QUARTERLY ISSUES & PROGRAMS REPORTS

KSTU’s obligation is to ascertain the important issues and needs of the communities within our broadcast coverage area and to provide quarterly reports on the station’s responses and coverage of these issues.

The following list was determined after careful evaluation of information and communication with community leaders and local organizations. Below represents topics we look to address year-round.

“The following summarizes a representative sample of programming that provided the most significant treatment of community issues during the past quarter. Programming frequently deals with more than one issue.”

- Education
- Environment
- Government
- Health
- Safety
- Minorities
- Transportation
- Youth/Women

KSTU addressed the above community issues and needs through the following on-air programs and public service announcements, supplemental off-air outreach such as the station’s on-line website.

09-15-2023 5P TINY FORESTS
[TAKE PKG] {***PKG***} REPORTER INTRO: Tiny forests densely filled with native plants are gaining momentum in the US. This one, in Illinois, is only a year and a half old — and already it's thriving. PACKAGE TRACK / SOT THEY MAY BE TINY. BUT THEIR ECOLOGICAL BENEFITS ARE ENORMOUS. CLIP 9011 [Notes:00:01:12] "We've seen all kinds of bugs, butterflies, birds." TRADITIONAL FORESTS ABSORB CARBON DIOXIDE, REDUCE AIR POLLUTION AND SUPPORT WILDLIFE. TINY ONES IN URBAN AREAS OFFER EVEN GREATER POTENTIAL. [Notes:00:01:00] CLIP 9013 "Every time I visit, I'm blown away." PACKED WITH A WIDE VARIETY OF NATIVE PLANTS AND TREES, THEY CAN GROW TEN TIMES FASTER THAN CONVENTIONAL FORESTS — AND REQUIRE NO WATER OR WEEDING AFTER ONLY THREE YEARS. [Notes:00:02:04] CLIP 9005 "Some of it is just letting nature take over." THIS ONE IN CHICAGOLAND WAS PLANTED JUST A YEAR AND A HALF AGO — AS PART OF A COMMUNITY PROJECT SPEARHEADED BY CHRISTINE DIPLOMA AND SHEETAL KHEDKAR RAO. [Notes:00:12:05] CLIP 9013 "If we have urban heat islands and they need more trees and we can grow them to maturity in 20 years, then why not?" TINY FORESTS HAVE BEEN POPPING UP AROUND THE WORLD EVER SINCE JAPANESE BOTANIST AKIRA MIYAWAKI DEVELOPPED THE TREE-PLANTING METHOD IN THE 1970s. NOW THEY ARE SLOWLY APPEARING IN THE U.S. LONG-TIME FRIENDS DIPLOMA AND KHEDKAR RAO MAPPED OUT PLANS FOR THE FIRST TINY FOREST IN ILLINOIS EARLY IN THE PANDEMIC. [Notes:00:04:33] CLIP 9013 "One of the things that we saw with COVID is that outside was supposed to be the safe place to be, but there were so many people that didn't have a safe outside to be." THEY CHOSE THIS PLOT JUST SOUTH OF CHICAGO PARTLY BECAUSE IT'S IN AN AREA THAT LACKS GREENERY. NAT / PLANTING OR DIGGING PROVIDED FOOTAGE ON PLANTING DAY, IN MAY 2022, DOZENS OF COMMUNITY MEMBERS AND STUDENTS FROM A NEARBY MIDDLE SCHOOL JOINED IN. IMG_5844 [Notes:00:00:40] "I get to do something that is long term so I can always come back and see something that I have accomplished." ONE TINY FOREST, ON ITS OWN, MAY SEEM LIKE A DROP IN THE BUCKET IN THE FIGHT AGAINST CLIMATE CHANGE. BUT WHEN RESIDENTS OF ALL AGES COME TOGETHER TO TRANSFORM THEIR OWN LOCAL ENVIRONMENT, IT CREATES A RIPPLE EFFECT. CLIP 9014 [Notes:00:03:42] "You can change your community by taking a small action like this. And sometimes it's those small actions that really snowball into bigger things." BEN SCHAMISSO, SCRIPPS NEWS, MARKHAM, ILLINOIS
