I John 2:15. We should not love the world system which is opposed to God and leads us away from Him. We should not look like the world even if we cannot line up with modern styles. Adam and Eve had a choice whether to obey God or not. Satan led them away from God and the way they appeared became important. Their remedy was inadequate. God provided a suitable remedy. The Word of God commands modesty. The character of God demands it. The wrath of God necessitates it. The nature of man calls for it.
