**Re: False and Misleading Advertising by Majority Forward**

Dear Mr. Merrill:

It has come to our attention that a group calling itself Majority Forward has purchased airtime on your network to run a negative advertisement targeting Governor Rick Scott, a candidate for election to the United States Senate in the State of Florida (“the Advertisement”). The Advertisement contains demonstrably false and misleading assertions about Gov. Scott intended to deceive your viewers. Indeed, the Advertisement appears to contain ***no statements whatsoever that are*** truthful and honest. As a licensee, you have a legal obligation to review and eliminate false, misleading, or deceptive advertisements in order to protect your viewers.

The Advertisement falsely asserts that Gov. Scott’s “company was found guilty of massive Medicare fraud. But Rick Scott walked away with millions.” This claim is not only a blatant manipulation of the facts, but intentionally crafted to mislead your audience. Gov. Scott’s company, Columbia HCA, was not found guilty of Medicare fraud. It was HCA and not Columbia HCA that, long after Gov. Scott left the company, decided to settle these allegations rather than go through a lengthy trial. In fact, Gov. Scott wished to fight the charges at the time.<sup>1</sup>

The Advertisement also displays a partial, deceitfully edited clip of Fox News’ Megyn Kelly which manipulates her clear *question* into what is presented as a *statement of fact*. The clip by Majority Forward in the Advertisement appears to show Megyn Kelly claiming that Gov. Scott “got rich on the backs of, uh, American health care patients.” What Ms. Kelly actually said, in a full, unedited clip, is “*so they say* you got rich on the

The case was settled after he left the company, though Scott wanted to fight the accusations.”)

backs of, uh, American health care patients.”<sup>2</sup> Ms. Kelly, through the original statement, was clearly asking Gov. Scott to respond to erroneous charges from officials within the Obama administration that accused him of getting rich on the backs of American health care patients. Through selective editing, the Advertisement turned Ms. Kelly’s question about an erroneous statement into a statement of fact. Again, Majority Forward blatantly manipulates the facts and intentionally crafted the clip to mislead your audience.

The Advertisement also makes a number of other false and/or misleading statements. The Advertisement claims that “as governor, no-bid contracts were steered to Scott’s friends and contributors.” In doing so, the Advertisement cites to a news story about Gov. Scott’s former chief of staff steering a no-bid contract to one of his friends, not to Gov. Scott or one of Gov. Scott’s friends.<sup>3</sup> Majority Forward glosses over this important detail in an obvious effort to conceal the truth. The advertisement also cites allegations that Broward Health gave no bid contracts to contributors of Gov. Scott, but does not allege that Gov. Scott gave those contracts, knew about those contracts, or that the contributions had anything to do with the award of those contracts.<sup>4</sup> The Advertisement goes on to state that “[as governor,] new laws were pushed through, helping companies [Gov. Scott] had ownership in.” Majority Forward cites no facts, news stories, or even a piece of legislation apparently “pushed through” in support of this allegation. As has been widely reported, Gov. Scott’s investments are in a blind trust, and he has no control over those companies, the investments within the blind trust, or knowledge of the contents of the blind trust until their public disclosure earlier this year.<sup>5</sup> Finally, the Advertisement states that “[as governor,] Scott’s income soared by \$83 million last year alone.” In making this assertion, Majority Forward relies on personal financial disclosures from differing jurisdictions which ask for different disclosures based on different laws.<sup>6</sup> Namely, while the state financial disclosure required by Florida law from last year only reports Gov. Scott’s income, the federal financial reports due to his U.S. Senate candidacy and required by federal law

We urge you to recognize Majority Forward's egregious manipulation of the facts in this instance and respectfully demand that your network cease airing this false Advertisement. We further demand that you reject any attempts by Majority Forward to purchase time for the future airing of this Advertisement because of its intentionally misleading content and blatant disregard for the truth of the matter. Knowing that the Advertisement is false, and possessing the legal authority to refuse to air it, your station is obligated to exercise such authority in accordance with its duty to protect the public.
