ISSUE: Health

Open Line

Date: 4/1/23

Time: 6:00 AM

Duration: 5 minutes of a 60-minute program

Guest: Dr. Matthew Maenner

The rate of children diagnosed with autism in the U.S. has been growing steadily since 2000, but two new reports from the CDC highlight disparities in the types of children identified to have autism spectrum disorder and setbacks in early detection. In 2020, about 1 in 36 children had been diagnosed with autism by age 8. That's up from a prevalence of 1 in 44 children in 2018 and 1 in 150 children in 2000. What's driving this increase? Is it more than just early detection? KNX's Rob Archer and Charles Feldman speak with Dr. Matthew Maenner, epidemiologist who leads the CDC's Autism and Developmental Disabilities Monitoring Network

Open Line

Date: 4/8/23

Time: 6:00AM

Duration: 5 minutes of a 60-minute program

Guest: Dr. Lisa Stellwagen

Human milk has been around for as long as humans. Yet, there's so much mystery surrounding it. UC San Diego will now study human milk. The school formally opened its human milk institute, the first academic institution in the U.S. devoted to a crucial element of human nutrition that science is, in many ways, only beginning to understand. KNX's Charles Feldman and Rob Archer speak with Dr. Lisa Stellwagen, pediatrician and co-director of the institute

ISSUE: Health (continued)

Date: 4/15/23

Time: 6:00AM

Duration: 5 minutes of a 60-minute program

Guest: Lauren & Dr. Gary Mitrevolis

Gen Zers are drinking less than young people in past generations: about 20 percent less alcohol per capita than millennials did at their age, according to a report from Barenberg research. And many are forgoing booze entirely. The share of college-age adults abstaining from alcohol has grown from 20 to 28 percent over the last two decades, a University of Michigan study found. KNX's Charles Feldman and Rob Archer speak with Lauren, 22-year-old who works as a "loved one peer coach" at Face It TOGETHER, an addiction wellness nonprofit; she lost her father to long-term health effects caused by addiction in 2019 and Dr. Gary Mitrevolis, medical director at American Addiction Centers' Laguna Treatment Hospital in Aliso Viejo

Open Line

Date: 4/29/23

Time: 6:00AM

Duration: 5 minutes of a 60-minute program

Guest: Dr. Alon Avidan

Testing of over two dozen melatonin "gummies" sold as sleep aids found some had potentially dangerous amounts of the hormone that helps regulate sleep, according to a new study. How dangerous are these? KNX's Rob Archer and Elsa Ramon speak with Dr. Alon Avidan, neurologist & director of the UCLA Sleep Disorders Center

Open Line

Date: 5/6/23

Time: 6:00AM

Duration: 5 minutes of a 60-minute program

Guest: Dr. Shelby Harris and Karen Asp

People are taking to social media to talk about "sleep divorces," the idea of sleeping separately from your partner to get a better night's sleep. On Tiktok, there are more than 355,000 views for the hashtag #sleepdivorce — and experts say there can be potential benefits. KNX's Rob Archer and Chris Sedens speak with Dr. Shelby Harris, Director of Sleep Health at Sleepopolis and Karen Asp, author/journalist/fitness pro who practices "sleep divorce"

ISSUE: Health (continued)

Open Line

Date: 4/1/23

Time: 6:00AM

Duration: 5 minutes of a 60-minute program

Guest: Mark Rylance

A new survey finds nearly half of American parents with adult children continue to support them financially — to the tune of \$1,442 a month on average. That's a lot. What are the reasons behind this? Will this continue or will the financial situation for younger people start to look better soon? KNX's Rob Archer and Chris Sedens speak with Mark Rylance, financial planner in Newport Beach

Open Line

Date: 4/8/23

Time: 6:00AM

Duration: 4 minutes of a 60-minute program

Guest: Ivan Drury

Used car prices are going back up again. With the supply of used vehicles failing to keep up with robust demand, prices are creeping up. So many buyers have been priced out of the new-car market that fewer trade-ins are landing on dealer lots. Deepening the shortage, fewer used vehicles are coming off leases or being off-loaded by rental car companies. KNX's Charles Feldman and Rob Archer speak with Ivan Drury, senior manager of insights for Edmunds.com

Open Line

Date: 4/15/23

Time: 6:00AM

Duration: 5 minutes of a 60-minute program

Guest: Jessica Kriegel and Kip Conforti

More businesses are turning to older workers to get the job done. This is mainly because they find them more reliable and willing to work than younger people. But is this really true? KNX's Rob Archer and Chris Sedens speak with Jessica Kriegel, Chief Scientist of Workplace Culture at Culture Partners and Kip Conforti, owns two package-shipping stations in Pennsylvania; he's recruited older workers recently

Open Line

Date: 4/15/23

Time: 6:00AM

Duration: 4 minutes of a 60-minute program

Guest: Johnny Casali

California's legal pot market has lost hundreds of pot farms a month as farmers opt to quit the legal market. And signs indicate the industry is only continuing to shrink. So does this mean the drug cartels are winning and know how to run the business better? Or does this show that the legal market needs to seriously change to compete? KNX's Charles Feldman and Rob Archer speak with Johnny Casali, owner of Huckleberry Hill Farms in Humboldt County; second-generation cannabis cultivator

Open Line

Date: 4/29/23

Time: 6:00AM

Duration: 5 minutes of a 60-minute program

Guest: Kay Tolentino

It might be better right now to rent rather than buy. The American dream of home ownership is being challenged by high home prices and mortgage rates, leading some to consider renting a wiser option. According to a recent survey by the national multifamily housing council, a public policy group, the monthly cost of owning a home is now an average of \$1,000 more than renting. Is this true for southern California? KNX's Rob Archer and Elsa Ramon speak with Kay Tolentino, president of the Pasadena Foothills Association of Realtors

Open Line

Date: 4/29/23

Time: 6:00AM

Duration: 4 minutes of a 60-minute program

Guest: Ingrid Malmgren

The Biden administration and democrats are always promoting ways to fight climate change and move away from fossil fuels. However, new electric vehicle tax credit rules are creating chaos for consumers here in California and elsewhere. KNX's Elsa Ramon and Rob Archer speak with Ingrid Malmgren, policy director for Plug-In America

The Hollywood writers' strike will have impacts beyond the writers' rooms. It's going to impact everyone connected to the entertainment industry and even the southern California economy at-large. KNX's Elsa Ramon and Rob Archer speak with Gregg Bilson, President of the ISS Group which provides props to production sets and Alex Medina, LA County Economic Development Corporation

Open Line

Date: 5/6/23

Time: 6:00AM

Duration: 4 minutes of a 60-minute program

Guest: Mike Strong

A little-known mortgage surcharge is getting an overhaul on May 1st that could impact home buyers in very different ways, potentially helping those with lower credit scores by lowering their costs. But some borrowers with stronger credit scores could end up paying more. So is this fair? Should people with higher credit scores be punished to help those with lower scores? KNX's Chris Sedens and Rob Archer speak with Jeff Lazerson, President of Mortgage Grader in Laguna Niguel; OC Register columnist

Open Line

Date: 5/20/23

Time: 6:00AM

Guest: Bruce Diep

Tami Heide has a California Conversation with Bruce Diep, President of WAIEA California Water Machines. Waeia is a Hawaiian word meaning water from air. That is what the WAIEA water machines do, extract water from the air, in residential and commercial settings. The residential machines take up about the same space as a traditional water cooler, and can generate 5 gallons a day. WAIEA California manufactures the highest rated Atmospheric Water Generators (AWG) on the market. Our products produce higher quality water than municipal supply while at the same time purifying the air within the room. AWGs produce water from the air by filtering in the humid air from the atmosphere through a hospital-grade HEPA air filtration system. The humidity condenses into droplets which then undergo a series of filtration systems— from Charcoal, UV to reverse osmosis. No need for plumbing or water hookup. Help the environment and get water from the air by checking out www.waieaca.com
