QUARTERLY ISSUES REPORT, OCTOBER-DECEMBER, 2015

Show # 2015-40	
Date aired:	Time Aired:

John R. Baker, PhD, Professor of Political Science at Wittenberg University, author of "Government in the Twilight Zone: Volunteers to Small-City Boards and Commissions"

97 percent of all American cities have a population fewer than 50,000 and Dr. Baker studies the workings of these smaller local governments. He discussed how local board systems operate, who the board members are and what motivates them to serve. He explained why it is important for citizens to understand how government functions, even in small towns.

Issues covered:
Citizenship
Government Policies

Length: 6:54

Lennard J. Davis, PhD, Professor in the English Department in the School of Arts and Sciences at the University of Illinois at Chicago, Professor of Disability and Human Development in the School of Applied Health Sciences of the University of Illinois at Chicago, Professor of Medical Education in the College of Medicine, author of "Enabling Acts: The Hidden Story of How the Americans with Disabilities Act Gave the Largest US Minority Its Rights"

Disabled Americans are the largest minority group in the country. Dr. Davis believes the Americans with Disabilities Act (ADA) is the widest-ranging and most comprehensive piece of civil rights

legislation in history. He explained the unusual path the law took to passage, some of the challenges in implementing it and the enormous impact of the ADA, 25 years after its adoption. He also outlined several potential reforms which he believes could improve it.

<u>Issues covered:</u> <u>Length:</u> 10:21

Show # 2015-4	1		
Date aired:		Time Aired:	

Michelle Garcia, Director of the Stalking Resource Center at the National Center for Victims of Crime

Nearly 3.5 million people over the age of 18 are stalked each year in the United States. Ms. Garcia talked about the most common stalker scenarios, and why the crime is so difficult to define. She also explained why new developments such as GPS and social networking sites have made it much easier for stalkers to target their victims.

<u>Issues covered:</u> <u>Length:</u> 9:43

Stalking Crime Women's Issues

John Izzo, PhD, business consultant, author of "Stepping Up: How Taking Responsibility Changes Everything"

Mr. Izzo said that almost every problem, from personal and business challenges to social issues, can be solved if Americans looked to themselves to create change rather than expecting others to do it. He offered advice to employees who are afraid to speak up at work and how to encourage children to step up and improve problems they see in their community.

<u>Issues covered:</u> <u>Length:</u> 7:33

Workplace Matters Community Involvement Parenting

Ron Shevlin, Senior Analyst with Aite Group, an independent research and advisory firm serving the financial services industry

Social media sites like Twitter and Facebook have empowered consumers in many new ways. Mr. Shevlin explained how these new tools have made it much easier to complain about a problem or to influence corporate policies. He offered advice for the best ways for consumers to use social media to interact with companies.

Parenting

Brooks Palmer, professional organizer, author of "Clutter Busting: Letting Go of What's Holding You Back" and "Clutter Busting Your Life: Clearing Physical and Emotional Clutter to Reconnect with Yourself and Others"

Most Americans struggle with clutter and disorganization. Mr. Palmer talked about the emotionally suffocating effects of clutter and why people have problems letting go of items they no longer need or use. He offered suggestions for how to get started and how to look at items in a different way to assess whether they are worth keeping.

Kevin Haley, Director of Product Management for Symantec Security Response

Today's smartphones hold a wealth of personal, financial and work-related data that thieves would love to get their hands on. So what happens when a phone is lost or stolen? Mr. Haley led a research project that intentionally lost 50 phones to see what data was accessed by the finder and whether the phones would be returned to their owners. The results were Showoncerting. Mr. Haley offered advice for phone owners to protect their data.

Sheldon Krantz, Distinguished Visiting Professor of Law at the University of Maryland Carey School of Law, former dean of the University of San Diego Law School, former law professor at the Boston University Law School, former federal prosecutor, author of "The Legal Profession: What Is Wrong and How to Fix It"

Mr. Krantz said legal services should be available to every American, whether they can afford it or not. He said attorneys do not provide nearly enough pro bono services. He said many of today's law students would be willing to work in the public interest, but are often mired down in student debt. He would like to see loan forgiveness programs or other new initiatives that would enable young lawyers to help lower-income litigants.

Chris Malone, Managing Partner of Fidelum Partners, a research-based consulting and professional services firm, author of "THE HUMAN BRAND: How We Relate to People, Products and Companies"

Mr. Malone explained why upstart businesses have surged in popularity while many traditionally dominant companies and brands have been falling behind. He outlined the reasons that social media has become such a valuable tool for both consumers and the companies they do business with. He said business schools fail to teach students how to nurture relationships with customers, causing much less loyalty to brands and products.

<u>Issues covered:</u> Consumer Issues Education Length: 7:52

Janet Larson, Director of Research, the Earth Policy Institute

The US is the world's largest consumer of bottled water. Ms. Larson talked about the huge environmental impact of bottled water, both in its manufacture and disposal. She also explained how consumers can wisely decide whether to use bottled water.
