The Republican majority in Congress is about to get even smaller. Bill Johnson of Ohio is planning to leave earlier than expected. He'll be taking over the presidency of Youngstown State University. His departure will take yet another vote away from the GOP after former house Speaker Kevin McCarthy resigned. That means Republicans will only be able to lose two votes on any party line measure as Congress still has yet to deal with major spending bills in the weeks ahead.

Congressional leaders have announced an agreement on overall spending levels for the government's current fiscal year. A move that could help avoid a partial government shutdown later this month. The tentative deal does include some spending cuts although not nearly enough for many conservatives. The one-year agreement comes as America faces a long-term problem as the national debt just passed \$34 trillion last week. That number is still growing at an alarming rate. The Congressional budget office projects the debt will hit \$50 trillion by 2033 and just interest alone on the debt is surpassing spending on the US defense budget.

2024 Presidential race Republican candidate Nikki Haley says she's still running after losing to Donald Trump Saturday by 20 points in her home state of South Carolina. Rejecting calls to exit the race Haley held a rally Sunday evening in Michigan, which holds its primary on Tuesday. Haley says it's not the end of her campaign story. It was her fourth major state loss in a row and polls show she trails in Michigan by a wide margin. Trump has now swept all of the GOP's early season primaries. Haley says she'll keep going until at least the March 5th Super Tuesday primaries next week, when 15 states vote. Meanwhile Republican National Committee chairwoman Ron McDaniel announced he's stepping down after Super Tuesday. McDaniel has served in the position for seven years. Trump has already endorsed a new slate of leaders at the RNC.

A major step forward for American businesses in space flight today as the first US lunar lander in more than 50 years rocketed toward the moon from Florida overnight. The Astrobotic technology moon lander is riding on a brand new rocket the Vulcan from United launch Alliance. But another company also has a lander ready to fly and could get there first. NASA gave the two companies millions to build and fly their own lunar landers. The space agency wants the privately owned landers to scope out the environment before astronauts arrive.

Search and rescue teams are working to find survivors of a major bridge collapse in Baltimore. A span of the Francis Scott Key bridge fell into the water after a containership struck it early this morning. Workers were on the bridge at the time and several vehicles plunged into the harbor. At least two people were rescued and authorities are still searching for at least seven more. Officials say the ship lost propulsion prior to impact.

Pastor Lori Porter, Pastor Tim Schulte, Pastor Timothy A. Roeser, Pastor Ricky Holmes, Pastor Nancy Galambos. Is it wrong for pastors to call themselves a doctor if they haven't actually earned their doctorate degree? Without a doubt. It is wrong to claim a title for something for which you have not earned. There are people who have been given honorary doctorate degrees but you have to be careful about laying claims to that title. We must not think of ourselves higher than we are. Give ourselves a basic title. The title doesn't make the person, the person makes the title.

Pastor Lori Porter, Pastor Ricky Holmes, Pastor Nancy Galambos, Pastor James Friedman, Pastor Timothy A. Roeser. Is it best for those in Ministry to go to Seminary or obtain formal training? I personally think it is best to go to Seminary. Because you're learning more than just about God. You're learning about the business end, you're learning about different personalities. It's important that you educate yourself in anything you plan to lead people in.

Apostle Jimmie K. Rodgers, Dr. Anthony D. Shannon, Sr., Pastor Deante Lavender, Dr. Apostle Webster, Pastor Mark Galambos. I have prayed for healing but I have never received it. Why does God not answer my prayer? If it is in God's will that you will be healed, I will collaborate with you on that. The Bible tells us that our days are numbered. We don't get to choose that number or choose how we exit this space. I try to live my life the best way that I can. Trials and tribulations will hit us all. You are not the only one with unanswered prayers. Jesus did too. God knows our beginning and ending and God has a plan for you.

Dr. David Gray, Pastor Mark Galambos, Pastor Joseph Colini, Pastor Paxton Price, Pastor David Hughes II. Is it wrong to have a loved one removed from life support? This is a difficult question to give a blanket answer. Whatever people decide to do, that's between them and their doctor and their lawyer. Maybe the person is afraid to live a life of suffering or live a life of artificial means, or be remembered in that way. If that's their wish, we have to respect that. If the family wishes to wait on God and hope for a miracle, I'd respect that too. I think there's a balance, but it's up to the individual. But I don't see anything in the scripture that says yay or nay.

Dr. David Gray, Pastor Joseph Colini, Pastor Payton Price, Pastor David Hughes II, Apostle Kimberly McClinton. Does God afflict people with sickness? No. If you look at the story of Job, when the devil afflicted Job with sickness, the devil's game was to get Job to blame God for what the devil did. It is the heart of God, the same as a good parent, to want to be a blessing to their children. You want to teach them to do the right thing, but not through sickness. He has more compassion than earthly parents.

Dr. David Gray, Pastor Payton Price, Pastor David Hughes II, Apostle Kimberly McClinton, Pastor Joseph Colini. Is it wrong to use pain medicine prescribed by a physician after a certain amount of time? No, it's not. But keep in mind, that pain medicine simply will dull the pain. It doesn't fix or change anything. If you need that pain to be stopped, spend time in the healing of God. By his stripes, you will find healing.

Pastor Tim Walker, Bishop Demetrius Davenport, Pastor Tyrone Edwards, Dr. Booker Person, Pastor Nancy Galambos. Would it be considered suicide in God's eye if I stop chemotherapy? I don't think that it would be considered suicide in God's eyes. But I do think that you need to do your due diligence and research chemo and what it does do your body. It kills the good cells but it also kills the bad cells. So, if you have the type of faith to know that God can heal you, then you need to pray to him and ask for direction in that. He does not want to see anyone perish. First be sure you are where you need to be in your salvation and ask him what you should do in with your chemotherapy.

Very sorry for your loss. I want to remind you that Earth has no pain that Heaven cannot heal. I want to offer to you the grace of God. I feel like sometimes we feel like we need to have it altogether but there are no special words that we have to say to God to have him intercede on our behalf. Apostle Jimmie K. Rodgers, Pastor Artie Kassimis, Pastor Nancy Galambos, Pastor Deante Lavender, Dr. Apostle Webster. Why am I so afraid of death even though I am saved? The fear of death is the fear of death. And the fear of death is the fear of death on all levels. Most people fear the unknown. I used to fear death but I don't fear it anymore. It has no strain over me. You fear it because you still have some reservations, or there are many reasons. But you don't have to.
