Friday: On today's WIHS Journal, hear about the specialized and targeted work of reaching young people identified as "Millennials" with the Gospel of Jesus Christ. Young people, as they often have been, are difficult to reach with the Good News as much as anything, because they're making a transition in life that has a lot of details in it. As Carl Moeller from Biblica points out, world events and technology distract many young people from life essentials including a relationship with Jesus Christ. Hear this conversation courtesy of Mission Network News on the WIHS Journal with Paul Kretschmer. It airs today at 3:15am; also at 12:13 & 5:49pm here on WIHS Middletown—Live and Local 24/7!

Saturday: Carmel Natelli is the guest on the next edition of the health-information radio program — Healthline. Ms. Natelli, a registered nurse with Middlesex Hospital's Cancer Center, will discuss skin cancer— why it's on the rise and how it may be prevented. Skin cancer is the uncontrolled growth of abnormal skin cells. It is estimated that one in five Americans will develop skin cancer in their lifetime making it the most common form of cancer in this country. Early detection is the best chance for successful treatment. Healthline with Lou Carta is produced by the Middletown Health Department and can be heard Saturday, July 2, at 3:15 a.m., 12:15 p.m., and 5:10 p.m. on WIHS Middletown—Live and Local 24/7!
