In his book, *Bringing Back the Black Robed Regiment*, he urges today's clergymen to emulate the patriot pastors of America's birth. Our pulpits desperately need biblical conviction once again to rally a new "black-robed regiment" of clergymen to arm Americans with the Word to uphold the Judeo-Christian principles on which this country was based.

Date: 7/5/2022

Program Name: Life Issues

Issue: Pro Life, Medicine

Time Aired: 12:30 PM, 5:25 PM

Duration: :60

Description: When little baby Harper was born just 23-weeks into pregnancy, doctors gave her just a one percent chance of survival. Harper had a three-and-a-half-inch gap between her upper and lower esophagus. Three surgeries hadn't entirely closed the space. Then surgeons placed magnets, one each on her lower and upper esophagus. Over the next forty-eight hours the attraction of the magnets brought the two sections together. The magnets facilitated a fusion of the tissue so that doctors didn't have to do yet another surgery on Harper's tiny and battered body. Her journey isn't over. She continues face other medical challenges like learning how to eat. It's amazing such a simple tool resulted in this medical miracle. Let's thank God who was directing every successful detail.

Date: 7/6/2022

Program Name: Life Issues

Issue: Pro Life

Time Aired: 12:30 PM, 5:25 PM

Duration: :60

Description: Radical pro-abortion politicians and activists go after pro-life pregnancy help centers because they don't do abortions. They're so effective at providing alternatives to abortion, they cut into the bottom line of the abortion industry. These centers of hope and love have long endured false accusations they're anti-women "fake clinics." I challenge the accusers to go to Planned Parenthood and ask for a free pregnancy test, ultrasound, diapers, crib, or formula. Ask the abortion industry if it'll help with financial assistance for their bills or education. These are things pregnancy help centers regularly provide to women and babies in need. Now tell me who's on the side of women. These generous centers empower women to choose life. Women and their babies are precious to us. We love them both.

Program Name: Family Talk

Issue: Parenting Girls

Time Aired: 1 PM

Duration: 27:00

Description: Sissy Goff, a counselor and author of Raising Worry-Free Girls, says anxiety always involves an overestimation of the problem, and an underestimation of self. On today's edition of Family Talk, she warns parents not to rescue their daughter, which only serves to validate her anxiety. In essence, a parent might say, "You're right, sweetheart, your concern is too big and you're too small. You can't do it." Instead, it's critical to tell her, "You are capable. And I believe in you!" That will build her confidence, empowering her to become more resilient and independent.

Date: 7/11/2022

Program Name: Life Issues

Issue: Planned Parenthood, Rape

Time Aired: 12:30 PM, 5:25 PM

Duration: :60

Description: Montana Attorney General Austin Knudsen is working to free the state’s abortion parental involvement law, held hostage by the court and supported by 70% of Montanans. He exposed Planned Parenthood for not reporting the statutory rape of a 16-year-old girl until a judge involved in the case reported it because he didn’t think Planned Parenthood would. They did, only after being exposed and then they underreported the age of the alleged assailant. Rape coverups are routine at Planned Parenthood, putting profits above people. For example, there have been similar cases in Indiana, Ohio, and Arizona for not reporting the sexual assaults of minor girls. Just imagine the number of young girls who’ve been victimized by rape, and the crime covered up by Planned Parenthood.

Date: 7/13/2022

Program Name: Life Issues

Issue: Pregnancy Centers, Pro Life, Domestic Terroris

Time Aired: 12:30 PM, 5:25 PM

Duration: :60

Description: A wave of domestic terrorism is being inflicted on pro-life organizations, pregnancy help centers, churches, and pro-life politicians. There was also an assassination attempt on a Supreme Court justice. It's all happening with a near blackout by major media outlets. This terrorism includes scores of attacks with fire bombings, vandalism, vulgar and inappropriate disruptions during church services. The major media outlets of CBS, NBC, and ABC gave slightly over one minute combined! And the Department of Justice is ignoring the attacks in spite of pleas from Congress. Can you imagine the outrage by the media and Biden administration if these were attacks on pro-abortion related entities? It's never been about truth and justice when it comes to abortion, only advancing a radical agenda at any price.

Duration: 30:00
Description: Dr. Juli Slattery recognizes that many couples possess a poor foundation for understanding God’s design for intimacy — that our sexual relationship is a metaphor for the intimacy God longs to have with each one of us. Ironically, after she became a believer, Lee came to know the Lord after he tried to disprove the Resurrection for over two years. The avalanche of evidence pointing to our salvation was irrefutable. On today's edition of Family Talk, Dr. James Dobson and his good friend, renowned apologist and scholar Lee Strobel discuss his faith walk and the role of apologetics in evangelism. They also highlight the parallel of famous atheists of history – Nietzsche (KNEE-chee), Freud (FROYD), Voltaire, and O'Haire – who were either fatherless or had bad relationships with their fathers.

Date: 7/21/2022

Program Name: Life Issues

Issue: Infacide, Euthanasia

Time Aired: 12:30 PM, 5:25 PM

Duration: :60

Description: You've heard me say assisted suicide is the start of a slippery slope to outright killing through euthanasia. Here's a case in point. Euthanasia is legal in Belgium but they're going beyond the legal limits with impunity. They've extended euthanasia to newborns and infants. It is so rampant that ten percent of all deaths of babies are actually euthanasia. A recent study looked at the issues driving this, but in a published article, the term euthanasia wasn't even used. What it boils down to, if physicians, and I use that term loosely, feel there is "no hope of a bearable future" euthanasia is a good choice. This means these babies are likely to survive but the doctors and their parents believe their lives aren't worth living. This kind of dangerous thinking is seeping into America.

Rather, in humility, value others above yourselves.” With God’s providence, after graduating from college and law school, and then struggling as a young lawyer, Shannon persevered in her quest to ‘value others above herself,’ culminating in her landing a plum job as host of Fox News @ Night. In this public forum, Shannon engages viewers and the culture each night to defend truth and righteousness. On today’s edition of Family Talk, she talks to Dr. Tim Clinton about her previous stage fright, her husband’s brain tumor, and her new book, *The Mothers and Daughters of the Bible Speak*, highlighting life lessons from mothers and daughters in Scripture.

On today's edition of Family Talk, Dr. James Dobson and Dr. Del Tackett, the creator of The Truth Project, discuss Del's documentary film, "Is Genesis History?," and examine the scientific evidence for creation. They also review the most important biblical truth: that just as sin and death entered the world through one man, Adam, salvation and God's grace came through one man, Jesus Christ.

Date: 7/26/2022

Program Name: Life Issues

Issue: Abortion, Business

Time Aired: 12:30 PM, 5:25 PM

Duration: :60

Description: Several major American companies are letting it be known they'll cover travel and other related costs so their employees can have abortions. These announcements are being made with considerable fanfare so women and the media will think these giants of the business world are all about taking care of women. Don't believe it. It's all about the bottom line and these companies incur far fewer costs if their employees have abortions instead of giving birth and raising children. They're also promoting the misguided notion that in order for women to have a successful career, they must sacrifice their children in abortion chambers. Compare this with Buffer Insurance that'll cover medical costs for employees who give birth, provide paid time off, and cover medical costs associated with adoption.

Date: 7/27/2022

Program Name: The Point

Issue: Abortion, World View, Roe V Wade

Time Aired: 12:45 PM

Duration: :60

Description: France is pretty mad at the United States. Actually, the entire European Union is mad, so mad in fact, they wrote a strongly worded letter. Earlier this month the EU passed a resolution condemning the United States Supreme Court's ruling in the Dobbs abortion case, which overturned Roe v. Wade and sent the matter of abortion restrictions back to individual state legislatures.

Parliamentarians said the Dobbs ruling showed that "women's and girls' rights" are under attack. The strange part is that the Mississippi law which sparked the Dobbs case restricts abortion after 15 weeks of pregnancy. That's one week later than France's law, which restricts elective abortions after 14 weeks.

It gets weirder: The EU's condemnation also warns the Dobbs ruling could embolden "anti-gender" groups around the world. But if abortion is about the rights of "women and girls," that implies we know how to define "woman" and "girl."

Date: 7/30/2022

Program Name: Life Issues

Issue: after the overturn of Roe v Wade

Time Aired: 12:30 PM, 5:25 PM

Duration: :60

Description: The battle over abortion has shifted to individual states, which gives us hope because the pro-life movement's strength lies in its grassroots abilities. With the "termination" of Roe, approximately 21 states already protect or significantly defend their preborn children. Nine more are expected to join that category after efforts to pass pro-life legislation. Now, our victories will not be undermined by unelected justices on the nation's highest court. Passing pro-life legislation will have an immediate effect on saving lives! Pro-life education is the foundation on which we build legislative and political victories. So, Life Issues Institute will move forward with strategically targeted educational efforts in states where we can have the biggest impact.

Program Name: Life Issues

Issue: Government, Pro-life

Time Aired: 12:30 PM, 5:25 PM

Duration: :60

Description: State officials are playing hardball with Louisiana's elected officials who are thumbing their noses at enforcing laws protecting unborn babies. New Orleans' mayor, sheriff, district attorney and police department have all pledged to not enforce pro-life laws. So, Louisiana's Bond Commission is taking action. They withheld 39 million dollars from the city for work to be done on a new sewer and water plant. Secretary of State Kyle Ardoin said elected officials can't "pick and choose what laws we follow...they should all be impeached." I applaud this brave action. It's a reminder we must only vote for pro-life candidates regardless of the level of government. I've often said I wouldn't vote a dogcatcher into office unless I knew he or she was pro-life.

Date: 8/9/2022

Program Name: Life Issues

Issue: Pro Life, Government

Time Aired: 12:30 PM, 5:25 PM

Duration: :60

Description: Pro-life members of the US Senate have introduced legislation called the Unborn Child Support Act. It would allow states to require that child support be paid to the mother from the moment of fertilization. It would be applied retroactively and be paid before the child is born. It also provides flexibility in the event the mother doesn't want to receive support because she doesn't want the father involved. Advocates of this bill believe America's policies should reflect the indisputable science that life begins at fertilization. Life Issues Institute supports this bill because it does two important things. First, it gives support to women when they need it the most. Second, it clearly demonstrates human life exists from the moment of fertilization and should be respected and supported.

There were no angelic appearances or a thunderous heavenly voice from above. Rather, as Proverbs 19:21 proclaims, "Many are the plans in a person's heart, but it is the Lord's purpose that prevails." Bob learned that the Lord's will is made manifest through circumstances.

Of course, this is a blatant effort to censor and eliminate the free speech of doctors who disagree with their extreme agenda on abortion. The American Association of Pro-Life Obstetricians and Gynecologists have put the former group on notice. They'll sue to protect their ability to provide the best care for their patients. Killing their unborn patients isn't on the list of best care. Join me in praying for their protection.

In June of 1979, Larry and his wife, Sue, founded the ministry Abundant Life, which focused on unchurched businessmen. The ministry evolved to help couples work to improve their marriages. Larry and his wife expanded their outreach by speaking on the topic of God's plan for marriage across the country. In addition, they worked with Pro Athletes Outreach, helping athletes work to keep their families together. Larry passed away in 2001.

Sue Wright served alongside her husband and led Bible Studies and encouraged women in their faith for over 35 years. She was also a talented artist and loved to draw and paint with oils. In addition, Sue had a passion for horses and competed in many rodeos as a barrel racer. She was a rodeo princess and participated in many parades with her horses. Sue and Larry were married 46 years before his passing in 2001. She joined her husband in Heaven when she went home to be with the Lord in 2019. Throughout his five-month journey, he lost 25 pounds, grew his hair and beard, and eventually repelled people by his body odor. Program Name: Life Issues

Issue: Abortion, Planned Parenthood

Time Aired: 12:30 PM, 5:25 PM

Duration: :60

Description: Planned Parenthood has long claimed abortion represents just three percent of the services they provide. This manipulated falsehood has been obediently repeated by the biased media. If the three percent number were true, no Planned Parenthood center would've closed due to the demise of Roe v Wade. Let's take a snapshot picture of closings this year by the abortion industry giant. In anticipation of Roe being reversed, in May Planned Parenthood closed five abortion centers in Alaska, Idaho, and Indiana. Earlier this year they closed a Vermont center. Just prior to the Court's ruling they shuttered centers in four additional Vermont locations and one in New Hampshire. Time will give us a better picture, but I doubt we'd see these closings if the three percent claim were true.

Issue: Abortion, Politics

Time Aired: 12:30 PM, 5:25 PM

Description: In the past I've told you HHS Secretary Xavier Becerra is a zealous abortion advocate. Most recently he tried to turn Texas hospital emergency rooms into abortion centers. Becerra and the Biden administration twisted the law requiring ERs provide services even if an individual can't pay. Becerra tried to claim abortion is a stabilizing treatment necessary for patients regardless of what the state law says about abortion. When his version of the emergency law and state law conflict on abortion, Becerra says "state law is preempted." Opponents say it was a poorly disguised attempt to transform every Texas ER into abortion centers. The law governing ERs actually states its services are to help women patients and their unborn children. Thankfully a judge rejected this outrageous coup attempt.

Program Name: Life Issues

Issue: Abortion, Media

Time Aired: 12:30 PM, 5:25 PM

Duration: :60

Description: History is repeating with the media. For decades they reported abortion was only legal during the first three months. Even when given proof abortion was legal all nine months, they continued to report lies. They're doing it again, now saying women won't be able to get medical treatment for legitimate issues because of abortion laws. Sadly, methotrexate is used off-label with the chemical abortion pill. The legitimate use is for rheumatoid arthritis. CBS featured a young woman with the disease because her pharmacy delayed refilling her prescription to make sure it wasn't being used for an abortion. After a delay many of us have experienced, the prescription was refilled. It's more fearmongering from the extreme far-Left media and abortion industry to advance their abortion agenda.

Last week she promised to rescind the state's heartbeat law, protecting unborn babies when their heartbeat can be detected in a doctor's office. Abrams said, "There is no such thing as a heartbeat at six weeks. It is a manufactured sound designed to convince people that men have the right to take control of a woman's body." Settled science says the human heart begins to beat between sixteen and twenty-eight days after fertilization. Imagine the offence Abrams caused to women throughout Georgia who have heard their babies' hearts beating early in pregnancy. Those who support unrestrained abortion have no valid argument, so they manufacture outrageous lies.

Program Name: Life Issues

Issue: Abortion, Birth Control

Time Aired: 12:30 PM, 5:25 PM

Duration: :60

Description: It's a touchy subject and not often approached, but in truth many women and men use abortion as a method of birth control. If the preferred method fails or they don't use it, abortion will bail them out. Rebecca White recently wrote an article titled I Had a Carefree Sex Life. The Next Generation Will Have Fear. The content isn't for family radio, so let me just say she led a vigorous and carefree lifestyle, knowing abortion was there if and when she needed it. As many states enact legislation to end the killing of unborn babies, we're seeing a shift in how people approach intimacy. I've mentioned in a previous commentary how doctors are seeing more people opt for permanent or long-term contraception. Instead, I pray that we see a growing trend of abstinence until marriage.
