## October-December 2022 Quarterly Issues and Program Reports for WMKY, Morehead State Public Radio

The top issues covered by WMKY News during the last three months include a total of 924 stories with sound. By category, those stories include:

Arts/Culture: 193

Government: 116

Education:

72

Economics: 72

Health: 130

Police and Fire: 105

Legal/ Courts:85

Human Services: 65

**Environment: 14** 

Transportation: 16

Agriculture: 7

Weather/ climate: 19

Housing: 10

Minority/ Women: 11

War: 9

This quarter's numbers reflect an ongoing concern with health as Covid-19 positive numbers fluctuate. The numbers also show a gradual increase in coverage for government during the spring legislative session.

Partisan politics continue to be in the spotlight in state government because of divisive rhetoric related to health, equality, and education. Arts and Culture stories continue to be our largest category since it encompasses sports, a vibrant local music scene, and many local events.

Weather related stories remained high for inclement weather coverage which is important to the region. Scientist have warned about additional natural disasters expected this spring, so we anticipate additional coverage for that

Issues to be of importance to WMKY News in the next quarter will be government, as the short legislative session continues in February. We expect Arts and culture stories to remain steady, with continued emphasis on health, education, and human services.

Leeann Akers

News Director, WMKY

Morehead State Public Radio
