April-June 2022 Quarterly Issues and Program Reports for WMKY,

Morehead State Public Radio

The top issues covered by WMKY News during the last three months include a total of 827 stories with sound. By category, those stories include:

Arts/Culture: 150

Government: 83

Education: 57

Economics: 88

Health: 122

Legal/ Courts: 85

Police and Fire: 59

Human Services:74

Environment: 38

Transportation: 22

Agriculture: 3

Weather/ climate: 11

Housing: 18

Minority/ Women: 2

War: 4

This quarter's numbers reflect an ongoing concern with health as Covid-19 positive numbers rise once again, and the Supreme Court of the United States overturned Roe v. Wade. The number of stories has decreased as expected during Summer term due to the fewer student workers and staff vacations.

Partisan politics continue to be in the spotlight in state and federal government because of divisive rhetoric related to health, equality and education. Arts and Culture stories have decreased this quarter as the summer months do not include competition at the collegiate or high school level.

Weather related stories remained high for inclement weather coverage which is important to the region. Increased in agriculture stories was expected.

Issues to be of importance to WMKY News in the next quarter will be local events, Health, the reaction to SCOTUS rulings, and higher education. Generally, we also see more stories related to education, arts and culture, and election season as local races take prominence in November.

things are finally looking a little more normal at the horse track.

the morehead state university softball team will be hosting a weekend as well.

the rowan county senior high school softball team has managed to get themselves a weekend off.

and finally this differencon, the morehead state university beach volleyball team is just a few days out from returning from their hatus toursim picking back up in louisville
