Can public school teachers read from the Bible as an example of good literature in America. Americans have the subject of separation of church and state on their minds. A group of teachers were polled and 67% of teachers said that no they could not read from scripture for any reason, this is the wrong answer. The Supreme Court said a public school teacher could not promote a religion for any reason but the Bible could be read in class for its literature and historic qualities.

There was a Bible Study held at a place of employment. One of the participants was told by her supervisor that she could not continue attending this study. She was upset and called to find out her legal rights concerning her attending. The others in the group met to fast and pray over the weekend. On Monday her supervisor had a change of heart and told the lady she could attend. Legally, as long as it does not take you away from your work time the employer cannot forbid you to have the Bible Study.

The land was donated to the church but years later the family wanted it back. A church camp was in trouble and a family that had given the land to the church for this purpose decided they wanted the land back. The church had disbanded and the family thought they should be allowed the land back. The CLA explained to the family that because the property was given to a non-profit organization they could not take it back. According to the state law the property had to go to another non-profit organization or another church.

Employment at will, this is a legal concept that Christian's and ministries need to understand. Employment with a non-profit organization is often such that employees come to work at will status. There is no written contract between the parties and either party can terminate the work situation at will. They can terminate a person and it be unfair but cannot be illegal. To avoid this at will status you can draw up a contract and have employee handbooks that spell out the contract

When employers and employees have an employment contract it is always good to have an arbitration clause. This arbitration clause would be for either side. It states clearly the process that should be followed by both parties in the event of a disagreement or dissatisfaction with work arrangement by either. Because the arbitration clause can avoid law suits it is especially good for religious organizations to have them in their contracts.

May a school board ban the use of Bibles being distributed to high school students on Religious Freedom Day? The board said the Bible did not offer any educational benefit for students. However, the US Supreme Court disagreed with the board. The court said the Bible did offer educational information about Western Civilization. Today school boards are now considering the value of learning the Bible.

Attitudes about abortions in America is beginning to change. From the time Roe vs Wade made abortion legal in 1973 until the end of 2010 the number of unborn children slaughtered in America crested 50 million !!! Compared to Americans lost in war this number is staggering. When you consider the number of deaths from brave service members in our military over the past 200 years, in all the wars, the number of deaths is less than a million. In the past 38 years of legalized abortion the number of aborted children is 50 times greater. America is losing about 3000 babies a day. That is comparable to number lost during 911.

All Christians need to have a Last Will and Testament. If you do not have a Will the State will take over your property and the minor children you may have at that time. The Will can cover your business endeavors as well. No ones like to think about death and yet you need to be mindful of what could happen and act on it so your wishes are carried out.

Hate crimes are taking place in many of our schools. We need to be aware that bullying is not just happening by the students but also by the teachers as well. Christian children are being targeted. Understand that some of these hate crimes can be considered a federal crime. If a Christian student is pushed,threatened or has their Bible yanked out of their hands this could face what the FBI calls a hate crime. We need to be aware of what is going on at our schools.

Planned parenthood teaching is really misrepresenting what fact is. A news centers for disease control report show a steady decline in teen birth rates since 1991. It also shows that the most of these teen pregnancies are mostly Hispanics and Blacks. Planned parenthood released a misleading press statement saying that the teen birthrate is lower in states that provide students with comprehensive sex education. Yet there is no evidence in the CDC report to substantiate this claim. Planned parenthood refuses to believe that abstinence teaching in schools is what is really making a difference in the decline of teen pregnancies.

Christian expression, many school officials do not understand they can't limit it nor punish it. Teachers and administrators may not single out student behavior for punishment, censorship or discipline merely because that activity is based on religion. When student behavior based on religion is censored or prohibited the school is violating the students first amendment rights. School districts should educate their teachers on what is legal and what is not.
