CHILDREN AND AUTISM: TIME IS BRAIN #000

DESCRIPTION

CHILDREN AND AUTISM: TIME IS BRAIN is a sensitive and engaging portrait of two families faced with the daunting challenge of raising an autistic child. Autistic children typically have deficits in the areas of social interaction and communication skills. Today, scientists remain mystified about the causes of the complex neurological disorder, while experts claim that early diagnosis and appropriate intervention are the keys to helping autistic children reach their potential. During the program, therapists and a board-certified behavior analyst discuss diagnosis, early intervention and the treatment of autism.

CONSIDER THE CONVERSATION 2: STORIES ABOUT CURE, R #000H

DESCRIPTION

American medicine's success has created a new problem. That is, the vast majority of patients can now expect to die in a place and in a way that most wouldn't choose if only asked. Talking about dying, which is as natural as birth, is now taboo. And, the reality is patients and families are suffering needlessly. It is a problem we never intended to create and one that must be solved, but how? 21 months in the making and entirely funded by private donations, Consider the Conversation 2: Stories about Cure, Relief, and Comfort explores the effect of American medicine's success on the patient/doctor relationship and sheds light on the important role communication plays in helping both patient and doctor navigate the murky waters of severe chronic disease.

DROPPING BACK IN #104H
 WORKING FOR THE FUTURE

DESCRIPTION

In order for America's dropouts to attain college and career readiness, institutions must change. This program looks at innovative programs that are achieving success, including Lake Area Technical College in South Dakota, which works closely with employers to make sure students gain marketable skills; the Academy for College Excellence, a one-semester program developed By Cabrillo (CA) College to assist underprepared college students and achieving retention and completion rates far beyond traditional community colleges; and the Makers, a coalition of manufacturers and community colleges working to train much-needed workers that can help keep high-skills manufacturing in America.

NOVA #4123H

SURVIVING EBOLA

DESCRIPTION

In December, 2013, in a small village in West Africa, a young boy died from the dreaded disease, Ebola. Over the next nine months, the virulent killer would claim more victims than all previous Ebola epidemics put together. And for the first time, the disease escaped the isolated, rural villages where it had first appeared and traveled in infected patients by air to densely populated cities in several African countries. As the epidemic threatens to spiral out of control, NOVA reports from the hot zone, where courageous medical teams struggle to cope with a flood of victims, to labs where scientists are racing to test vaccines and find a cure. "Surviving Ebola" includes chilling first-hand interviews of what it's like to contract - and survive - this terrible affliction.

RACE TO NOWHERE #000

DESCRIPTION

Called a "must-see movie" by The New York Times, Race to Nowhere exposes a silent epidemic plaguing America's schools. The one-hour documentary features the heartbreaking stories of students pushed to the brink by over- scheduling, over-testing and the relentless pressure to achieve, and shines a light on the price that achievement-obsessed kids pay for this "race to nowhere." Mother-turned-filmmaker Vicki Abeles chronicles her own family's intense schedule, taking viewers on an intimate journey into the center of the daily struggle to balance academic commitments and cultural expectations with healthy personal needs. From nights doing homework at the dinner table, to the desks of education and child psychology experts, Race to Nowhere explores whether the current education system properly prepares students to think and work independently, creatively and collaboratively.

THINKING MONEY: THE PSYCHOLOGY BEHIND OUR BEST AND WORST FINANCIAL DECISIONS #000H
DESCRIPTION

THINKING MONEY: THE PSYCHOLOGY BEHIND OUR BEST AND WORST FINANCIAL DECISIONS leads viewers on an exploration of how and why people spend, save (or don't), and think about money. The United States is heading into a retirement crisis, led by debt-ridden Baby Boomers whose diminishing savings will not match their increasing longevity. To help Americans address this challenge, host David Coyne - a Washington, D.C.-based actor and comedian - travels the country and meets original thinkers mixing economics with psychology. Their enlightening and often amusing experiments into financial behavior illuminate how both the human brain and the marketplace can trick people into spending money.

UNDERSTANDING HEALTHCARE WITH PAULA ZAHN #000H
 DESCRIPTION

With the combination of the roll out of the Affordable Care Act and the shift of Baby Boomers into their retirement years, it is more important than ever to get back the basics on health care. Most people understand that the health care landscape has changed, but many questions remain. How do our health care options change as we get older? What are the best questions to ask when seeking out a plan? For those who are just getting the hang of Medicare, what needs to be re-learned in the wake of the ACA? Hosted by Paula Zahn, Healthcare in America will explore the ins and outs of health care in America, answering vital questions and educating consumers about the facts. Meet the Experts: A. Mark Fendrick, MD is a Professor of Internal Medicine and Health Management and Policy in the Medical School and School of Public Health at the University of Michigan. He is also the co-editor in chief of the American Journal of Managed Care. James Firman is President and CEO of the National Council on Aging, the nation's leading nonprofit service and advocacy organization representing older adults and the community organizations that serve them.

CHILDREN'S HEALTHCARE CRISIS #000H

DESCRIPTION

Children's Health Crisis - Family Health explores the role families play in the health of Tennessee's children. Family Health acknowledges that changes in family structure over the last fifty years have changed the roles many parents play. Focusing on early childhood, Family Health shares stories of non-traditional families overcoming challenges and demonstrates the importance of parents in child development. More children than ever are living with a single parent. With fathers statistically the most likely to be absent from their child's life, increasing the involvement of fathers may lead to improvement in the overall wellbeing of Tennessee's children.

MATTER OF DUTY: THE CONTINUING WAR AGAINST PTSD #000H

DESCRIPTION

A Matter of Duty tells the stories of Maine soldiers who were deployed to the wars in Iraq and Afghanistan, the Gulf War and the Vietnam War and returned home to face a new, relentless enemy: post-traumatic stress disorder. PTSD is a condition that is not well understood here in Maine and it will have lasting implications for the entire state. It is a national epidemic. A Matter of Duty details Kennebec Sheriff Randy Liberty's personal battle with PTSD and several veterans in his charge at the Kennebec County Jail. Liberty's honesty about his own condition and his efforts to help other veterans vividly depicts the continuing impact of war on the men and women who have served our country. Jennifer Rooks, host and Executive Producer of Maine Watch and winner of two regional Edward R. Murrow awards, and Charles C. Stuart, a recipient the George Foster Peabody and Alfred Dupont awards and eight national television EMMYs, have joined forces in A Matter of Duty to tell this story of the continuing war at home known as PTSD.

STREET VETS #000H

DESCRIPTION

The statistics are staggering: Over 100,000 United States Veterans are homeless every year. Many of these men fought several decades ago during the Vietnam Era. Beginning in the early 1990's, dozens of homeless veterans programs have come into existence across the United States. STREET VETS is the culmination of a year-long chronicling of the life and times of ten men living at Ogden, Utah's Homeless Veterans Fellowship - a transitional housing program aimed at assisting homeless Veterans into self sufficiency. The film provides a remarkably candid view of the long-term scars of war and personal tragedy that, in many cases have led to alcohol and drug abuse. ...and life on the streets.

DAY OF DAYS: JUNE 6, 1944 #000H
DESCRIPTION

On June 6, 1944, thousands of Allied servicemen landed on the shores of northern France, tasked with liberating western Europe from Nazi tyranny. Over the ensuing hours and days, the men faced decimating machine-gun fire, mortars and artillery, eventually fighting their way inland, but not before suffering a staggering number of casualties. To commemorate the 70th anniversary of the Normandy landing, four D-Day veterans gather at the famed Museum of World War II outside of Boston, Mass. to share their experiences from that fateful "Day of Days." Cameras eavesdrop on their conversations as they vividly recall details from their ordeal - from the perils of the amphibious assault to the invasion's gruesome aftermath. Their interactions with one another yield long-buried, and often painful, memories. They recount their transformations from boys to men, reveal their uneasiness with the term "hero," and grapple with why they survived when so many others did not.

GENETIC ROULETTE: THE GAMBLE OF OUR LIVES #000H
DESCRIPTION

When the US government ignored repeated warnings by its own scientists and allowed untested genetically modified (GM) crops into our environment and food supply, it was a gamble of unprecedented proportions. The health of all living things and all future generations were put at risk by an infant technology. After two decades, physicians and scientists have uncovered a grave trend. The same serious health problems found in lab animals, livestock, and pets that have been fed GM foods are now on the rise in the US population. And when people and animals stop eating genetically modified organisms (GMOs), their health improves. This seminal documentary by bestselling author Jeffrey M Smith provides compelling evidence to help explain the deteriorating health of Americans, especially among children, and offers a recipe for protecting ourselves and our future.

NOT YET BEGUN TO FIGHT #000H

DESCRIPTION

Retired Marine Colonel Eric Hastings remembers flight missions high above the death and destruction in Vietnam. From the cockpit, he traced meandering ribbons that cut through the jungle. He recognized the shapes of the trout streams of home. Every night, he dreamed about fly-fishing. When he returned home to Montana in 1969, to a nation decades away from diagnosing PTSD, he went to the water. He tied a fly onto a line and cast. The river, he says, healed him. In the space between war and a new battle, NOT YET BEGUN TO FIGHT unfolds. Hastings reaches out to five men, a new generation returning from war. He brings them to the river and shares his secret: there are places where you can still be consumed by a simple act, find joy in a fight, and be redeemed as you gently release another creature, unharmed, into quiet waters.

I REMEMBER BETTER WHEN I PAINT #000H

DESCRIPTION

Narrated by screen legend Olivia de Havilland, I REMEMBER BETTER WHEN I PAINT reveals the ways day-care centers, nursing homes and assisted-living facilities are employing creative therapies to treat Alzheimer's patients. This informative documentary offers pivotal new insights about the transformative power of drawing, painting, music and museum visits for those living with Alzheimer's and related memory disorders. Through personal stories and interviews with noted physicians, the film explores the benefits of this approach, including an improved quality of life for the patient and a restored dialogue with their caregivers.

WANTS & NEEDS: A GENERATIONAL STUDY ON ECONOMIC DE #000H

DESCRIPTION

"What are the causes of recessions and depressions? Why do they keep repeating?" WANTS AND NEEDS is a documentary which attempts to answer exactly these questions. Over a six

year time span which began before the most recent recession, and continued through all of the governmental actions which happened before during and after the recession, Mantis and Moon proprietor Cap Averill II interviewed hundreds of people and scanned volumes of C-Span governmental footage to retell the story from a generational perspective. Is it possible that generational dynamics are in fact the cause of cyclical recessions and depressions? Historical precedents seem to suggest so. In addition to dwelling on the errors which our society has repeated for centuries, Wants and Needs also tries to provide potential ideas as solutions for future generations."

**FROM JESUS TO CHRIST: THE FIRST CHRISTIANS
 DESCRIPTION**

Drawing upon new and sometimes controversial historical evidence, FRONTLINE transports viewers back two thousand years to the time and place where Jesus of Nazareth once lived and preached and challenges familiar assumptions and conventional notions about the origins of Christianity. The first program traces the life of Jesus of Nazareth, exploring the message that helped his ministry grow and the events that led to his crucifixion around 30 C.E. The film then turns to the period that followed Jesus' death, examining the rise of Christianity and concluding with the first revolt the bloody and violent siege of Jerusalem and the beginning of a rift between Christianity and Judaism. New evidence suggests that Jesus' followers, because of their diversity and the differences in their cultures and languages, looked at and interpreted Jesus and his teachings in many different ways. In the second program, FRONTLINE examines the period after the First Revolt, tracing the development and impact of the Gospels and looking at the increasingly hostile relationship between the Christians and the Jews. The film looks at another bloody Jewish war against Rome, the Second Revolt, assessing its impact on the Christianity movement. The broadcast documents the extraordinary events of the second and third centuries in which Christianity grew from a small Jewish sect to an official religion of the Roman Empire.
