FCC Public Inspection File – Quarterly Issues/Program List

Quarter 2: April - June 2019

1. Issues: Weather issues, flying and landing issues at local airport, local snowmelt, is it enough for the summer? How are volcanoes affecting our weather? Are we honoring God with abortion?

2. Program: That's What You Think

**3. Description of Program: Caller 1: Frank: Weather seems to be pointing to another drought year, which will promote a very bad fire season.
Caller 2: Larry: Flying in at the local airport is becoming an issue.
Local snowmelt is not going to be adequate for a good supply of water this summer. Volcanoes are possibly causing a major problem with weather patterns as they continue to send up tons of ash around the world. How do you expect God to bless America when abortion is so prevalent?**

4. Date: 6/3/19

5. Time: 9am

6: Duration: 1 hour
