**Time Aired:** 1:00 PM

**Duration:** 27:00

**Description:** 1 Corinthians 13 says, "Love is patient, love is kind. It does not envy, it does not boast, it is not proud. It does not dishonor others, it is not self-seeking, it is not easily angered, it keeps no record of wrongs. Love does not delight in evil but rejoices with the truth." Although relationships can be full of love, they can also be difficult and sometimes become unhealthy and emotionally destructive. On today's edition of Family Talk, Dr. Tim Clinton interviews Leslie Vernick, a licensed social worker and biblical counselor, to discuss the difficult topic of abusive marriages. According to Leslie, the Church needs to do a better job of not prioritizing the sanctity of marriage above the safety and the sanity of individuals in a marriage if abuse is present.

**Program Name:** Life Issues

**Issue:** Abortion, Prolife

**Time Aired:** 12:30 PM, 5:25 PM

**Duration:** :60

**Description:** Where were you in 1976? Were you even born? Debbie Ummel, Jolie Zimmer and Marbeth Foley, members of Milwaukee Feminists for Life, wanted to help women who were hurting after abortion. They went to Dr. Monte Liebman, a psychiatrist for help, but he told them they could do it themselves. The ladies were skeptical at first, but with training they began offering hope to women who suffered a loss by abortion, miscarriage and adoption placement. They used the Yellow Pages – ask someone if you don't know what they are – and a twenty-four-hour phone line that was forwarded to the homes of volunteers. They called it the Pregnancy Aftermath Helpline and it quickly became a lifeline to hurting mothers and fathers in the Milwaukee area. Thanks, Dan Zeidler, for this look back.

The Court sided with medical research showing that chemical abortion pills pose a potentially severe threat to the health and wellbeing of unsuspecting American women. While killing the baby, these dangerous pills are also known to kill women and inflict thousands more with life-threatening complications. Planned Parenthood and like-minded groups from around the world have developed a YouTube channel spewing dangerous misinformation through videos to kids as young as four. They lie about pro-life pregnancy centers while never addressing the dangers of abortion. These online schemes circumvent parents while recruiting new and very young Planned Parenthood customers.

**Issue:** World View, Euthanasia  
**Time Aired:** 12:30 PM, 5:25 PM  
**Duration:** :60  
**Description:** A fictional film slated to soon debut depicts life in Japan for citizens 75-years or older. Called Plan 75, it depicts life under a law that encourages euthanasia at 75-years-old to diminish the growing population of older adults. The director, Chie Hayakawa, produced the film as a warning that Japanese society is growing intolerant of people who are weak, elderly, poor, or disabled. The people have become obsessed with the concept of self-responsibility. When the film came out in Japan he was shocked to find support for the real-life idea of a Plan 75. Euthanasia is expanding with alarming speed in Canada. In less than five years they dropped the requirement that patients be terminal. **Time Aired:** 12:30 PM, 5:25 PM  
**Duration:** :60  
**Description:** In my line of work, just when I think mankind can't get more depraved, I'm proven wrong. A United Nations report actually advocates decriminalizing sex between adults and children. The forward of the report by a proud homosexual says laws against sexual predators assaulting children can make the predator feel ostracized because of his sexual behavior. He further says when laws criminalize sexual behavior it "codifies discrimination" against the perverts – my word not his. Some now claim that men sexually attracted to children is just a sexual orientation, not a pedophile. The report also calls abortion for any reason a "human right." After America opened the Pandora's Box for alternate sexual behaviors, there's no stopping the perversion.

<b>Issue:</b>	Abortion, Legal System, Pro Choice
<b>Time Aired:</b>	12:30 PM, 5:25 PM
<b>Duration:</b>	:60
<b>Description:</b>	They say justice is blind. But that's not always true when it comes to the abortion issue. Joan Jacobson, an 83- year-old volunteer, was canvassing a Michigan neighborhood, asking homeowners to vote against the referendum enshrining abortion until birth into the state's constitution. As she argued with his wife, Richard Harvey started waving his rifle around and shot Jacobson in the shoulder. In the end, Harvey got only one hundred hours of community service for shooting the elderly woman. Now compare that with Mark Houck who was prayerfully protesting in front of an abortion center when accused of trumped up charges that would've resulted in eleven years in prison. A jury quickly acquitted him. You can see when it comes to the issue of abortion, justice isn't blind but is often biased. <b>Description:</b>	The American Association of Pro-Life OB/GYNs invited the pro-abortion American College of OB/GYNs to a debate on the abortion issue. Its CEO curtly responded it "will not debate abortion...we will continue to affirm that the role of abortion in our patients' lives is settled science." Just days later they were proven wrong. The pro-abortion group held the Abortion Rights Advocacy Roundtable at their Annual Clinical and Scientific Meeting. It was held in a huge ballroom, but ninety-five percent of the seats were empty. This is because a vast majority of OB/GYNs don't do abortions. While abortion advocates spoke to an empty room, the exhibitor hall was "packed." Clearly those attending the conference voted with their feet that abortion was not "settled science."

I can’t imagine life without ever enjoying a rollercoaster, and at Morgan’s Wonderland you can. A battery-operated wheelchair is no problem with water fun. **Program Name:** The Point

**Issue:** Same Sex Marriage, Abortion

**Time Aired:** 12:45 PM

**Duration:** :60

**Description:** Earlier this week, the pro-abortion group NARAL tweeted in tribute of the Supreme Court decision that mandated “same-sex marriage” on all of America:

“Eight years ago, Obergefell v. Hodges recognized the right to same-sex marriage. But the fight to start or grow our families—however and whenever we want—continues.”

“Same-sex marriage” was sold with the claim that with birth control and abortion, modern marriage had been divorced from procreation in any meaningful sense. “Love is love,” the line went, though even if morality is left out of the discussion and only male-female relationships produce children.

So, the word “spouse” was redefined in law. Now, according to NARAL, true equality requires that inherently sterile relationships be able to have children “however and whenever [they] want.”

Republican Senator JD Vance of Ohio is blocking nominees to the Justice Department until Attorney General Merrick Garland ends his persecution of pro-life Americans. Senator Vance said Garland is “letting the violent criminals go free” while he’s “harassing Christian parents for their political activism.” Republican Senator Tommy Tuberville of Alabama is refusing to allow Pentagon nominees to move forward until Secretary of Defense Lloyd Austin withdraws a rule change that uses taxpayer dollars to fund abortions of servicewomen. Many thanks to our bold pro-life heroes in the Senate.
