Station Call Letters: KVTA
1st Quarter February 2021
Prepared By: Tom Spence

<p>Program Name/Segment - Radio Health Journal</p>	<p>Date: 02062021</p>	<p>Program Format/Content Description:Healthcare workers in ER's and ICU's are in their 11th month of fighting COVID-19 and its exhaustion and depression. Two front line doctors describe how they're managing to stay optimistic amid so much chaos, and how the vaccine has given them a goal keeping them afloat.</p>
<p>Issue Addressed: health care; public health; employment issues; mental health; emergency preparedness; alcoholism, substance abuse, and suicide</p>	<p>Time: 6:30a Duration: 30 min</p>	<p>Guests: Dr. Christopher Michos, emergency medicine physician, Norwalk Hospital, Norwalk, CT; Dr. Gabriel Lockhart, ICU Director, St. Joseph Hospital, Denver, and Asst. Prof. of Medicine, National Jewish Health. Professional athletes are among the most superstitious of all people. While we may be tempted to think these rituals have no effect on performance, psychologists say that if an athlete believes it helps, then it actually does. Experts explain how superstitions work in sports and in life. Guest: Dr. Stuart Vyse, author, <i>Believing In Magic: The Psychology of Superstition</i>; Dr. Alex Lickerman, author, <i>The Undefeated Mind</i></p>
<p>Program Name/Segment - Radio Health Journal</p>	<p>Date: 02132021</p>	<p>Program Format/Content Description:The number of cars on the road has been dramatically lower during the pandemic, yet the number of crash deaths has actually increased. That means the number of crashes and traffic deaths per mile driven have skyrocketed. Experts discuss this unprecedented scenario and what we can do about it. Guests: Dr. Mitchell Doucette, Dept. of Health Policy and Management, Johns Hopkins</p>
<p>Issue Addressed: public health; public safety; auto safety and highways; drunk driving and alcohol abuse; police</p>	<p>Time: 6:30a Duration: 30 min</p>	<p>Bloomberg School of Public Health; Ken Kolash, Manager of Statistics, National Safety Council; Dr. Sarah Kaufman, Assoc. Director, Ruden Center for Transportation, New York Univ. Proof of having received COVID-19 vaccine may soon be required for boarding a plane, going to a ball game, going to school, having a job or eating in some restaurants. An expert involved in the design of a passport app discusses how it would all work. Guest: Paul Meyer, CEO, Commons Project Foundation</p>

<p>Program Name/Segment - Radio Health Journal</p>	<p>Date: 02202021</p>	<p>Program Format/Content Description: Parkinson’s disease has become one of the fastest growing diseases and causes of disability in the world. Evidence shows that environmental toxins such as pesticides play a role. Experts discuss what we know about Parkinson’s and how we could curtail its rise, saving lives and restoring quality of life. Guests: Dr. Ray Dorsey, Prof. of Neurology, Univ. of Rochester Medical Center and Dr. Michael Okun, National Medical Director, Parkinson’s Foundation and Exec. Director, Norman Fixel Institute for Neurological Diseases, Univ. of Florida, co-authors, <i>Ending Parkinson’s Disease: A Prescription for Action</i>. People suffering from mental illnesses often go through a number of medications before they find one that works. A genetic test seeks to discover this information right away, so patients don’t have to wait.</p>
<p>Issue Addressed: technology; health care; mental illness public health; environment, pollution, and pesticides; veteran’s issues; rural issues; agriculture;</p>	<p>Time: 6:30a Duration: 30 min</p>	<p>One of the test’s developers discusses its uses. Guest: Dr. Mark Pollack, Prof. of Psychiatry and Behavioral Sciences, Rush Univ. Medical Center and Chief Medical Officer, Myriad Neuroscience</p>

<p>Program Name/Segment - Radio Health Journal</p>	<p>Date: 02272021</p>	<p>Program Format/Content Description: The COVID-19 pandemic has affected women’s employment much more dramatically than men, especially women of color, both because of the fields they work in and the need to take care of children who are distance learning. Experts discuss how this affects families, the workforce overall, and what can be done to ease the problem.</p>
<p>Issue Addressed: economy and workplace issues; unemployment; women’s issues; minority issues; safety net; need for childcare; public health; retraining</p>	<p>Time: 6:30a Duration: 30 min</p>	<p>Guests: Dr. Kate Bahn, Director of Labor Market Policy, Washington Center for Equitable Growth; Dr. Jeff Hayes, Chief Data Analyst, Institute for Women’s Policy Research; Michael Madowitz, economist, Center for American Progress. Hormones were unknown until a little more than 100 years ago, and experts admit we still have a lot to learn. An expert author details the discovery of hormones and how our growing knowledge has shaped treatment of many diseases and conditions. Guest: Dr. Randi Hutter Epstein, Yale Univ and Columbia Univ. and author, <i>Aroused: The History of Hormones and How They Control Just About Everything</i></p>
