**Curiosity Quest**

Curiosity Quest is an upbeat, family, educational program that explores what viewers are curious about. In each show, host Joel Greene ventures on a quest to answer viewer's letters of curiosity. Each quest takes the audience on location for an unscripted, hands-on, educational exploration. In addition, throughout each program, Joel will hit the streets to get real and often comical answers to questions pertaining to each episode. Joel's enthusiastic personality often lands him in hilarious situations in pursuit of the answer.

# Producer's Statement

## **Curiosity Quest/Curiosity Quest Goes Green E/I Children 13-16**

Curiosity Quest & Curiosity Quest Goes Green are 30-minute weekly E/I series for children ages 13-16.

Curiosity Quest & Curiosity Quest Goes Green are upbeat, family, educational series that explore what viewers are curious about and raising awareness of earth-friendly issues.

Each quest goes on location for an unscripted, hands-on, educational exploration. Throughout each program, Joel Green will hit the streets to get real and often comical answers to questions pertaining to each episode.

Together with Joel, viewers learn about things that each of us can do to be more eco-friendly and responsible inhabitants of this Planet Earth. Episodes include segments including recycling all different types of materials, worm farming, rescuing wild animals, backyard composting, the effects of plastics in our oceans and much, much more!

In accordance with the 1990 Children's Television Act (ATC) intended to increase educational and informational programming for children on television, Curiosity Quest & Curiosity Quest Goes Green clearly reach the goals of providing children with a television show that meets the CORE requirements of the FCC.

The closed captions that are used satisfy the quality standards required by the FCC for accuracy, synchronicity, program completeness, and placement. Curiosity Quest & Curiosity Quest Goes Green are in compliance with the requirements of the Report and Order in CG Docket No. 05-231, FCC 14-12.

**Series Review**

Title: Curiosity Quest

Episodes reviewed: 1

Program length: 30 minutes

Curiosity Quest features stories/topics that are generated by young viewers' questions, which are sent in to the host, Joel Greene, via e-mail. In this program, Joel Greene reviews and chooses a question from the many questions sent in by young viewers, and then plans a "field trip" to a place where that question can be answered.

Joel Greene begins the segment by reading a viewer's question and then explains where they will be going in order to answer that question, hence the name "Curiosity Quest". This segment's question was about how sea animals are fed. Greene explains to the audience that in order to answer this question they will be taking a trip to the Monterey Bay Aquarium in Monterey, California. Greene is an entertaining and exciting host, who adds humor whenever there is an opportunity to do so. He talks with different professionals throughout the aquarium, asking them questions not only about how sea animals are fed, but also about many other topics pertaining to sea animal life. Throughout the segment, children and adults who are visiting the aquarium are asked questions about specific topics having to do with sea animal life and some answers are accurate, while others are very amusing.

As Greene asks questions to each of the professionals who work at the aquarium, more topics arise, such as animal health care, identification of bird species, food preparation for various types of animals and a variety of other interesting and educational facts and information. Each professional's role at the aquarium is very important to the well being of the animals that are there and the whole experience of running an aquarium. The format of this series is youth centered and educationally based, while remaining entertaining and interesting throughout the entire segment.

The specific topic in this particular episode could be used to embellish a middle or high school marine biology or environmental studies class. Unless a video is truly educationally worthy, watching videos in classrooms is no longer an acceptable activity in most schools and districts throughout the country. Curiosity Quest is a show that would be acceptable and appropriate for student viewing in a variety of educational settings. This would also include home schooling, as well as parent/child TV watching for pleasure.

Thinking about careers is very important for students. In fact, high school seniors are encouraged to have a major in mind, as well as a possible future profession by the time they leave high school. This series exposes students to a variety of possible jobs and career paths for their future. Lastly, Curiosity Quest emphasizes how professionals work together to get a job done. This supports the need for being able to work as a team, which begins in kindergarten curriculum and continues through 12<sup>th</sup> grade.

Cyndi Mitchell  
Orange County Public Schools  
Orlando, Florida

## Professional Bio for Cyndi Mitchell

Credentials: Bachelor's of Art in Liberal Studies; Master's of Science in Special Education; Florida Teaching Certificate for Special Education, K-12 and Florida Teaching Certificate for Elementary Education, K-6.

Cyndi Mitchell earned her Bachelor of Arts degree in Liberal Studies from Loyola Marymount University in Los Angeles, California in 1988. She began working in the San Francisco Bay Area in 1989, teaching elementary grades second and fourth. In 1992 she earned her teacher certification to teach Gifted Education from California State University, Hayward and taught elementary Gifted Education for two years. In 1994, she began teaching high school students with specific learning disabilities, as well as running the Peer Counseling and Conflict Mediation programs, where she remained for six years. She earned her Educational Leadership credential from California State University, Hayward in 1999 and worked as a middle school assistant principal from 1999-2002. She earned her Master's in Special Education in 2001 from California State University, Hayward.

In 2002 Ms. Mitchell moved to Central Florida where she taught middle school and elementary students with specific learning disabilities in both the direct instruction and inclusion models for ten years. She worked from 2012-2014 as an academic/behavior coach at the elementary level. At the present time she works for Orange County Public Schools as a behavior specialist at an elementary school, supporting students who have behavior and emotional disabilities.

Besides being a teacher, support team member and administrator, Ms. Mitchell has also served on many committees and worked in various leadership roles throughout her career, helped to write district curriculum for various subjects and mentored new teachers who enter the profession. Her next goal is to work as an academic/behavior coach at the district level, where she can support teachers with educational, academic and behavioral strategies to better serve students with special needs.
