Subject: Will you please have your news commentators state the truth!

Your On air news commentator just said FBI Director Comey's letter states that the investigation into Hillary Clinton's email has been "re-opened". That is in fact not the case at all. I have provided a link to his letter for your reference.

Rep. Jason Chaffetz, sent a tweet, stating inaccurately that the case has been reopened and has been soundly criticized for doing so. If you're going to expect your listeners to continue to listen to KJZY, please make accurate statements as they relate to the day's current news! To do otherwise is simply inexcusable!

Kathleen Gianandrea

inaccurate Tweet:

**Jason Chaffetz** @jasoninthehouse Oct 28

FBI Dir just informed me, "The FBI has learned of the existence of emails that appear to be pertinent to the investigation." Case reopened

---

Kathleen;

Thank you for your email expressing concern for the accuracy of the news stories on KJZY. I appreciate your interest, and take it seriously. It is my intention to be accurate and fair with the important issues of the day.

I use several sources for my new information. Even with major news providers I find discrepancies, which makes sorting out the truth even more of a challenge. As you can imagine, the political environment right now is especially vulnerable to the sways of the writers' own preferences, so I am trying to be careful to find the facts in what they write.

Here is the Associated Press piece I found this morning to base my story:

**Newsire** WASHINGTON (AP) — Former Attorney General Eric Holder is blasting FBI Director James Comey for divulging that the bureau has reopened its investigation of Hillary Clinton's emails. Holder writes in a Washington Post op-ed that Comey has unleashed "a torrent of conspiracy theories and misrepresentations." Comey said information had turned up in an unrelated investigation of former Congressman Anthony Weiner, the estranged husband of Clinton aide Huma Abedin.

I trust AP for accuracy, however, I can see your point. It is a bit brief and could be interpreted a number of ways, but hopefully you see how I based my facts.

Again, thank you for taking the time to express your feelings. Please let me know whenever you have concerns.

Sincerely,

Ted
