

3RD QUARTER 2013 PROGRAMS & ISSUES REPORT 10/2/13

The Aaron Harber Show, Sunday's 8-830pm from 7/7/13-9/8/13 and Sunday's 11am-1130am 9/15/13-9/29/13. All episodes feature Aaron Harber providing in depth, locally produced interviews with the following people and topics:

7/7/13 Hisanori Nei

Mr. Hisanori Nei, Executive Director of the Japan Oil, Gas and Metals National Corporation (JOGMEC), talks with Aaron about Japan's national energy strategy since the country's shift away from nuclear energy generation in the wake of the 2011 Fukushima Daiichi accident.

7/14/13 Tony Earley

Aaron talks with Tony Earley, Chairman, CEO & President of PG&E Corporation, about electricity generation and the future of utility companies.

7/21/13 Dennis McGinn Part 1

In Part 1 of this special two-part series with Vice Admiral Dennis McGinn (USN, ret.), President and CEO of the American Council on Renewable Energy, the future of energy generation in the US is discussed, including the role of renewables and their effect on our National Security.

7/28/13 Dennis McGinn Part 2

In the conclusion of this special two-part series with Vice Admiral Dennis McGinn (USN, ret.), President and CEO of the American Council on Renewable Energy, the discussion focuses on the United States' lack of a "National Energy Plan," as well as Leadership, and specifically Leaders in the military.

8/4/13 Jason Bordoff

Jason Bordoff, former Special Assistant to the President for Energy and Climate Change at the National Security Council, discusses impacts of Climate Change already being felt, the need for immediate action, and how the United States and other governmental and organizational policies are taking us into the future.

8/11/13 Peter Oosterveer

Aaron talks with Peter Oosterveer, the President of Fluor Corporation's Energy and Chemical's Group, about the concept of "Energy Independence," the lack of a National Energy Strategy in the United States, the "game changer" of shale gas in North America, and the controversy surrounding Fracking.

8/18/13 Ron Foudray

Aaron talks with the Vice President of Cyber Intelligence for Northrop Grumman Information Systems, Ron Foudray, about the future of cyber security, what it means for our governments, energy utilities, and personal information.

8/25/13 Nariman Behravesh

Aaron talks with the Chief Economist for IHS, Nariman Behravesh. Topics discussed include the U.S.'s continuing economic recovery, the culture in Washington D.C., the tax code, and the effectiveness of energy subsidies.

9/1/13 Charles Ebinger

Aaron talks with Charles Ebinger, Senior Fellow and Director of the Energy Security Initiative at the Brookings Institution. Topics include: energy, Climate Change, sustainability, and Washington.

9/8/13 Barry Smitherman

Aaron talks with Barry Smitherman, the Chairman of the Railroad Commission of Texas, about the Commission and its control over Texas' 1.6 million barrel per day oil production (equating to more oil than the U.S. imports from Saudi Arabia) and 19 billion cubic feet per day Natural Gas production (which accounts for over 30% of all U.S. production).

9/15/13 George Biltz

George Biltz, Vice President of Energy and Climate Change for Dow Chemical Company, talks about Dow as a company and how you interact with their products daily—from home insulation to airplane de-icer—and how they reduce the resulting Greenhouse Gases through efficiency.

9/22/13 Joe Nocera Part 1

Aaron talks with New York Times Columnist Joe Nocera about newspapers and Business Journalism. Topics include: IPO's, Wall Street and inside deals, government financial regulations and institutions.

9/29/13 Joe Nocera Part 2

In the conclusion of this two-part series with New York Times Columnist Joe Nocera, the discussion shifts to the business breakdown of the 2008 economic crash.

Public Service Announcements:
