**Host:** "Dangerous Dan" Orange and Mentee "Kaos" (Katrina Clugston)

**Guest(s):** Don Lane - Former Mayor of Santa Cruz

**Topic:** Eight Things You Didn't Know About Homelessness: there are a lot of people getting housed, but we have a similar # of people experiencing homelessness; 1) We are forgetting to put people first (empathize with a person experiencing homelessness); 2) Substance use and mental health are not the issue ; 3) "Musical Chairs": 89% of the homeless originally were housed in Santa Cruz County, so even if you prevented movement, our numbers would not change much; 4) It costs "so much money": living in Santa Cruz is expensive, whether you're housed or unhoused; we are re-housing roughly 500 people a year (Housing Matters has housed more than 300 people in each of the last 2 years), so rehousing is working, but the larger system of helping people remain housed is not; 5) The myth of systemic failure: homelessness is not the fault of the people responding to the crisis; 6) "Too many services" for the unhoused: there is no evidence that high levels of service for people without homes leads to a higher level of homelessness here; 7) Seen and unseen: the visible homeless are the minority - we don't see the much larger number living in their cars, or who work to remain invisible so they don't have to interact with authorities; 8) Homeless by choice? there are a small # where this is true, but the vast majority would prefer to be housed, but may not be willing to stay in shelters if they've had a bad experience in one; it's not "If you build it, they will come.", it's "If you don't build it, they will sleep outside or in their car."

Some arrive already formed, such as the Santa Clara water district; emergency prescription refills; some bills that are not voted on by both houses become 2 year bills; run down of bills submitted (no party preference presidential primary; candidate filing - expedite; voter registration' voters with disabilities; Planned Parenthood; fictitious business names; Sempervirons - seeks to ease transfer of private land to state parks; psychiatric advanced directive; Water, Parks and Wildlife committee - water resources, and (timely) flood management; Rules Committee = traffic cop, but no drama (yet); storm damage: San Lorenzo Valley particularly hard hit; bill co-sponsor strategy (both parties, regional representation); is there a "new Assembly smell" (like new car smell?): Yes! She was a costume designer, and during covid and quarantine she spent a lot of time in nature which helped spark her song writing. Believes it's important to have transparency with people. Was a huge step in her career that she was able to get by on music alone even if it wasn't a huge income. Kiki was asked about who her biggest influence, she doesn't want to be like anyone else, if she is she sounds like somebody else then she has failed. Advice for others working in music, be in it for the right reason, stick with it, even if it's tough.
