FCC Public Inspection File – Quarterly Issues/Program List

Quarter 1st. Qtr. Jan – March 2020

- 1. Issues: Wind turbines, China, doctors.**

- 2. Program: That's What You Think**

- 3. Description of Program: Wind turbines not all that effective, plus they produce many hazardous materials and the blades are not bio-degradable.**
Caller 1: Larry: Wind turbines are not ecologically sound, harm many endangered bird species, and don't produce enough electricity to offset other losses of power sources. China is the real ecological threat, not the U.S.
Caller 2: Dean: Doctors are not doing their duty when it comes to the virus.
