Re: Mandatory Carriage Election for WACP, Atlantic City, NJ

Dear Mr. Nissenblatt:

Pursuant to Section 614 of the Communications Act of 1934, as amended, and Section 76.64(f)(4) of the rules of the Federal Communications Commission, this will inform you that Western Pacific Broadcast, LLC, the licensee of Television Station WACP, Atlantic City, NJ (the "Station") hereby elects mandatory carriage of the Station's television signal pursuant to Section 76.56(b) on all cable systems operated by Comcast Corporation, any one or more of the companies listed above, or any one or more of the direct or indirect subsidiaries or affiliates of Comcast Corporation or any one or more of the companies listed to the extent they serve the Philadelphia, PA Designated Market Area ("DMA"), including without limitation those serving the community units listed on Exhibit A hereto. Carriage is sought solely within the DMA. The Station is a new station that is licensed to Atlantic City, NJ, which is part of the DMA. The Station is scheduled to begin commercial broadcasting on June 8, 2012. The Station will present the programming of Cannella Response Television, LLC, as well as other offerings of high

Page 2

quality programming. With reference to FCC Rule 76.56(b)(5), the Station will not substantially duplicate the signal of any other local commercial television station that is carried or retransmitted on your systems within the DMA and will not have a network affiliation duplicating that of a local commercial television station carried on your systems within the DMA.

The Station is assigned virtual channel 4 and elects carriage on that channel as of right under FCC Rule 76.57. Please be advised for purposes of complying with the FCC's material degradation requirement that the station will commence broadcast with one program stream employing virtually the entire bit stream (19.4 mbps) of the channel.

The Station is a local commercial television station as to all cable systems operating in the DMA, as defined in FCC Rule 76.55(c). For purposes of that definition, please be advised that in the event that the Station does not deliver an over the air signal of good quality as specified in FCC Rule 76.55 (c)(3) to the principal headend(s) [as defined in FCC Rule 76.5(pp)] of the cable systems covered by this election, the Station will be responsible for providing equipment and bearing the costs of delivering such requisite signal of good quality to those headend(s) as required to comply with FCC Rule 76.55 (c), including without limiting the foregoing, the costs for any needed specialized equipment. Please note that this correspondence is not a demand for carriage; rather it is the election notice new stations are required to make under FCC Rule 76.64(f)(4).

Official correspondence in connection with this letter should be directed to the undersigned at the Fletcher, Heald & Hildreth, PLC address on this letterhead as the Station's contact person, with a copy to Mr. Bray at the address below.

Please contact the undersigned if you should have any questions concerning this matter.

Sincerely,

M. Scott Johnson  
Thomas J. Dougherty, Jr.
