Program 21-14	Written & Produced: Amirah Zaveri & Evan Rook		
Aired: 4/4/21 @ 6:00am	Studio Production: Jason Dickey		
SEGMENT 1:	ENTREPRENEURSHIP IN THE ADULT-USE CANNABIS MARKET	Time	Duration
Synopsis:	New York is the latest to legalize recreational marijuana. This move will create thousands of new jobs and is expected to generate billions of dollars in revenue after a lackluster year in tourism, real estate and business. And New York isn't alone. Each year, more states are voting to allow both adult-use and medical marijuana sales. But, with this, comes challenges. In a fast-growing industry, how do you ensure that smaller entrepreneurs aren't left behind? Or those who've been systemically affected by the war on cannabis are given greater opportunity?	1:47	9:29
Host:	Gary Price		
Guests:	David Wunderlich, senior attorney, Hoban Law Group; Demitri Downing, founder, executive director, Marijuana Industry Trade Association of Arizona		
Issues Covered:	law, business, social equity, career, drug use, government, incarceration

SEGMENT 2:	ALPHABETICAL ARRANGEMENT	Time	Duration
Synopsis:	Organizing people or items by A to Z is a common method all over the world. It's used in schools, businesses, libraries and more. But why is this the predominant method today? What are some other systems that people of the past used? Historian Judith Flanders joins us this week to shed some light on the fascinating study of alphabetization.	13:18	9:04
Host:	Marty Peterson

SEGMENT 2:	THE SKY-HIGH COST OF COLLEGE	Time	Duration
SEGMENT 2: Synopsis:	THE SKY-HIGH COST OF COLLEGE Today, the average student graduating from a four-year, public university leaves with \$28,600 in student loans. On top of this, students owe interest once payments kick in, and this can range from 3 to 5 percent for federal loans and can go as high as 12 percent for private loans. For some, the large sum of these loans plus interest can take several years to pay off and has a big effect on life decisions like when to start a family or if they can afford to leave a toxic job. This week – we cover the student loan crisis in the U.S. and talk about alternative options and resources that can help lower the current cost of higher education.	Time 14:51	Duration 8:11

SEGMENT 1:	JIMMY STEWART: THE HOLLYWOOD ACTOR & FIGHTER PILOT	Time	Duration
Synopsis:	The late actor, Jimmy Stewart, gave us some very memorable characters during his time in Hollywood – many very funny; others endearing; and some dark and villainous. Perhaps Stewart's most dramatic role was the one that not many people know about, but that molded his life and his psyche – not to mention his acting – for most of his career: serving as a fighter pilot in World War II. We talk to an author who delved into Stewart's war service about how flying missions over Europe and seeing his comrades die affected the actor and the types of roles he chose to play post-war.	1:47	10:37

SEGMENT 2:	EASY SWITCHES FOR A MORE EARTH-FRIENDLY DIET	Time	Duration
Synopsis:	As more Americans look to decrease their carbon footprints, what's one way to make a big difference? Flipping the narrative on the traditional American diet. Beef is more carbon-intensive to produce than chicken, but did you know that cheese is also worse than chicken? It's this knowledge that can change people's dietary decisions and decrease greenhouse gas emissions, slowing global warming. Paul Greenberg, a food and science writer, joins Viewpoints this week to share how people can adjust their daily eating habits to make a difference.	14:26	8:43

SEGMENT 1:	THE REDUCE, REUSE, RECYCLE CONUNDRUM	Time	Duration
Synopsis:	How often do you buy an item from the store that's packaged in a plastic container or wrapped in plastic? Daily decisions like these add up and are feeding into the global plastic crisis. Scientists estimate that there's anywhere between nine to 16 million tons of plastic on the sea floor, polluting the environment, harming species and releasing harmful microplastics into every corner of the planet. Two experts on plastic join us this week to shed some light on the problem and how we can each make a difference by changing our consumption habits and calling on leaders to craft stricter laws on waste management and manufacturing.	1:46	12:05

SEGMEN	2: THE 40TH ANNIVERSARY OF THE NASA SPACE SHUTTLE	Time	Duration
Synop	The birth of the space shuttle in 1981 marked a new era of space travel. For the first time ever, NASA had a spacecraft that could launch into space and come back to earth and land like an airplane. While the shuttle had many successful flights, there were also some big catastrophes that ultimately led the program to cease operations in 2011. Former chief historian of NASA Roger Launius joins Viewpoints this week to tell the story of this era of American space history.	13:12	9:54

SEGMENT 1:	THE DEBATE ON INVASIVE SPECIES	Time	Duration
Synopsis:	Many people are worried that non-native plants and animals are invading the U.S. and preventing native species from thriving. Each year, a lot of money and time is spent trying to rid the land of these aliens - often to no avail. But, are these species present because they're the only ones that can exist in that environment? Are some plants and animals actually helping to create a more diverse and robust ecosystem? And are some native species really native to the U.S.? Our guests offer up a different perspective on the invasive species debate.	1:47	8:11
Host:	Gary Price
