FACILITY ID 20015

This letter provides advance notice that the station referenced above **has not been reassigned** to a new channel in the repacking process associated with the broadcast television spectrum incentive auction. The Congressionally-mandated auction involves a repacking or reorganization of the television bands. As part of the repacking, some stations are being reassigned to new post-auction channels. Although the repacking is not yet effective, its final results have been determined and will be announced publicly as soon as the auction closes. Reassigned stations will then be required to transition to their post-auction channels. **Because your station has not been assigned a new channel, no further action regarding the transition is necessary on your part.**

We remind stations that a Public Notice has announced a limited waiver of Commission rules prohibiting parties covered by the relevant rules from communicating an incentive auction applicant's bids or bidding strategies to other covered parties. *See The Incentive Auction Task Force, With The Media And Wireless Telecommunications Bureaus, Releases A Public Notice Concerning: Confidential Letters Regarding Post-Incentive Auction Channel Assignments; Limited Waiver Of Prohibited Communications Rules; And Broadcast Station Sales And Transfers*, Public Notice, DA 17-134 (rel. Feb. 6, 2017) ([https://apps.fcc.gov/edocs\\_public/attachmatch/DA-17-134A1.pdf](https://apps.fcc.gov/edocs_public/attachmatch/DA-17-134A1.pdf)). The waiver helps stations that must move to a new channel begin planning for the post-auction transition.
