

Gold Coast Broadcasting LLC Public Affairs Programming Log

Station Call Letters: KVTA
4th Quarter October 2019
Prepared By: Tom Spence

| | | |
|---|---------------------------------------|--|
| Program Name/Segment - Radio Health Journal | Date: 10052019 | Program Format/Content Description: Fluoride in community drinking water has been controversial since its introduction nearly 75 years ago. A new study adds to this with evidence that pregnant women who drink fluoridated water may produce children with slightly lowered IQ. The study author and two other experts discuss what's known and what the ramifications of the study could be for communities, for oral health, and for children. Guests: Dr. Brittany Seymour, Asst. Prof. of Oral Health Policy and Epidemiology, Harvard School of Dental Medicine; Dr. Christine Till, Assoc. Prof. of Psychology, York Univ.; Dr. Patricia Braun, Prof. of Pediatrics, Univ. of Colorado and Chair, Section on Oral Health Executive Committee, American Academy of Pediatrics As much as 16 percent of the population suffers from trypanophobia, which makes them uneasy at the sight of holes clustered together, as in a honeycomb. Two experts and a sufferer discuss this phobia, which can be remarkably debilitating. Guests: Dr. Geoff Cole, Center for Brain Science, Univ. of Essex; Kerry Taylor, trypanophobia sufferer and administrator of support group; Dr. Keith Wagner, Univ. of Texas Medical Branch, Galveston |
| Issue Addressed: public health; youth at risk; local government policy; parenting issues; community water fluoridation; health care | Time: 6:00a Duration: 30 min | |

| | | |
|---|-------|---|
| Program Name/Segment - Radio Health Journal | Date: | Program Format/Content Description: A large number of hospitals in rural areas have closed, and many more have closed their maternity units, leaving many rural mothers-to-be with no nearby place to deliver their babies or even get prenatal care. Experts discuss the financial and demographic reasons behind these |
