

| Description of Issue | Program/Segment | Date | Time | Duration | Narration of Type and Description of Program/Segment |
|----------------------------------|-----------------|---------|-----------------|----------|---|
| 1. Immigration and Citizenship | Inside America | 7/6/23 | 9:20-9:40 a.m. | 20 min. | Proposed changes to the U.S. citizenship test would make it even more difficult. There are two major changes to the new U.S. citizenship test being considered: the Speaking Section and the Civics Questions. In particular, the examiners will assess your ability to speak English more stringently, so Koreans who plan to apply for citizenship need to be well-prepared for these areas. |
| 2. Local Law Enforcement | Into the News | 7/11/23 | 9:00-9:30 a.m. | 30 min. | It remains to be seen whether speed cameras will be installed in major cities in CA, including Los Angeles. A bill is being pushed that would allow speeding cars caught with speed cameras to be fined. A pilot program has been implemented in several cities, including Los Angeles, to install enforcement cameras to detect speeding vehicles and issue tickets. |
| 3. National Politics | Morning Focus | 7/20/23 | 9:40-10:00 a.m. | 20 min. | The Consumer Price Index (CPI) came in at 3% in June, below market expectations, showing that inflation continues to slow down. Core CPI, which excludes volatile energy and food, also rose 4.8 percent, down 0.5 percent from 5.3 percent in May, the smallest increase in more than two years. As a result, the Federal Reserve is likely to end its policy tightening. |
| 4. Technology and Culture | Into the News | 8/4/23 | 9:00-9:20 a.m. | 20 min. | Artificial Intelligence (AI) is now becoming mainstream, and generative AI is in the spotlight these days. Generative AI is a form of machine learning that is able to produce text, video, images, and other types of content. While this emerging technology does have some benefits, it can also cause various problems, so it must be used efficiently and be properly controlled. |
| 5. National Politics and Climate | Morning Focus | 8/16/23 | 9:40-10:00 a.m. | 20 min. | The phenomenon of more intensive heat waves has increased significantly due to climate change caused by global warming. Studies have shown that the more people are exposed to heat waves, the faster the cognition of the vulnerable populations (e.g. the elderly, the very young, the poor in society deteriorates compared to the wealthier groups. Therefore, it is very important for local governments and health authorities to identify people who are most at risk from heat waves and identify their specific needs. |
| 6. American Culture | Good Day LA | 8/24/23 | 2:00-3:00 p.m. | 60 min. | With the news that people will live longer in the future because life expectancy is increasing, many people are rethinking their life priorities by imagining a longer period of old age. However, the younger generations, especially Gen Xers, have been found to be under increased stress and worry due to this stress. |
| 7. US Economy | Morning Focus | 9/5/23 | 9:40-10:00 a.m. | 20 min. | The U.S. economy appears to be growing steadily despite the Fed's aggressive tightening of monetary policies for more than a year and a half with strong job markets and continued consumption. As a result, there is optimism that a soft landing will be possible in the future, but the key is whether the Fed can provide stimulus at the right time. |
| 8. Medicine and Health | Inside America | 9/13/23 | 9:20-9:40 a.m. | 20 min. | State Rep. Matt Haney has sponsored a bill that would create Amsterdam-style Cannabis Cafes in California. His aim is to change the current marijuana culture to have a more relaxed social atmosphere similar to that found in Dutch cafes. He also emphasized that there is a tremendous opportunity to bring people into these facilities to consume marijuana safely and legally, while at the same time creating communities and culture. Therefore, if the bill is finally approved, we can expect to see a major cultural shift. |
| 9. Economy | Into the News | 9/26/23 | 9:00-9:30 a.m. | 30 min. | Despite the rate freeze at the September FOMC meeting, the Fed strongly hinted that it would continue to raise rates this year even though analysts on Wall Street suggest that rate hikes appear to have ended entirely. They cited signs of a slowdown in the global economy and the looming federal government shutdown as the main reasons for the end of the interest rate hikes and predicted |
