**Issue: Educating our Citizens**

Summary: Keeping our listeners informed of political and civic issues is a need of our community, and we have dedicated programming time to address this need.

**Issue: Health and Wellness**

Summary: Understanding the need for maintaining both physical and mental health with healthy habits is important for the citizens of our community. Programs highlighting these needs are aired on this station.

**Issue: The Issues of Pregnancy and Abortion**

Summary: Our community has significant numbers of unwed pregnancies and a number of abortions every year, signs that many members of our community do not understand the significance of these issues. Programming addressing pregnancy and abortion is designed to better inform listeners regarding these issues.

**Issue: Financial Literacy**

Summary: Americans ages 25-34, including those in our area, have financial behaviors that tend toward debt accumulation, and this is happening during a period of milestone events such as getting married, having children and caring for aging parents. But there is hope: more working time before retirement means that their current financial decisions have a greater impact (positive or negative) on their long term financial security. Programming on financial literacy is intended to help those in our community to take charge of their financial future.
