"MARZHAYEH DANESH" (APSIH GROUP)

SUNDAYS 6:00 PM to 7:00PM

Brief Description: This program is assigned to introduce Iranian-American professors and researchers to the community and educate its listeners to be more aware about themselves and the environment that they live in. This program also brings the attention to its listeners the latest achievements in science, research, and updates. Listeners participate in this show.

Date(s)	Host	Guests Names / Title / Affiliation	Title of discussion:
10//01/23	Heidarzadeh	Dr. Sharareh (Sherri) Gholamin, M.D., Ph.D., after graduation from medical school in Tehran, Iran, initially pursued cancer immunotherapy studies at Stanford University with focus on developing myeloid checkpoint blockade therapies. She later obtained her Ph.D. through her work at Caltech/City of Hope, focusing on the development of innovative immune-oncology approaches for combating tumors resistant to immunotherapies. Currently, she serves as a physician resident at UCLA/City of Hope, where she simultaneously continues research efforts; her primary objectives involve deepening our understanding of the intricate tumor microenvironment within resistant tumors and deciphering the mechanisms that govern both responsiveness and resistance to immunotherapies, with a specific emphasis on CAR T cell therapies.	Unveiling Silent Realities: Understanding Tumors' Resistance Against Current Treatments
10/08/23	Heidarzadeh	Dr. Sharareh (Sherri) Gholamin, M.D., Ph.D., after graduation from medical school in Tehran, Iran, initially pursued cancer immunotherapy studies at Stanford University with focus on developing myeloid checkpoint blockade therapies.
