Southeastern Broadcasting Narrative Statement

Southeastern Broadcasting has an ongoing effort to recruit for all positions, regardless of vacancy, through annual notification to partnership entities. In addition to these efforts, we continually search for and accept applications of qualified applicants for future openings. When a position becomes available, our normal process is to place an invitation for any and all applicants to mail, e-mail or hand deliver an application.

INITIATIVE 1: Online Outreach

Each of our station's websites prominently displays requests for applications. This is done on a continuous basis year round on each of our web pages at the following locations:

www.Gumbo949.com

www.rock977.net

www.967kcil.com

Online resources for Bayou Radio Group are used during hiring and non-hiring periods as a means of continuously communicating the opportunity to apply and be considered for employment opportunities. All applications received via this method are securely housed and considered for positions that become available. This year we received a total of 2 applications during non-hiring periods with 1 being interviewed. When any position becomes available we attempt to communicate with the applicant per the contact information provided on their application.

INITIATIVE 2: On-air Announcement of Position Vacancies

As a normal process and an effort to reach all possible applicants we utilize each of our stations to broadcast an open request for applications and encourage anyone with an interest or questions pertaining to the process or position to contact us. From August 7, 2017 to August 15 2017, August 16, 2017 to August 29, 2017 as well as November 9, 2017 through November 27, 2017 a total of 1026 announcements were aired notifying the communities we serve of position vacancies. These commercial announcements ran around the clock. This was done to ensure the maximum numbers of applications were received. This, along with other recruitment efforts, resulted in the receipt of 46 applications with 20 individuals being interviewed. Interviews were conducted without regard to race, color, religion, national origin, sex, age disability or genetic information.

INITIATIVE 3: Career Fair

On November 2nd, 2017, Bayou Radio Group participated in a career fair with Fletcher Technical Community College, open to any and everyone with a focus on students majoring in Marketing and/or Communications. A hiring manager was present to answer questions regarding sales and marketing and to receive resumes and applications for employment for those interested and deemed qualified.

INITIATIVE 4: On January 18th, 2018 there was a meeting with each hiring manager for Bayou Radio Group partnership to insure their complete understanding of FCC and corporate internal policies for non-discrimination and cover step by step company expectations for each and every hire. Present were General Manager, Joe Darden, Operations Manager Jan Jackson and Sales Manager Ann Belanger.

As a company, our standard is to meet or exceed each of the FCC's requirements for non-discrimination. Discrimination in any form will not be tolerated. In essence Bayou Radio Group corporate expectations mirror the Commission's goal to expand the hiring pool by giving the public additional notice of broadcast job openings as well as additional information regarding the duties and requirements for broadcast positions. Major topics discussed in detail are as follow:

Prong 1 – Wide Dissemination

Prong 2 – Notice to Community Groups

Prong 3 – Supplemental Efforts

The document discussed in detail was our corporate “EEO Basics” internal expectations document.
