Mexican Government

Program: Alex El Genio Lucas

When: June 20, 2015 at 5:58 am

Description: Perico explains why Mexico is a country with a lot of corruption. Even if political parties see people cheating out the system within themselves, they don't care and protect each other. He argues that Mexican government doesn't care about their own people and only cares about money and having powerful position in the government. Every government member is at fault for corruption, lies, making the country a war zone and Mexico being at poverty. Perico also explains that while most government officials, family members or kids go out and travel and spend all the Mexican citizens' money. Mexico has no money for better pay or better jobs for their own people. Most of government official's kids drive exclusive and reinforced vehicles; they attend private schools, and travel all over the world. So while they laugh at Mexican citizens with all the money they spend, Mexico will continue to be what it is poor and corrupted.
