Often thought of as the other Mexican muralist, beside his more flamboyant compatriot Diego Rivera, Orozco was a leader of the Mexican Renaissance. His bold, dynamic frescoes had a profound impact on American painters and inspired Franklin D. Roosevelt to put artists to work during the Great Depression. His most famous U.S. murals -- The Table of Universal Brotherhood, The Epic of American Civilization and Prometheus -- still convey their power in New York, New Hampshire and California. An iconoclastic personality, Orozco survived the loss of his left hand and destruction of more than half his early work by border agents. His travels back and forth across the U.S.-Mexico border evoke the larger Mexican migrant-immigrant experience and have provocative parallels to present times.

A Yellowstone winter is a brutal one. With temperatures that plunge down to minus 40 degrees Fahrenheit the wildlife has to find strategies to survive. Some animals leave, some hide and some tough it out. Grizzlies hunker down and hibernate, but this winter the temperatures have been erratic and some bears are emerging early. Finding food is a huge challenge, but our camera crews follow one male who's lucky enough to hit the jackpot and find a bison that's been released from its icy tomb down in the valley. But he has to hang onto it whilst the scavengers hassle him. Great Gray owls suffer as their prey hides under an icy layer of snow that proves almost impossible to break through. Will this lack of food affect their mating and ability to raise a family in the Spring? Cameraman Jeff Hogan is following them to find out. And top wolf biologist Doug Smith explains why he's concerned about the number one predator. With a winter that's had less snow than usual it's favored the prey and the wolves are starving hungry. Host Kirk Johnson who's the Sant Director of the National Museum of Natural History in Washington, visits this unique wilderness to unravel the story of this particular winter in Yellowstone.

Our cameras continue to follow the wildlife dramas in Yellowstone, and Spring brings many new challenges. Whilst the brutal cold temperatures and deep snow of winter have gone, the weather is still erratic and there's the impending danger of the Thaw. When temperatures are high enough to melt the snowpack, millions of tonnes of water will cascade down the mountain, bulldozing everything in its path. Wildlife cameraman Jeff Hogan discovers a nest of Great Gray owls. There are three chicks, but one is a runt, significantly smaller than its siblings and at risk of starvation. And when the worst storms for years hit the Beartooth Mountains, Jeff wonders whether it can hang on. Down on the Snake River the family of beavers is busy making the most of the Spring vegetation. Infra red cameras give Jeff and host Kirk Johnson a secret view of life inside the lodge, as the beavers squabble over food. Kirk also dons a dry suit to head underwater to admire the engineering skills of these rodents. Massive boulders and branches are there to strengthen their dams, but will they be enough to withstand the Thaw. When the torrent of water begins to hit, Kirk joins a hydrologist to help measure the water flow in the rivers and work out how this year's weather has affected the Thaw. And bear expert Casey Anderson follows a mother grizzly and her cubs - and explains that the biggest dangers come not from other predators, but surprisingly from their own kind.

The vibrant life of Ernest Withers was anything but black and white. Soldier, police officer, civil rights activist, and paid FBI informant. It's an unlikely resume for an African American photographer in the 1960s, but complex times spawn complicated stories. From his Memphis studio, Withers developed nearly 2 million images that came to illustrate America's civil rights stories. But perhaps the push and pull of history is best illuminated by Withers' lesser-known work, decades of secret FBI service uncovered only after his death. From the flashpoint of an American saga, *The Picture Taker* brings us a tale from in front of, and behind, the camera.
