To Whom it may Concern,

I have been a big fan of Branson's Home Town Radio. Honestly this radio station was my source that kept me informed as to what was happening in this area. I consider this radio station to be a huge benefit to Branson residents and to me. Thank you for the faithful service and hours of information and entertainment this station provides on a daily basis.

I have been one of your biggest fans and yet I probably have not been vocal enough to you directly. I have told everyone I know, about this station in this area, but I'm sorry I have not really told the station directly. To be honest I have the radio on much of the day while I'm awake. I especially have enjoyed the talk format. There was so much Home Town Radio had to offer. I'd listen to Steve and Janet every morning as I got ready for work. Steve's antics kept me interested and often laughing. After work my car radio was set to 106.3 and I enjoyed Dave Ramsey's common sense financial teaching/counsel. More currently I've learned to enjoy Joe Pag's show. I love having someone who thinks through the news and addresses it from a conservative point of view. His show is lively and keeps me engaged. He helps me understand what is going on politically in a fun format. My radio at home and in my car, is set to 106.3. I listen to radio for much of each weekend too! This radio station has been my companion for many an hour. Saturday mornings I looked forward to the Master Gardeners discussing gardening in the Ozarks, I even found the crazy lawyer who was informative in his own way. The Leo Tech Guy, and the do it yourself home improvement show are all winners. Sunday mornings as I got ready for Sunday School I'd sing along with the Gospel Greats. I miss them all!

I realize most of us are not keen on change. I understand Steve has given years of service and is wanting to try something new. I wish him well. I'm eager to listen to Janet to hear her new program. I expect it will be good. I'm not sure if she wants to find a grumpy old man to fill Steve's spot... I'll wait to see what she does. What I have found in the new format with "Classic Hit's" is they are not Classical, they are older songs what have not "mellowed" with ago. Now that I am getting older I find I need more mellow sounds to enjoy a melody. I have heard it said that younger folks like more strident sounds but as you age you want the music toned down a bit. The tunes one 106.3 has been playing of late, have been harsh on my ears. They were popular tunes then I was younger so I must be "getting old"! I'm finding the songs being played with your new format are grating to my nerves. I just cannot leave 106.3 radio on anymore it

literally hurts to hear most of what is currently being played on 106.3. I miss my weekday before and after work radio, and I'm missing my weekend companion of 106.3. I may be the only one who feels this way. I don't want to be a complainer. I have found numerous times now I still have my old habit of tuning into to 106.3 only to have to turn it off again. I'm not wanting to do anything but give some feedback. I don't know that anyone will want to hear my musings or care whether I listen to your radio station or not. I just thought you might want some input from a former listener that very much misses the talk radio format. You have had an exceptionally good radio station and I miss it.

I do hope you know I'm not trying to be a grump. I may just be outside your current target audience. I am a 59 year old woman that had a good friend in "My Home Town Radio Station". I think I may be grieving a little over losing a good companion. I do wish Home Town Radio the best in the future.

Sincerely,

Dear Mr. and Mrs. Earls:

I recently received the Hometown Radio award at College of the Ozarks, and I wish to express my gratitude to you for contributing to the college and honoring students who find their calling in media. When I started at CofO, media production was not exactly what I thought I would want to do with my life, but the opportunities and challenges I experienced throughout my education made it clear to me that media production was something I wanted to aim for.

I am a Mass Communications: Audio/Radio major, and this is my graduating year at College of the Ozarks. Over my college career, I have loved spending much of my time working in video, audio, and of course, radio. I spent two and a half years working at the campus radio station, KCOZ, and I will miss it greatly. Looking to the future, I believe that God is calling me to use my media skills for work in worship ministry, whether through churches or through Christian music. Over the past year I have apprenticed at two churches (one at which I am still interning) and am excited to see what doors God opens after Graduation.

Again, thank you for providing this award, and for loving and supporting me and the many other media production majors at College of the Ozarks.

Sincerely,
Robert Keeney
