Community/State Culture	Sunflower Journeys #3211 (KTWU)	In the Fall of 1987, public television station KTWU-TV began to produce a series of programs related to Kansas history, geography and culture. Currently broadcast throughout the state of Kansas, Sunflower Journeys has evolved into a series that covers a broad range of topics illustrating various aspects of the past, present and future of the Sunflower State. Bolstered by the ongoing support of the Kansas Humanities Council, the series draws upon the expertise of local scholars to provide thoughtful explorations of the state and its social, cultural and natural resources. Each year, KTWU-TV produces a new series of programs for the Sunflower Journeys series. These programs primarily feature the insights of knowledgeable individuals who provide the expertise and experiences upon which the resulting stories are based. Although the three segments of each program are designed to complement each other, they may also be viewed separately, which may be desirable for classroom settings.	08:30 pm 02:30 pm	12/05/19 12/06/19	1 Hour 30 Minutes

Environment/Nature/Natural Disasters	PBS Newshour #12727	For years, Washington has seen a bipartisan push to change laws, regulations and incentives to make household appliances and goods more energy efficient. In a warming world, many scientists and advocates say even tougher standards should be set. But President Trump is moving to roll back some of those laws, arguing they've gone too far. John Yang talks to The Washington Post's Juliet Eilperin.	06:00 pm	12/24/19	6 Minute Segment
Environment/Nature/Natural Disasters	PBS Newshour #12728	By almost any measure, 2019 was a year of especially sobering news on climate change, with grim warnings about what could happen in the future along with extreme weather events occurring now. The year also saw a global protest movement, initiated by young people, arise to try to tackle the problem. But as Miles O'Brien reports, the call for action was often divorced from political reality.	06:00 pm	12/25/19	8 Minute Segment
Environment/Nature/Natural Disasters	PBS Newshour #12729	In our news wrap Thursday, businesses in parts of Hong Kong were at a standstill as anti-government protesters targeted shopping malls for a third consecutive day. Health/Health Care/Safety	Oceans of Pink (APTEX)	OCEANS OF PINK is an inspirational one-hour documentary that highlights the explosive growth of dragon boat racing among breast cancer survivors globally, and the growing participation in the sport among Hispanic women. The film follows the efforts of Miami boat leader and breast cancer survivor Kim Bonomo to expand the movement with new teams throughout Florida and her campaign to make the state the host of the Fourth International Participatory Dragon Boat Festival. It's an emotional journey that tells the stories of several Latina women whose struggles with the disease became more desperate because of their advanced-stage diagnosis. Their stories speak to a widespread problem in the Hispanic population: women tend to seek breast scans much later than other groups, preventing early detection. The stories in OCEANS OF PINK build to the international race event in Sarasota, Fla., the first of its kind in the United States. Thousands of survivors from around the globe celebrate the sisterhood of dragon boaters, who have found a community of support that is helping women overcome the challenges of cancer.	03:00 pm	10/06/19	1 Hour

National Politics/Government	PBS Newshour #12714	One of President Trump's lines of defense in the impeachment inquiry into his handling of Ukraine policy is the theory that Ukraine had intervened in the 2016 U.S. presidential election. Trump and his supporters have repeatedly claimed that Ukraine colluded against him. William Brangham talks to Lisa Desjardins for more about this unsubstantiated claim and where it originated.	06:00 pm	12/05/19	8 Minute Segment
National Politics/Government	PBS Newshour #12714	Syndicated columnist Mark Shields and New York Times columnist David Brooks join Judy Woodruff to discuss the week's political news, including how the first House Judiciary Committee hearing on impeachment affected the case against President Trump, what Trump's contentious visit to a NATO summit means for U.S. foreign policy and the fallout from Sen. Kamala Harris' withdrawal from the 2020 race.	06:00 pm	12/05/19	12 Minute Segment
National Politics/Government	PBS Newshour #12715	Paul Volcker, who served as chair of the Federal Reserve for two presidents, died Monday. His passing came 40 years after he drove interest rates to record highs in an effort to tame double-digit inflation. Known for his height and his stubbornness, Volcker remained a trusted Washington resource into the Obama administration. Economics correspondent Paul Solman remembers Volcker's life and work.	06:00 pm	12/06/19	2 Minute Segment
National Politics/Government	PBS Newshour #12715	On the 2020 campaign trail, Sen. Elizabeth Warren and Pete Buttigieg have been challenging each other over transparency and potential connections to corporate interests. Another major issue is support among African American voters, with whom former Vice President Joe Biden continues to lead. Meanwhile, Sen. Cory Booker lamented the all-white lineup for the upcoming debate. Amna Nawaz reports.	06:00 pm	12/06/19	3 Minute Segment

Science/Technology	NOVA #4119 (PBS)	Almost a century ago, paleontologists found the first tantalizing hints of a monster even bigger than Tyrannosaurus Rex, perhaps the largest predator ever to walk the Earth: spectacular fossil bones from a dinosaur dubbed Spinosaurus. But the fossils were completely destroyed during a World War II Allied bombing raid, leaving only drawings, lots of questions, and a mystery: What was Spinosaurus? Now, the discovery of new bones in a Moroccan cliff face is reopening the investigation into this epic beast. What did it feed on and how? Why did it grow so big? We follow the paleontologists who are reconstructing this terrifying carnivore piece by piece, revealing a 53-foot-long behemoth with a huge dorsal sail, enormous, scimitar-like claws, and massive superjaws, tapered toward the front like a crocodile, hosting an army of teeth. It is a painstaking puzzle, and it is missing many of its pieces. NOVA follows researchers on the hunt for more fossils, tracing ancient history along with the very modern drama of how the bones of the Spinosaurus were discovered, seized, bombed, stolen and smuggled across international borders. Bringing together experts in paleontology, geology, climatology and paleobotany, this NOVA/National Geographic special brings to life the lost world over which Spinosaurus reigned more than 65 million years ago.	08:00 pm	12/11/19	1 Hour

Science/Technology	NOVA #4110 (PBS)	What would it be like to go inside the mind of an animal? We have all gazed into a creature's eyes and wondered: what is it thinking about? What does it really know? Now, the revolutionary science of animal cognition is revealing hard evidence about how animals understand the world around them, uncovering their remarkable problem-solving abilities and exploring the complexity of their powers of communication and even their emotions. In this mini-series, NOVA explores these breakthroughs through three iconic creatures: dogs, birds and dolphins. We'll travel into the spectacularly nuanced noses of dogs and wolves, and ask whether their reliance on different senses has shaped their evolution. We'll see through the eyes of a starling in flight and test the tool-using skills of the smartest of birds, the crow. We'll listen in as scientists track dolphins in the Caribbean and elephants on the African savannah, trying to unlock the secrets of animal communication. As we discover how researchers are pushing the animal mind to its limits, we'll uncover surprising similarities to -- and differences from -- the human mind. What makes an animal smart? Many scientists believe the secret lies in relationships. Throughout the animal kingdom, some of the cleverest creatures - including humans - seem to be those who live in complex social groups, like dolphins, elephants and apes. Could the skills required to keep track of friend and foe make animals smarter? To find out, NOVA goes inside the social lives of some of the smartest animals on the planet.	08:00 pm	12/18/19	1 Hour
Science/Technology	PBS Newshour #12726	Our relationship with technology is more integrated into our daily lives than ever. Science/Technology	Make48: Season 2 (APT)	MAKE48 is an exciting look at the entire invention process from idea to store shelf. In this unique series, teams compete to develop a new product idea, plan it, make a prototype and pitch it - all in just 48 hours. In the first four episodes, the viewer is immersed in the action as the invention process unfolds. With the constant pressure of the "ticking clock," the teams brainstorm, design and build their ideas in order to pitch a working prototype to a team of industry-savvy judges. Industry A-listers roam the competition floor and give advice on all facets of product design and development, and a panel of industry experts weigh in on the prototype's function and marketability. At the end of the second day, the field will be narrowed down to just three teams who advance on the path to market. Judges include: buyers from the home shopping channel QVC, Squatty Potty's Judy Edwards (a Shark Tank mega-success), and Wet and Forget's Adam Smith. In episode five, the prototype judging begins and only three inventions are chosen to move on to episode six, "The Road to Marketplace," where they are fine-tuned, tested, and re-engineered by national design firms. Then, in episode seven, the top three teams are paired with national creative marketing firms to dive into the world of marketing, creative strategy, crowd-funding, product video production and brand strategy. Episode eight is the finale, where the product developers present the final design along with manufacturing and marketing plans to an industry panel and crowd-funding experts at Indiegogo. The product crowdfunding campaigns are launched on Indiegogo to promote the product and gain critical consumer feedback in advance of the actual retail launch. The finale ends with the final outcome of the three new products heading to market.	02:00 pm 05:30 pm	Sundays Sundays	30 Minutes

"The Cat in the Hat Knows a Lot About That!" features six-year-olds Sally & Nick, best friends and next door neighbors, who are transported on magical journeys to all corners of the globe where the natural world becomes their playground. With the Cat as their guide, his two energetic helpers, the zany duo, Thing One and Thing Two and the enigmatic Fish along for the ride, every outing becomes an unpredictable adventure. In each episode, Sally and Nick head off with the Cat in his one-of-a-kind custom vehicle, the Thinga-ma-jigger, a quintessentially Seussian contraption that instantly transforms from plane to boat to submarine with just a flick of the jigger-ma-whizzer or a honk of the shrinkamadoodle. They go everywhere from the ocean bottom, to a rainforest, or to the centre of a beehive. The Cat in the Hat "knows a lot" but he doesn't know everything making him the perfect guide for learning and fun.	11:30 am	Weekdays	30 Minutes

Youth & Children's Programming	Nature Cat (PBS)	NATURE CAT follows Fred, a house cat who dreams of exploring the great outdoors. In each episode, once his family leaves for the day, Fred transforms into Nature Cat, "backyard explorer extraordinaire." Nature Cat can't wait to get outside for a day of backyard nature excursions and bravery, but there's one problem: He's still a house cat with no instincts for nature. Like many of today's kids, Nature Cat is eager and enthusiastic about outside activities, but is at times intimidated by them. With the help of his animal friends, Nature Cat embarks on action-packed adventures that include exciting missions full of nature investigation, "aha" discovery moments and humor, all while inspiring children to go outside and "play the show."	06:30 am 09:30 am	Weekdays Sundays (Ends 11/10)	30 Minutes

Youth & Children's Programming	Xavier Riddle and the Secret Museum (PBS)	I am Johann Sebastian Bach Xavier is pumped to once again rock the school talent show with his rendition of Hot Cross Buns on the recorder. Only problem is, he hasn't exactly improved since last year's performance. In fact, he may have gotten worse! How could this happen? And what can he do about it? To the Secret Museum! Xavier and the gang go back in time to meet someone who knew exactly how to rock out to the max: Johann Sebastian Bach. Joining Bach as he works on his song over and over again, learns all he can about his instrument, and travels miles by foot to watch other musicians play helps Xavier to see there's only one way he can get better on the recorder: he'll have to work hard and practice. Curriculum: "If you want to get better at something, you have to work hard and practice." I am Marie Curie Brad is crestfallen when he shows up for his first meeting of the Butterfly Club, only to find out it's for kids 7 and up. And he's only 6! Does this mean he'll never get to learn more about his beloved butterflies? To the Secret Museum! Brad and the gang travel back in time to meet someone who never let anything stand in her way: Marie Curie. Marie dreams of one day being a scientist, but those dreams seem to shatter when she finds out girls aren't allowed to go to university. How silly! But, Marie doesn't let that stop her; she finds her own secret university where she can learn, then starts up her very own lab and makes an amazing scientific discovery! Marie Curie inspires Brad to follow his dreams no matter what. Curriculum: "Follow your dreams, no matter what."	04:00 pm ***** 08:00 am	Weekdays ***** Sundays (Starts 11/17)	30 Minutes
