*The above programs were either produced, funded or acquired and scheduled by KET. The list does not take into account the educational programs KET airs during the day and overnight. This list also does not take into account numerous programs fed from PBS, many of which cover the topics above. As noted, many of these programs air at various times throughout the week after their original broadcast on the KET network of channels: KET, KET2 and KET KY (The Kentucky Channel).*

*KET polled its viewers again in March 2015 to find out what issues in the State were of concern to them. The resulting priority list - with the Environment taking the top spot, followed closely by the Education, Health and the Economy - was culled from the results of that poll of over 500 respondents, which took place via online voting and via mail. The priority list differs slightly from previous years in that Health takes over the #3 position from Economy. Viewers will be polled again in March and April 2016 in order to update this priority list and plan productions for future months.*

*As witnessed by the recent polling, KET continues to see a growing interest in programs about health and we have expanded our health programming, taking on the production of the weekly series "Kentucky Health" and providing more online content.*

*During this last quarter, KET provided a number of political specials that featured candidates in the upcoming November election. On Saturday, August 1, we broadcast live for four hours from Fancy Farm, the annual political forum held in Western Kentucky. We then produced an hour special featuring clips from all of the major candidates' speeches which aired the following Monday night at 8pm. In September, Kentucky Tonight began their candidate forums with candidates from each of the major state races coming on to discuss the issues.*

*Throughout the summer KET continued to carry various Legislative meetings and sessions the state capitol and several of the topics that were addressed in these meetings were also topics that were covered on subsequent episodes of "Kentucky Tonight."*

*KET aired a number of specials that were provided by independent producers during this quarter. These productions included the "Catching a Killer: Colon Cancer in the Bluegrass," "Courageous Learning," "The Filson Presents," "UK Wildcat Insights," "Covington at 200: Points of View," "Milton-Madison Bridge: History of the Ohio," "Buck's Big World," (this is a new series specifically created for Kentucky children and families) and "kNOWMORE Nonprofits."*

*KET continues using its statewide digital channel, the Kentucky Channel (KET KY), to feature a diverse variety of programming by, for and about Kentuckians. From live legislative coverage in Frankfort, to Kentucky arts and music programs, documentaries about the history of the Commonwealth, and programs about the issues that affect all citizens, from health to the economy, The Kentucky Channel was designed specifically for the viewers of Kentucky. Utilizing KET's program archives and current production projects, along with productions from independent producers around the state, partnering broadcast entities, and a variety of other sources, the Kentucky Channel provides Kentucky programming 24/7.*
