April 15, 2022 – Drought / Water Conservation

The City of Boerne is officially in Stage 2 for Water Conservation as the last time Boerne had more than an inch of rainfall was last November. This means both residential and commercial utility customers are required to limit the use of water for landscape irrigation. Sprinklers for lawns, and gardens are only on your designated day based on your address, and only between the hours of 7 p.m. and 11 a.m. You can water your lawn by hand with a hose at any time. Other ideas to save water include taking shorter showers, fix leaks in toilets, and don't let the water run down the drain when you brush your teeth. With the dry grass and brush, our fire departments have been busy lately.
