   Ms. Feldman noted that 50 percent of new teachers get burned out in their first five years on the job and end up leaving the profession. She offered suggestions for concerned parents who would like to help and encourage stressed-out teachers.

   Mr. Krantz said legal services should be available to every American, whether they can afford it or not. He said attorneys do not provide nearly enough pro bono services. He said many of today's law students would be willing to work in the public interest, but are often mired down in student debt. He would like to see loan forgiveness programs or other new initiatives that would enable young lawyers to help lower-income litigants.

Weekly Public Affairs Program

Date aired: 2/8/14 **Time Aired:** 7:30AM

Show # 2014-06 Total running time: 29:30 (with optional exit at 24:00)

1. **Lisa J. Servon, PhD,** Professor and former dean at the Milano School of International Affairs, Management, and Urban Policy at The New School in New York

   Alternative financial providers such as check cashers and payday lenders are often accused of preying on the poor, with high fees and interest rates. Dr. Servon conducted a study that examined why many lower income residents make the conscious decision to use these services, rather than traditional banks. She was surprised to find that the choice actually makes sense for many people who live paycheck to paycheck.

   Issues covered: ***Length:* 11:05**
   Poverty
   Government Regulations
   Personal Finance

2. **Dan McCue,** Research Manager, Joint Center for Housing Studies of Harvard University

   The cost of renting an apartment or house has jumped in the past decade, according to a study led by Mr. McCue. A 6% rise in prices, combined with the drop in renter incomes, has made affordability a major concern. Much of the jump in prices is because of increased demand for rental homes as a result of the mortgage crisis. He said a quarter of all U.S. households are paying more than half of their income for housing, which is dangerously high.

   Issues covered: ***Length:* 6:07**
   Affordable Housing
   Poverty
   Consumer Issues

2. **Debbie Magids, PhD,** psychologist, author of "*All the Good Ones Aren't Taken*"

   Dr. Magids discussed the trend of serial dating and why dating is so difficult for women in particular. She explained the most common dating errors and suggested ways that a person can analyze their own patterns of behavior, to clear the way for more fulfilling relationships.

   Issues covered: ***Length:* 4:48**
   Mental Health
   Women's Issues
