Seguridad	Despierta América	04/03/2017	0:30	Ford Motor Company is recalling 48,443 model year 2017 Ford F-250 Super Duty trucks equipped with 6.2L engines and six-speed automatic transmissions. The transmissions may have a damaged park rod actuating plate that can result in unexpected vehicle movement even though the transmission has been shifted to 'Park.'
Salud	Despierta América	04/17/2017	0:28	People in serious psychological distress are three times more likely to be too poor to afford general health care, and 10 times more likely to be too poor to pay for medications, compared with people who are not mentally ill, according to research published Monday in the journal Psychiatric Services. Judith Weissman, lead author of the study and a research manager at New York University's Langone Medical Center, found that 3.4% of adult Americans, or more than 8.3 million people, suffered serious psychological distress in 2014. Nearly a decade earlier, only 3% or less were reported to have suffered in the same way.
Seguridad	Despierta America	05/06/2017	0:25	The TSA warning commercial trucking and rental companies about the increasing threat of using Tractor-Trailers and other huge vehicles, including buses, as tools of terror. Since 2014, 17 vehicle-ramming attacks resulting in 173 fatalities, with 667 wounded. In december, 12 murdered as this large truck ran over pedestrians at an outdoor Christmas market in Berlin. The agency saying that no community is immune from these low-tech mass murders.
Salud	Despierta America	05/09/2017	0:22	More and more young people are being diagnosed with diabetes. According to a study published in the New England Journal of medicine. Researchers analyzed information from nearly five million people under the age of 20. They found that rates of new type-two diabetes cases increased by about 4.8 percent every year between 2002 and 2012. Rates of new type-one diabetes cases increased by 1.8 percent yearly over the same time period. Researchers note differences among ethnic groups and genders.
Salud	Despierta America	06/07/2017	0:30	A study gives reassuring news for breast cancer survivors who want to have children. Those who later became pregnant were no more likely to have their

				cancer come back than those who did not have a baby. This was true even if their cancers were the type fueled by hormones, which soar during pregnancy and theoretically might spur a recurrence. It's a big issue - the average age of moms has been rising and more women are being diagnosed with breast cancer in their childbearing years. About 11 percent of new breast cancer cases in the U.S. are in women under 45. The study involved more than 1,200 women in Europe. Results were discussed at an American Society of Clinical Oncology conference that ended Tuesday in Chicago.
Seguridad/Clima	Despierta America	06/22/2017	0:22	The southwestern U.S. is about to feel the wrath of a punishing heat wave that includes a forecast of 120 degrees in Phoenix — a temperature not seen in the desert city in more than 20 years. The broiling temperatures will also be felt in Las Vegas and Southern California, creating a public health hazard. Rising temps are being closely watched by everyone from airline pilots and emergency room doctors to power grid managers and mountain cities unaccustomed to heat waves.
Salud	Noticiero Univision	04/02/2017	2:11	The birth of his Juan Pablo's first son brought joy to the Olano family, but during the first years of life of their baby, the parents noticed some differences in their newborn that caused concern. Miriam I. Avila de Olano's son did not speak two years after his birth. Autism is very difficult and frightens an uneducated parent. Many question themselves about this they did or not during pregnancy. Recent studies by the Centers for the Control and Prevention of diseases revealed that 1 of each 68 children have been diagnosed with autistic spectrum disorders. But experts stress that early detection is key to improving children.
Seguridad	Noticiero Univision	04/13/2017	1:40	The US military on Friday defended its decision to drop its most powerful non-nuclear bomb on ISIS positions in Afghanistan, describing it as a "tactical" move. The GBU-43/B Massive Ordnance Air Blast bomb, or MOAB, was dropped Thursday night on a network of fortified underground tunnels that ISIS had been using to stage attacks on government forces. The strike in Nangarhar province near the Pakistan border killed 36 ISIS fighters, Afghan officials said. The US military previously estimated ISIS had 600 to 800 active fighters in the area but was unclear whether it had hoped to strike more. The blast destroyed three underground tunnels as well as weapons and ammunition, but no civilians were hurt, Afghan and US officials. However, ISIS denied that any of its fighters were killed or injured, according to a statement in Arabic distributed by the terror group's media wing, Amaq News Agency. The US military was quizzed Friday on whether the 21,600-pound behemoth, known as the "mother of all bombs" for its extraordinary force, was necessary for that particular target. The GPS-guided bomb is capable of destroying an area equivalent to nine city blocks.
Economía/ Salud	Noticiero Univision	05/24/2017	2:03	Nearly two weeks after the House voted to repeal key parts of the Affordable Care Act and replace them with new elements, the Congressional Budget Office is set to release its analysis of how the plan could impact the cost of

				health insurance, and how many Americans may lose coverage. Congressional Republicans will learn more about whether their drive to dismantle President Obama's Health Care law will hit a roadblock due to a negative report.
Seguridad	Noticiero Univision	05/27/2017	1:42	<p>Two men were stabbed to death Friday night on a suburban train in Portland when they tried to appease another man who was shouting racist insults at two women who appeared to be Muslims. Authorities arrested a suspect in the double homicide, Jeremy Joseph Christian, 35, who is charged with two counts of aggravated murder, one attempted murder, two second degree intimidation, and another for being a criminal in possession of A gun, Portland Police said in a statement.</p> <p>In addition to the two dead, the suspect stabbed a third passenger who also tried to help, although the latter is expected to survive.</p> <p>According to the police report, the suspect was on the train "shouting several comments that could be characterized as a hate speech against a variety of ethnicities and religions."</p>
Social	Noticiero Univision	06/03/2017	2:07	<p>Thousands of protesters gathered around the country in a series of "March for Truth" rallies on Saturday. Demonstrators were calling for a congressional independent commission to investigate connections between the Trump campaign and the Russian government.</p> <p>In full view of the White House, protesters in Washington, D.C., demanded answers in the ongoing Russia probe. Chants of "Investigate Trump!" and "Resist, resist!" rang across the National Mall. Some protesters even lined up together to spell out "Investigate Trump."</p>
Seguridad	Noticiero Univision	06/09/2017	0:45	<p>Baltimore, Maryland, Lupin Pharmaceuticals Inc. announced today that it has voluntarily recalled lot L600518, Exp 05/18 of Mibelas 24 F-E (Norethindrone Acetate and Ethinyl Estradiol 1 mg/0.02 mg chewable and ferrous fumarate 75 mg) Tablets at the consumer level. A confirmed market complaint indicated a packaging error, where the blister was rotated 180 degrees within the wallet, reversing the weekly tablet orientation and making the lot number and expiration date no longer visible. The first four days of therapy would have had four non-hormonal placebo tablets as opposed to the active tablets. As a result of this packaging error, oral contraceptive tablets that are taken out of sequence may place the user at risk for contraceptive failure and unintended pregnancy. The reversing the order may not be apparent to either new users or previous users of the product, increasing the likelihood of taking the tablets out of order. For patients in whom a pregnancy is contraindicated or in whom concomitant medication(s) may have teratogenic effects, an unintended pregnancy may cause significant adverse maternal or fetal health consequences, including death.To date there have been no reports of such adverse events.NY Nisa</p>
Salud	Noticiero Univision	04/10/2017	1:30	<p>Stress affects everyone, but it turns out that people in some parts of the country tend to deal with more stress on average than others. So WalletHub</p>

	Edición Digital			ran a study to determine which states have the highest and lowest levels of stress. Analysts compared data from the 50 states and Washington, D.C., and Alabama was found to be the most-stressed state in the U.S., followed by Louisiana and Mississippi.
Economía/Educación	Noticiero Univision Edición Digital	05/05/2017	0:12	Puerto Rico is closing 184 public schools in a move expected to save millions of dollars amid a deep economic crisis that has sparked an exodus to the U.S. mainland in the past decade. The closures will occur once the school year ends this month.
Seguridad/Clima	Noticiero Univision Edición Digital	06/21/2017	1:56	Tropical Storm Cindy is moving slowly towards the Gulf Coast, where millions of residents are expecting heavy rain and potential flash flooding. At least 17 million people are under a tropical storm warning from San Luis Pass, Texas, to the Alabama-Florida border. The storm could also bring up to 12 inches of rain to parts of southeastern Louisiana, southern Mississippi, southern Alabama and western portions of the Florida Panhandle.
