Description: Did you know that an average of 25 million Christians do not vote during a presidential election? Or that more than 65 million Christians don't exercise their right to choose in their local elections? On today's edition of Family Talk, Jason Yates, the CEO of My Faith Votes, warns us that if our values aren't represented at the polls, someone else's will be. God has uniquely gifted us with the privilege of selecting our leaders, and we have a responsibility to put our faith into action during an election. Proverbs 29:2 says, "When the righteous are in authority, the people rejoice; But when a wicked man rules, the people groan."

Date: 10/5/2022

Program Name: Life Issues

Issue: Politics, Pro Life

Time Aired: 12:30 PM, 5:25 PM

Duration: :60

Description: It would appear the Department of Justice and FBI have been weaponized against the pro-life movement. According to his wife, Mark Houck, a Pennsylvania pro-life advocate, was arrested at his home in SWAT-like fashion. Mark had pushed an aggressive elderly man in front of an abortion center. The man tried to sue but a District Court threw it out. Merrick Garland's Department of Justice took up the case, resulting in the arrest. Compare this with the fact the FBI has yet to confirm they've arrested anyone for scores of violent attacks on pregnancy centers and churches. Those who break the law should face the consequences. But justice must be served evenly and fairly, and the evidence is mounting only the abortion industry and its extreme supporters are being served.

Date: 10/7/2022

Program Name: The Point

Issue: Abortion, Planned Parenthood

Time Aired: 12:45 PM

Duration: :60

Description: A few years ago, facing threats to part of its federal funding, Planned Parenthood loudly claimed that abortion only accounted for 3% of the services they provided. Defenders of the nation's largest abortion business continue to cite the stat.

It's as misleading today as it was then.

Planned Parenthood's strategy was to separate out the actual abortion as a service from every other minute detail of a woman's visit to a clinic. So, if the same visit involved STI testing, a birth control prescription, aspirins for pain, or anesthesia, each was counted as a different service. That's why abortion was only 3% of their services, but 40% of their revenue.

As journalist Rich Lowry once put it, that's like Major League Baseball saying that because they sell 2 million hot dogs a year but only host 2,400 baseball games, they're a hot dog company with a baseball side hustle.

Abortion is big business for Planned Parenthood, no matter how they fudge the numbers.

Date: 10/11/2022

Program Name: Life Issues

Issue: Late term abortion

Time Aired: 12:30 PM, 5:25 PM

Duration: :60

Description: Senator Lindsey Graham introduced federal legislation ending abortion at 15 weeks. If passed, it would protect more babies than most realize. According to the Charlotte Lozier Institute, nearly 56,000 unborn babies would be saved each year with this legislation. They estimate six percent of all late abortions are done after 15 weeks. Not surprisingly, more of these abortions – about seven percent – are done in pro-abortion states, with about five percent in pro-life states. Florida had become the go-to destination for late-term abortions in the Atlantic Southeast. That is until they passed a law protecting babies who reach the age of 15 weeks. It literally altered the abortion landscape in the region. Imagine the blessing if we protected these babies nationwide!

Date: 10/12/2022

Program Name: Family Talk

Issue: Elections, Politics, Voting

Time Aired: 1 PM

Duration: 27:00

Description: On Tuesday, November 8th, Americans across the country will cast their votes in the midterm elections. This will be a moment in time that will prove to be crucial for the future of our country. Most Christians recognize that our nation is divided, is in serious trouble, and that none of our problems will be solved unless believers step into the public square and cast biblically-informed votes. On today's edition of Family Talk, Dr. Tim Clinton and Gary Bauer, senior vice president of public policy at the James Dobson Family Institute, identify the "kitchen table issues" on the ballot this fall and remind us of our duty and the importance of making our voices heard at the polls.

Date: 10/13/2022

Program Name: The Point

Issue: Abortion

Time Aired: 12:45 PM

Duration: :60

Description:

Recently, Joe Scarborough suggested that because abortion was common in the Roman world, and Jesus never said anything about it, He must have been pro-abortion. When that same reasoning is applied to any other moral issue, it is obvious how ridiculous it is. Jesus never said anything about slavery or torture or the sexual abuse of children, so He must have been for all of those things?

The argument from silence doesn't work, and it ignores historical facts. The Jews in Jesus' day opposed abortion, as both the testimony of the Talmud and Roman critics of the Jews attest. Jesus did not address abortion because it wasn't an issue among Jews in the Holy Land.

But from its earliest days, the Church did—starting with the Didache, one of the oldest surviving Christian documents outside of the New Testament. Wherever abortion was practiced, the Church condemned it and must continue to do so today.

Called Reproductive Rights Accelerator, it will award \$25,000 to at least three senior film students to create scripts and develop films supporting abortion. Date: 10/25/2022

Program Name: The Point

Issue: Graphic TV, True Crime

Time Aired: 12:45 PM

Duration: :60

Description:

One of the most popular shows ever produced by Netflix is a new, dramatized series about serial killer Jeffrey Dahmer, who murdered 17 people in the 1980s. Viewers have collectively spent more than 700 million hours streaming the show, which includes graphic depictions of torture and death.

The show’s popularity points to the human obsession with violence and evil. The true crime genre has exploded in recent years, which may not only reveal a problem ... it could also create problems.

After all, art shapes our imaginations and therefore can affect our behavior. Research demonstrates that everything from eating disorders to self-harm, crime, gender dysphoria, and even facial tics can be learned by exposure. This is what is meant by “social contagion.”

Watching this series won’t make every viewer a serial killer, but it won’t help us love our neighbors either. As Marshall McLuhan observed, we become what we behold. And eBay is reporting an influx of “Jeffrey Dahmer Halloween costumes” listed for sale.

Program Name: Family Talk

Issue: America's Moral Freefall

Time Aired: 1 PM

Duration: 27:00

Description: America's moral structure has been deteriorating in the last 40 years under the weight of a secular worldview. On today's classic edition of Family Talk, author and theologian Dr. Francis Schaeffer asserts that America's moral decline can be traced back to the rejection of the biblical notion that man is created in God's image. He states that abortion, the failed public school system and the breakdown of the family are simply the ugly and inevitable results of a shift from a Christian worldview to a humanist worldview.

Recently they arrested Eva Edl, an 87-year-old woman who escaped a concentration camp during World War II. Eva's crime? She participated in a peaceful sit in at an abortion center that included singing and prayer. It was so peaceful local police let them go with minor misdemeanor charges. Across the nation over ten thousand lives have been spared from the cruelty of the abortion industry! We're saving more babies in the South where many states protect all or nearly all of their tiniest citizens. We have a small margin of lives saved in the West where there's more work that needs to be done. Sadly, we have a net loss in the Midwest because of Illinois. Every pro-life governor who signed significant pro-life legislation won reelection. Twelve governors in Texas, Florida, Georgia, Ohio, Iowa, Oklahoma, South Dakota, Tennessee, South Carolina, Idaho, Wyoming and Alabama proved the far-Left wrong. And Nebraska achieved a filibuster-proof majority in their Unicameral Legislature to pass pro-life legislation. Nebraska's newly elected governor is chomping at the bit to save the babies. In Ohio, three elected Supreme Court justices likely created a majority to uphold pro-life laws there. We had losses but great victories too!

They found "significant changes in the brains of the fathers" which didn't happen in the brains of the childless men. The changes occurred in the cortex controlling "visual processing, attention and empathy toward the baby." The level of change varied, they believe, depending upon the level of the father's interaction with their babies. Having children changes your world. This budding research may pave the way for showing us how much.

In December about fifty of them were singing Christmas carols. Some women passed by as if not to notice, but the group had hope the Holy Spirit would use their voices to touch the hearts of abortion-bound women. Then it happened, as they were about to leave, they noticed a woman sitting in her car listening to the carolers. As she left she told them she had changed her mind and asked for prayer. Romans 12:12 is good advice for these carolers. "Be joyful in HOPE, patient in affliction, faithful in prayer." Before they left, the group sang Joy to the World.

Program Name: Life Issues

Issue: Abortion, Pro-life

Time Aired: 12:30 PM, 5:25 PM

Duration: :60

Description: You often hear pro-abortion activists say abortion helps women choose when to have a child so they can achieve their career goals. The problem with this is it's not true. Researchers studied seventeen years of Medicaid data comparing women who aborted their first pregnancies and those who gave birth. The evidence shows women who abort are over 50% more likely to have more miscarriages than those who give birth. They're also likely to have a third more pregnancies and have more than four times as many abortions. And women who aborted had half the number of live births than those who didn't abort. In short, a first pregnancy abortion leads to more pregnancies that result in more abortions and more miscarriages, but fewer children. Abortion isn't a tool that empowers women.

Program Name: Life Issues

Issue: Ethics, Organ Donation

Time Aired: 12:30 PM, 5 :L25 PM

Duration: :60

Description: The unmet need for organ donors is acute, which explains why doctors are crossing an ethical line to access them. Ideally, organs should be harvested while the donor's heart is beating and providing oxygenated blood. A new process to harvest organs is called normothermic regional perfusion. What they do first is remove life-sustaining treatment. After the heart stops beating, it is restarted but they clamp off blood flow to the brain causing "brain death." After which organs are retrieved while the heart is still beating. What's driving this horrifying ethical lapse? Money. Hospitals get paid well to harvest the organs, and if they supply the recipients with the organs, they can bill insurance companies for vast sums. There's got to be a better way that doesn't undermine organ donation.
