad" Shares Life Hacks, Encouragement, And Loves God</p> <p>With prompting from his daughter, Rob Kenney launched a social media outreach during the COVID-19 outbreak. "We were all locked away," and the idea was to offer a 'dad video' to encourage or entertain people coping with the pandemic. "I put up my 'How to Tie a Tie' video on April 2 of 2020 and about a month-and-a-half later, my channel went viral! That was scary for me, but I'm grateful that I went viral for something wholesome." These days, Rob is on multiple social media channels, including Instagram, Facebook, and YouTube as Dad, How Do I? And "On TikTok, I'm The Real Dad, How Do I? because there were people who were imitating me." The videos show Rob demonstrating how to put air in your tires, unclogging a toilet, applying deodorant & cologne, how to shave, explaining an Allen Wrench, or making popcorn. Things a dad would share with a child. Why is Rob committing so much time and effort to these videos? "I think that there's definitely a need for people to understand how cool it is to be a dad. I feel like that's a mission that God has given me to try to encourage dads to hang in there, and you're needed and you're valued." It bothers him when he sees TV shows offering "stereotypes, Homer Simpson and Al Bundy...the bumbling dufus of a dad. And you know, I've met a lot of cool dads and a lot of very good dads. We need to encourage that behavior." Due to the popularity of his channel, Rob authored a book "Dad, How Do I?" which shares about important character traits for a good life, his own faith in Christ, and 58 useful 'how-tos.'</p>
