NCE Certification

Wild World Media, Inc. ("WWM") is a non-sectarian 501(c)(3) organization which will ascertain and develop educational programming for its community of license. WWM's educational goal is to educate its audience with respect broad topics of contemporary significance ranging from family issues, money management, philosophical problems and opportunities facing children and young adults, and information concerning the scope and availability of other non-profit services in the community.

WWM will offer a wide variety of education programming designed to meet the needs and interests of resident within the local community of license, including education programs on current events, and programs examining economic, social and religious issues. WWM will also feature inspirational music, news and other cultural programming. In furtherance of WWM's educational purpose, WWM's educational programming will include features that explore family issues, values and understanding and other programming that is designed to assist families and individuals manage their personal finances.

Wild World Media, Inc. ("WWM") is a nonsectarian 501(c)(3) organization committed to providing diverse, high quality educational programming for its community of license. WWM's mission is to provide high quality educational and charitable programming to the northern Illinois broadcast area.

WWM will offer a variety of education programming designed to meet the needs and interests of residents within the local community of license. WWM intends to offer the following four broadcast educational programs and one technical educational program in order to provide services across a wide array of anticipated interests and needs:

- Community News & Services Educational Program: WWM's programming will provide opportunities to inform residents of news, services and resources in the local area for those in need. These may include, but are not limited to: relevant news from the community of licensure, discussions about entitlement programs for low-income families, veterans' issues, support for victims of domestic assault, and other social issues and concerns.
- Family & Financial Educational Program: WWM will provide programming that educates residents in the listening area on relevant parenting and financial skills from childhood nutrition to retirement planning.
- Humanities Educational Program: WWM will provide a humanities education program to interest and inspire residents to learn more about music and literature. Broadcast programming will be offered that will educate listeners on the history and development of different musical genres. Literature and literacy will be promoted as written works in the public domain for both children and adults are broadcast to listeners.
- Outdoor Educational Program: WWM's programming will educate listeners on a wide array of outdoor topics to promote an active and healthy lifestyle and respect for the planet and the creatures we share it with. These programs may include, but are not limited to outdoor sports such as hunting and fishing, domesticated animal care, agriculture, gardening, and conservation.
- Radio Technical Educational Program: Lastly, WWM will provide opportunities for individuals to participate and learn across the spectrum of radio broadcasting from programming and engineering to station management. WWM will offer these opportunities through volunteering in various capacities and internships with the station.

Oct. 1, 2016

NOTE: Until our ownership & community visits, no one we have met even knew Monee had a radio station (as it was used as a "translator" by previous owner) & no physical studio existed prior to ours in Wauconda.

G. L. Graber,
President

Oct, 2016 → Nov, 2016 → Dec, 2016

WGEN-FM was broadcasting (automatically) from the Wauconda, Il. location (per FCC) while continuing to seek main studio space in the Monee, Il. license area. Two locations were possible, one now to be torn down (we were told), the other had "impossible" lease terms (ie to "seize" our equipment should the "landlord" deem WGEN-FM "owed" him funds (at his determination & w/o legal determination).

As we are operating per FCC we felt to put the station, broadcast ^{equipment} & commercial good at risk (was unreasonable).

Decision was made to move the main studio to 401 Milburn Ave., Cate, Il. to get as close to our area as possible and continue to seek a more ~~feasible~~ suitable. Home and local volunteers.

No educational programming to date. Trying to accomplish final segments of our move.

April 1, 2017

WGEM-FM is currently preparing the website, actively reviewing/choosing and planning initial recording for the children's literacy programs.

3 age levels are planned.

Recording and editing will commence in July, with 3 levels and plans are to then seek volunteers from the local library districts, Creta/Monee, Monee/Pestone and the local Creta/Monee/Univ. Pk/ etc. Communities.

The relocation to our local/tower area set us bk severely in terms of volunteers, but we are determined to see this station (once used as a translatn) become a real community station.

EDUC. PROGRAMMING

Jan., 2017 → Feb., 2017 → March, 2017

WGEM-FM was broadcasting (automated) as software issues are resolved due to our move. Seeking local volunteers. No educational programming to date.

Now actively seeking programming available. Currently recording & editing Children's literacy programs (3 age levels) and projecting start date for "This Morning With Georgia Lee" with community announcements, non profit segments and news segments to begin on or before April 16th 2017. Other educational training opportunities being discussed as trainees are found.

3/23/16

WGEN-FM was automated
from 4/25/16.

We are working to recruit
volunteers in our new studio
location (Money, IL license area).
Station was previously automated
& used as a translator out of
CA. We have had to locate
our studio to a location at
401 Milburn Ave., Crete, IL 60417
(we hope temporarily) and begin to
spread the word to recruit & train
staff and volunteers locally following
the move from our original studio
(temporary) in Wauconda, IL.
We have plans for programming
proposed grid attached. Seeking volunteers
since our move, Dec/Jan.
