Issue: Educating our Citizens

Issues in Education – Bob & Geri Boyd

We are witnessing a spiritual war for the future of our nation using schoolchildren as pawns. Alex Newman, wrote magazine articles in The New American: Rescuing Our Children, says there is a deliberate dumbing down of children using a reading method that's a proven failure to produce a people ignorant of history and functionally illiterate. The founders of public education, Horace Mann and John Dewey, influenced the teacher's colleges so they would unwittingly follow a pattern used in communist countries, to transform America to socialism and communism. Issues in Education – Bob & Geri Boyd

Most Christians are unaware of the spiritual assault on our nation and don't know how to counter it. David Barton of Wallbuilders says the church has the wrong strategy by focusing on conversion and not discipleship. Jesus had huge crowds but the crowds didn't change the world. It was the dozen mentored disciples who did. The War for Independence was won with local victories. To change America we need to focus on our local battles. John Quincy Adams was mentored to become one of America's greatest Founders. David compares totalitarianism to the freedom in our republican form of government.
