48 HOURS: "The Secret Life Of Paige Birgfeld" (9:00-10:00p) – An updated rebroadcast on the June 28, 2007 disappearance of Paige Birgfeld, twice-divorced mother of three and a resident of Grand Junction, Colorado and the subsequent double-life uncovered by investigators following her disappearance. Following her divorce, Paige became the primary caregiver to her children and was described as such a devoted mother that the Mesa County Sheriff's Department was convinced she would never have left on her own accord. As friends and family searched for her; her car was found abandoned and on fire in an empty lot. Her first husband, Ron Beigler became the focus of the investigation, when it was learned that the two had been on a date the day of her disappearance, but Paige's friends and family were far more suspicious of the children's father, Rob Dixon, as she had a troubled history with him. After a thorough inquiry, both men had solid alibis. As the investigation continued, it was discovered that Paige was also known as Carrie, a high-priced escort. Investigators then began to believe Paige was murdered by one of her clients. Using her cell phone records, police began carefully looking at all of her clients and eventually honed in on one man, Lester Ralph Jones, an ex-con who had served time for kidnapping and assault. Authorities searched his home, but will not discuss what evidence they uncovered. Search dogs led investigators from Paige's car to an RV shop where Jones worked as a mechanic. Although authorities have zeroed in on Lester Ralph Jones, no charges have been filed and he denies any involvement. The lack of a body, coupled with Paige's secret life, have made it that much harder to prove anything beyond a reasonable doubt. Her friends and family continue their search. On-screen text graphic: Paige Birgfeld's parents sought custody of her children, but the courts ruled they would remain with their father, Rob Dixon. The investigation is continuing into the disappearance of Paige Birgfeld. 09/05/15 UPDATE: In 2007, five years after Paige went missing there was a break in the case: a hiker came across human remains which police eventually identified as Paige. Although the evidence is still circumstantial, Chief Deputy DA Dan Rubenstein, who is now heading the investigation, believes he has enough to make a case against Lester Ralph Jones. In 2014, Lester Ralph Jones was arrested and charged with her murder and kidnapping. Now, prosecutors must prove he killed her. On-screen text graphic for the 09/05/15 rebroadcast: Paige's three children are living with their father on the east coast. Lester Ralph Jones' trial is expected to begin in early 2016. **07/01/17 Epilogue: In July 2016, nine years after Paige Birgfeld went missing, Lester Ralph Jones went on trial. After a six-week trial, the jury was deadlocked. A mistrial was declared. A second trial occurred just after Christmas 2016, and the jury reached a verdict: Jones was convicted of kidnapping and murder and sentenced to life in prison without parole.** (Original Correspondent: Harold Dow; Correspondent for the 09/05/15 and 07/01/17 Updated Rebroadcasts: Erin Moriarty – Original Producers: Loen Kelley, Sara Ely Hulse, Ira Sutow; Producers for the 09/05/15 Updated Rebroadcast: Tom Seligson, Sara Ely Hulse, Lindsey Gutterman; producers for the 07/01/17 Updated Rebroadcast: Tom Seligson, Sara Ely Hulse, Lindsey Schwartz) (OAD: 06/10/08 as 48 HOURS VANISHED: "The Secret Life Of Paige Birgfeld"; 1st Rebroadcast: 02/28/09 as a 48 HOURS MYSTERY, which included a brief updated text graphic at the conclusion. 2nd Rebroadcast: 03/27/10 as 48 HOURS MYSTERY: "The Secret Life Of Paige Birgfeld"; 3rd Rebroadcast: 09/05/15)

07/01/17

48 HOURS PRESENTS: “Crime and Punishment” (10:00 – 11:00p) - a report on what happens to a family after a murder rips them apart; and the nearly 25-year quest by Tippy Dhaliwal and Jeanette Marine, two California women, who are determined to deny their step-father Dennis Ott’s parole for the murder of their mother Phonthip Ott. Each time Ott comes up for parole, the sisters are there to fight for their mother and vow to never give up. The two women are steadfast in the belief that their step-father Dennis Ott, murdered their mother. In 1992, Phonthip Ott’s body was found by a fisherman in the Sacramento River in Sacramento, California. The police investigation dragged on for nearly two years. Eventually, Ott was charged with the murder. He was tried, convicted and sentenced to life in prison with the possibility of parole. Ott has maintained his innocence, which could be a sticking point in the parole hearings. Admitting guilt or showing remorse isn’t mandated, but legal experts believe it goes a long way with those deciding whether prisoners are paroled. The daughters realize that their fight for justice did not end with a guilty verdict; they must face Ott year-after-year to keep him in prison. Tippy Dhaliwal has been diagnosed with cancer, but she and Jeanette vow never to give up. At this hearing, Ott is again denied parole and must remain in prison. He will be eligible for another hearing in two-and-a-half years. Original On-screen text graphic: Dennis Ott’s parole hearing has been moved up to October 2017. Tippy’s health is better and both she and Jeanette plan to continue fighting Dennis Ott’s release. **On-screen text graphic for the 07/01/17 rebroadcast:** On May 17, 2017, Dennis Ott had another parole hearing. It was denied. Ott’s next parole hearing will be in three years. Tippy and Jeannette will continue to fight Ott’s release. Interviewed: Jeanette Marine and Tippy Dhaliwal (daughters); Dennis Ott (step-father); Paul Parker (Sutter County Sheriff); Larry Lewis (Jeanette and Tippy’s grandfather); Vicky Van Atta (Sutter County District Attorney’s Investigator); Frank Hartzell (former reporter, Appeal Democrat); Marin Atkinson (Ott’s mother); Jennifer Shaffer (executive director, California Board of Parole Hearings); Amanda Hopper (Sutter County District Attorney) (C: Tracy Smith - Marcelena Spencer) (OAD: 01/07/17 as 48 HOURS: “Crime and Punishment”)

07/08/17

48 HOURS: “The Soldier’s Wife” - an interview with, and a report about Skylar Nemetz, a former Army infantryman who admits that he shot his wife Danielle, in their Lakewood, Washington home in October of 2014, after returning home from a 3-week deployment. He maintains it was an accident and that he did not think the gun was loaded. Eighteen months after the shooting, Skyler Nemetz is on trial, awaiting a jury’s verdict. The prosecution maintains a jealous Nemetz shot Danielle in the back of the head while she was seated at a desk looking at her computer. She died instantly. Skyler Nemetz’s mother, Danette Heller, believes in her son, and he and his family see the incident as an accident. They have hired a top-notch legal team to defend Skyler. There is no dispute that Nemetz caused Danielle’s death; the question is if it was murder or manslaughter. At trial, Skyler is portrayed as a jealous, angry, and controlling husband. The defense called Skyler to testify, and called for the jury to find him guilty of manslaughter, not murder. The case goes to the jury, who deliberated for seven days: the verdict: manslaughter in the first degree. Four jurors agreed to speak to Erin Moriarty about their verdict, and even though they felt Skyler was coached, rehearsed and theatrical, they could not see that the prosecution proved its case. Three weeks later, Skyler received the maximum sentence. Original On-screen text graphic: Skylar Nemetz is appealing the length of his sentence. Skylar Nemetz will be eligible for parole in 12 years. He will be 33 years old. **On-screen text graphic for the 07/08/17 rebroadcast:** Skylar Nemetz is appealing his thirteen and a half year sentence. His earliest possible release will be in 2028. Skylar will be thirty-four years old. 48 HOURS: "Breaking Point" (9:00 – 10:00p) – the first hour of back-to-back editions dealing with the investigation into the 2012 death of 29-year-old lawyer Ryan Poston, at the hands of his on-again/off-again girlfriend Shayna Hubers, who admits to killing him, but who claims it was self-defense. At the time of his death, Ryan Poston was a young successful attorney with a bright future ahead of him. Shayna Hubers' family and friends also thought she would be successful in all she did. The couple met on Facebook and dated on and off for 18 months. Ryan was busy with his career and not ready to settle down, but found it hard to let go of Shayna. According to Ryan's friends, Shayna's behavior became obsessive. He told her he was not seeing her on the weekend of October 12, 2012, but did not tell her that he had a date with another woman. He did not make the date: a 911 call to police was made by Shayna, telling police she had shot her boyfriend in self-defense. Police were suspicious from the start. She had shot him six times. Shayna also talked endlessly during the 3-hour interrogation video and then, when alone, she danced and sang songs. Friends said Ryan was not an abuser. She was charged with murder. Investigation revealed that, after the shooting, she waited 10 minutes to call 911. She also texted endlessly; there were thousands of text messages to Ryan, most of which he did not answer. Yet, because of Kentucky laws, he could not get a restraining order. Prosecutors believe that Shayna could not deal with Ryan's rejection and that her rage sent her over the edge. She believed it was over for good and would have none of it. Now it is 2014, and she has been jailed since 2012 awaiting trial. Interviewed: friends of Ryan Poston's: Matt Herron and Allie Wagner; mentor, attorney Ken Hawley and his assistant Lori Zimmerman; Shayna's friend, Sarah Robinson; Ryan's neighbor, Nikki Carnes; Lieutenant Dave Fornash; Highland Heights, Kentucky Police Chief Bill Birkenhaur; Prosecutor Michelle Snodgrass; Shayna's mother, Sharon Hubers ; and neighbor Doris West. 48 HOURS: "Obsessed" (10:00 – 11:00p) - the second hour of back-to-back editions dealing with the investigation into the 2012 death of 29-year-old lawyer Ryan Poston, at the hands of his on-again/off-again girlfriend Shayna Hubers, who admits to killing him, but who claims it was self-defense. In 2014, two and a half years after the crime, the trial is set to begin. Central to the trial is what Shayna told police. Prosecutors believe the only person in danger that night was Ryan Poston, and that Shayna acted out of hate. Ryan did not want to see Shayna anymore. There were no signs of a violent struggle, as Shayna had suggested happening. Shayna's mother, Sharon Hubers, cannot comprehend what is happening to her daughter. The defense must convince the jury that Ryan was the aggressor. A verdict is reached: guilty of murder. The court re-convenes for sentencing. Shayna Hubers, who has been diagnosed as a narcissist, addresses the court, but never apologizes to Ryan's family. Shayna Hubers is sentenced to 40 years. **07/15/17 Epilogue: One year later, a surprising development: a new trial is ordered. The verdict was overturned due to a problem with the jury. Shayna will be tried all over again, in about a year. Ryan's family is ready.** Original On-screen text graphic: Shayna Hubers' appeals attorney is asking for a new trial. A convicted felon served on the jury and should have been disqualified. **07/15/17 On-screen text graphic:** Shayna Hubers remains in jail without bond. Interviewed: friends of Ryan Poston's: Matt Herron and Allie Wagner; mentor, attorney Ken Hawley; Highland Heights, Kentucky Police Chief Bill Birkenhaur; Prosecutor Michelle Snodgrass; Shayna's mother, Sharon Hubers; and Ryan's cousin Carissa Carlisle. 07/22/17 **48 HOURS: "The Mortician, The Murder, The Movie"** – an investigation into the 1996 death of Marjorie Nugent, a wealthy Texas widow, who was shot dead by her constant companion, Bernie Tiede, a mortician 40 years her junior; the film the case inspired; and the latest twist in the case, which has thrust the story back into the headlines. Bernie Tiede arrived in Carthage, Texas in 1985 and became a popular figure around town, eventually becoming the constant companion of Marjorie Nugent following the death of her husband. In 1996 Tiede shot Nugent and hid her body in a freezer, where she remained for nine months. All along, Tiede maintained she was alive, but when police searched her home, he confessed to the crime and was sentenced to prison. The bizarre story captured the attention of filmmaker Richard Linklater, who made it into the 2011 film, "Bernie". The film caught the attention of lawyer Jodi Cole, who raised allegations that Tiede was abused as a child and by Nugent, leading him murder Nugent. Marjorie Nugent's family maintains Tiede is conning everyone, and that he killed Marjorie Nugent to hide the fact that he had squandered the widow's money. Original On-screen text graphic: Bernie Tiede will be eligible for parole in 2029. He will be seventy years old. His attorneys are appealing his sentence. **On-screen text graphic for the 07/22/17 rebroadcast:** Bernie Tiede is appealing his sentence. Tiede will be eligible for parole in 2029. 07/29/17 **48 HOURS: "Death on the Hudson" (9:00 – 10:00p)** – an updated rebroadcast on the case against Angelika Graswald, who has been charged with killing her fiancé Vincent Viafore, during a kayaking trip on the Hudson River in April 2015. New information and evidence may prove there was no murder. Ten days after Viafore's death, Graswald was questioned by police for approximately 11 hours, then arrested for murder in the second degree. Investigators maintain Graswald killed Viafore for financial gain after their relationship soured. Her defense team argues his death was a boating accident. The case is examined through interviews with legal experts, friends of the couple and an examination of key evidence in the case. **07/29/17 Epilogue: After years of proclaiming her innocence, Graswald pleaded guilty to criminally negligent homicide. The Orange County District Attorney explained the decision to downgrade the charges, saying it would be difficult to prove intent, even though she did admit to pulling the plug from the kayak. Pulling the plug would only cause death when combined with a number of other factors. This plea spares her a possible twenty-five years to life prison term; with time served, she could be on parole by the end of the year.** Original On-screen text graphic: Angelika has been in jail for more than four months. Her trial is expected in Spring 2016. 48 HOURS

08/05/17

48 HOURS: "Death By Text" – an updated rebroadcast about the death of Conrad Roy III, and the groundbreaking case against Michelle Carter, who prosecutors say influenced Roy, via text messages, to kill himself. On July 12, 2014, Conrad Roy died of carbon monoxide poisoning after sitting in his truck with a gas-powered water pump running in the backseat. Prosecutors say Roy was driven to kill himself through hundreds of incessant messages from Carter, who was more than 30 minutes away at the time he died. Carter was later charged with involuntary manslaughter. Her defense team maintains Roy decided to kill himself on his own. As seen through his own videos, Conrad Roy talked about his own struggles with social anxiety, depression and thoughts of suicide. His mother Lynn Roy, also talks about the death of her son and the pain she lives with. Though they lived an hour apart in Massachusetts, the couple communicated almost exclusively via texts, online and by phone. The prosecution maintained Carter could have done something to stop Roy. The heart of the case is the question of whether Carter's texts and messages pushed Roy to take his life, or would he have done it anyway. Prosecutors argued that Carter played on Roy's mental health and her actions were reckless; she knew what she was doing and just wanted attention. The defense maintains Carter had her own psychological problems and that she was also involuntarily intoxicated by the antidepressant drug Celexa: she was enmeshed in the delusion that it was a good thing to help him die. The prosecution hoped the judge paid attention to the text Carter sent to her friend a week after his death, in which she admitted she could possibly go to jail. After three days of deliberation, the judge rendered his verdict, completely rejecting Carter's defense and finding her guilty. At sentencing Michelle Carter could receive twenty years behind bars. The Roy family knows that words have power, and that they can forever change lives. **Update for the 08/05/17 updated rebroadcast:** Nearly seven weeks after being convicted, Michelle Carter, arrives for sentencing. The prosecution asked that Carter serve 7-12 years in prison. Her attorney requests probation. Judge Lawrence Moniz sentences Michelle Carter to fifteen months behind bars – a sentence that does not please the defense, who will appeal the conviction. Her attorneys request to stay the jail sentence. The judge grants the stay, meaning Michelle will be out on probation until the appeal makes its way through the Massachusetts court system. Neither Michelle nor her family, have reached out to the Roy family. On-screen text graphic for the 08/05/17 updated rebroadcast: Lynn Roy has filed a 4.2 million wrongful death suit against Michelle Carter. The goal is to establish a memorial for Conrad. Interviewed: Lynn Roy (mother); Camdyn Roy and Morgan Roy (sisters); Aryanna Taylor (friend of Conrad Roy); Ed McFarland (Carter's softball coach); Bob McGovern (Boston Herald legal columnist); Harold Koplewicz (child and adolescent psychiatrist). 08/12/17

48 HOURS: "Eleven Hundred Miles to Murder" - an investigation into the 2015 murder of Dr. Teresa Sievers, a Bonita Springs, Florida doctor murdered inside her home and the investigation that led to two suspects eleven hundred miles away in Missouri. Police initially suspected her husband Mark Sievers, but he had an airtight alibi. A tip led police on a 1,000 mile trip that took the case in an unexpected direction. Mark Sievers believed there might be a tie to other suspicious deaths of doctors around the country. Eventually, Mark Sievers became a person of interest. Two months after the murder, police arrested two men in Missouri and charged them with Dr. Sievers murder: Curtis Wayne Wright (aka Wayne Wright), and Jimmy Ray Rogers (aka "The Hammer") traveled from Missouri to Florida and murdered Dr. Sievers. What would be the motive? Police learned that Wayne Wright was a friend of Mark Sievers; that Mark had taken out five life insurance policies on Dr. Sievers; that the two had an open marriage, money problems and other serious issues. Eight months after the murder, facing the death penalty, Wayne Wright admitted to killing Dr. Sievers and accused Mark Sievers of being the mastermind behind the crime. Mark Sievers was then charged with the murder of his wife. Mark Sievers and Jimmy "The Hammer" Rogers have both pleaded not guilty and will be tried together. On-screen text graphic: Mark Sievers and Wayne Wright are being held in different jails. Teresa's mother is now guardian of the Sievers children. No trial date has been set. **On-screen text graphic for the 08/12/17 rebroadcast:** Teresa Sievers' brother filed a wrongful death suit against Mark Sievers. 48 HOURS (continued)

08/19/17 **48 HOURS: "Last Chance for Freedom" (8:00 – 9:00p)** – an updated followup to "Reasonable Doubt" (OAD: 11/01/99), and its retitled rebroadcast, which included an update, "Impossible Mission" (OAD: 07/10/00). This followup continues the report on Crosley Green, who in 1990, despite his claims of innocence, was convicted of the murder of Charles "Chip" Flynn in a Titusville, Florida orange grove and sentenced to death. Green has spent the last 26 years, with help from lawyers and private investigators, trying to prove his innocence. This report reveals new evidence that suggests Crosley Green is innocent. At the time of the murder, Green was a small-time drug dealer who said he was two miles away when Flynn was killed. Green was arrested after Flynn's former girlfriend, Kim Hallock, told police that she and Flynn had been carjacked by a black man with a gun and driven to a remote orange grove. Flynn was killed, but Hallock escaped. She identified Green from a picture photo lineup. Green's state appeals -- nine of them -- are now exhausted, but his current attorneys Keith Harrison, Bob Rhoad and Jeane Thomas, along with an original private investigator Joe Moura (now a 48 HOURS consultant) have one last hope: federal court. They believe they have enough evidence that the conviction is part of a distinct pattern and practice of government misconduct in Brevard County. Three other men, Bill Dillion, Juan Ramos, and Wilton Dedge have had their convictions overturned; two of them were prosecuted by Christopher White. Green's attorneys believe that what makes this case different is a mountain of evidence that demonstrates Crosley Green is actually innocent. At the heart of their case are notes from Assistant State's Attorney Christopher White's meeting with officers Mark Rixey and Diane Clarke (who speak to 48 HOURS for the first time). Green's lawyer says that their notes say they think the girl (former girlfriend Kim Hallock) killed Flynn. White is asked about the possibility that Flynn's death was a result of something other than intentional murder. He says he believes the judicial system worked. **Update for the 08/19/17 updated followup:** This past June, the 11th Circuit Federal Court of Appeals said it will allow Green's attorneys to argue in person why his case should not have been dismissed. If the panel agrees, Green will finally get his case heard in federal court. **On-screen text graphic:** The Florida Attorney General's Office is fighting to uphold Crosley Green's conviction. They say Green failed to meet a filing deadline for his appeal. **On-screen text graphic for the 08/19/17 updated followup:** Crosley Green's attorneys are expected to make their appeal in court in November 2017. Interviewed: Crosley Green; Keith Harrison, Bob Rhoad, Jeane Thomas (Green's attorneys); Tim Curtis (bodyshop owner/friend of Chip Flynn); Joe Moura (private investigator/48 HOURS Consultant); Sheila Green (sister); Lisa DiMeo (criminologist); Mark Rixey and Diane Clarke (Brevard County officers); Christopher White (prosecutor); Bill Dillion (falsely convicted); Mike Pirolo (Dillion attorney); Wilton Dedge (falsely convicted). 08/19/17 **48 HOURS PRESENTS: "Princess Diana: Her Life / Her Death / The Truth (9:00 – 11:00p)** - a two-hour report examining the public and private life of Diana, Princess of Wales, who died on August 31, 1997 in a car crash with her boyfriend, Dodi Al Fayed, in the Alma tunnel in Paris. Through the words of those who knew her and admired her, through her own words, and through the archives of CBS News, this program examines the impact Princess Diana had on Great Britain, the monarchy and the world. From her 1981 wedding to Prince Charles until her tragic death, Diana was a complex, unpredictable woman who captured the hearts of the public -- during her royal marriage, her reemergence into public life following the royal divorce, her death and beyond. Her death was just as controversial as her life, as described through four independent investigations in two separate countries. The various theories are examined about what really happened the night she was killed in the car crash. The conclusion of the broadcast updates viewers on how her sons, Prince William and Prince Harry, are honoring their mother's good works, which helped to bring the British monarchy into the modern age. Interviewed: Lana Marks (Diana's friend); Patrick Jephson (Diana's private secretary); Ken Wharfe (Diana's Scotland Yard Royal Bodyguard); Sally Bedell Smith (author, *Diana in Search of Herself*); Ingrid Seward (editor, *Majesty Magazine*); Richard Kay (Diana's friend, Royal Commentator, "Daily Mail"); Peter York (writer); Mary Robertson (Diana's friend and employer); David Starkey (Royal Historian, CBS Consultant); Wayne Sleep (dancer); Trevor Rees-Jones and Kez Wingfield (Al Fayed Bodyguards); Roya Nikkahah (Royal Correspondent, "The Sunday Times"); Christina Lamb (Chief Correspondent, "The Sunday Times"); Tim Gunn (fashion consultant); Dai Davies (fmr. CBS NEWS SPECIAL / SPECIAL REPORTS

- 08/11/17 **CBS NEWS SPECIAL: "Son of Sam" / The Killer Speaks** - from 1976 to 1977, a serial killer terrorized New York City - killing six people and wounding seven others in seemingly random shootings. Originally dubbed the ".44 Caliber Killer" by New York newspapers, the victims were often couples in parked cars, and the women usually had shoulder-length, dark brown hair. As the victim count rose, the only substantial clues police had were two letters, one sent to the task force looking for the killer, and the other to newspaper columnist Jimmy Breslin, in which the killer identified himself as the "Son of Sam". Diligent police work led to the capture of David Berkowitz, a 24-year-old postal worker from Yonkers, New York for the crimes. Now, in his first major television interview in a decade and his only interview about the 40th anniversary of his arrest, David Berkowitz speaks from Shawangunk Correctional Facility in Wallkill, New York. He tells Maurice DuBois (of WCBS-TV) about what led him to kill, his life before he became a murderer, and his life in prison today. Also included: interviews with shooting victims Carl Denaro and Robert Violante; Sam Roberts (former editor, New York Daily News); Capt. Joseph Borelli ("Son of Sam" task force); Bill Clarke (NYPD Homicide Detective); Dave Gorman (Berkowitz' neighbor). 48 HOURS PRESENTS: LIVE TO TELL: "The Railroad Killer" - A report on the August 29, 1997 attack on two University of Kentucky students as they walked along the railroad tracks in Lexington, Kentucky. Chris Maier was killed by his attacker who then proceeded to stab, beat, and rape Holly Dunn, who miraculously survived her injuries. Fourteen months after Holly's attack, Dr. Claudia Benton was murdered inside her Houston, Texas area home, located near railroad tracks. Lexington Detective Craig Sorrell received a call from ViCAP, a national crime registry database, linking the crimes. Through fingerprint analysis, they identified Rafael Resendez-Ramirez as the suspect. After his arrest, he was ultimately identified as Angel Maturino Resendiz. His trial started in May of 2000 in Houston; he was found guilty of capital murder. Holly testified in the penalty phase of the trial and identified Resendiz in court. The jury decided he was a future danger to society and the judge sentenced him to death. He was executed in June of 2006. Holly chose not to attend the execution. She has dedicated her life to helping other victims and founded Holly's House, a child and adult advocacy center in Evansville, Indiana. Onscreen graphics: By the time of his execution, Resendiz was linked to at least fifteen murders in six states. Authorities learned he killed a teenage couple in Florida, just months before he attacked Chris and Holly. Onscreen text graphic for the 08/03/13 rebroadcast: By the time of his execution, Resendez was linked to at least fifteen murders in six states. In July 2012, Holly and her husband welcomed a baby boy. 48 HOURS: "Stalking: Out of the Shadows" (9:00-10:00p) and "Stalked" (10:00-11:00p) - a two-part investigation into stalking -- the victims, the stalkers, the dangers and long-term psychological damage this torment causes; and the efforts by actress Pauley Perrette to change ineffective laws that do not protect the victims. Also included: a report on the stalking death of singer Christina Grimmie, who was shot dead by an obsessed fan she didn't even know was stalking her online; and an interview with Justin Massler -- a serial stalker with a diagnosed mental illness, who was arrested for stalking Ivanka Trump.

(1) Stalking: Out of the Shadows (9:00-10:00p) - the death of Christina Grimmie is detailed. She was shot dead by an obsessed fan she did not know was stalking her who showed up at a concert armed with two handguns and pulled the trigger, killing Grimmie and himself. The case was similar to the 1989 death of actress Rebecca Schaeffer, in that the stalker fantasizes that he is in a relationship with his victim and wants a permanent bond. Stalking is a silent crime with many victims afraid to speak out, fearing they will enrage their stalker. Also included: actress Pauley Perrette, a stalking victim herself, talks about her efforts to change stalking laws and the bonds she has formed with other victims. Perrette does not think her stalker will ever leave her alone. (OAD: 02/25/17)

(2) Stalked (10:00-11:00p) - some stalkers become obsessed with people they do not know. Leonora Claire has been stalked by a man she met only once, who read about her in a magazine and came to an art exhibit she curated. Serial stalker Justin Massler has been obsessed with her for nearly six years and she has lived in constant fear, believing he could harm her at any time. Massler, who has been diagnosed with a mental illness, will not leave her alone. In 2010, he was arrested for stalking Ivanka Trump, and previously targeted the Kardashian family. Now, the secret service is interested in him because of the Trump connection. Included is an interview with Massler, whom anchor Erin Moriarty tracked down and conducted an interview via the internet. His mother says he is living near her in Nevada and is getting medication. He has not contacted Leonora Claire in four months. **On-screen text graphic:** Christina Grimmie's new single "Invisible" was just released by her family, ZXL Music and Republic Records. Proceeds will endow a memorial fund in her name. Learn more about stalking, what you can do to prevent it and what you can do if you're being stalked. Go to 48Hours.com. 09/16/17

48 HOURS: "Hunted" - an investigation into the case of a serial rapist, who preyed on women young and old, in multiple states and over a period of years -- and the search to stop him. The rapist worked with military precision, tracking the women's schedules, photographing them during the attacks and then forcing the women to shower or bathe as a way to clear out any evidence. Investigators from two Colorado police departments (Golden and Westminster) and the FBI pieced together the assailant's trail through smart policing, collaboration and luck. In 2011, a Golden, Colorado case, led to a similar case in nearby Westminster, Colorado. In comparing details of the attacks, detectives realized they were on the trail of a serial rapist. That information and another nearby case led them to Marc O'Leary, a 32-year-old Army veteran, who was eventually arrested. O'Leary ultimately pled guilty to sexual assault charges and then agreed to talk about the crimes. This led to a rare glimpse into the mind of a serial rapist, something detectives could never have imagined. Also featured is the story of a young Washington woman who the detectives discovered had been raped by O'Leary. Initially, the Lynnwood, Washington police did not believe her story. After the truth came out, the police force received training regarding this mistake. **On-screen text graphic:** Stacy Galbraith is now an agent for the Colorado Bureau of Investigation. Edna Hendershot was promoted to the rank of sergeant with the Westminster Police Department. Galbraith and Hendershot both stay in contact with the women Marc O'Leary attacked. Interviewed: Mary (rape victim, not her real name); Stacy Galbraith (Golden CO police detective); Edna Hendershot (Westminster, CO police detective); Jonny Grusing (FBI Special Agent); Bob Weiner (Deputy Jefferson County District Attorney); Amy Wozny (O'Leary's former girlfriend); Julie Pech (potential victim); Rodney Cohnheim (Lynnwood, WA Police Department Commander). 09/23/17

48 HOURS: SOLVE THIS CASE: "Who Killed Kay Wenal" - an investigation into the unsolved murder of Kay Wenal, who was found murdered inside her Georgia home in 2008. The case has been difficult to solve because there were no fingerprints, no evidence of a break-in and the killer took the weapon with him. Kay did not seem to have any enemies and her husband had a solid alibi. The only clues in the case are an expletive-filled cut-and-paste note sent to a newspaper and a police sketch of a suspect seen the day before and the day of the murder by a neighbor. Investigators are asking the public-at-large to help solve the crime. Gwinnett County Police Sergeant John Richter and Lieutenant Steven Shaw, the current detectives assigned to the case, and investigators hired by Hal Wenal -- John Inosigna, Ned Timmons, a retired FBI agent and his ex-wife, investigator Kathleen Timmons, and retired Gwinnett County Police Lieutenant Charlie Bishop discuss the case --including their theories. Former FBI profiler Mary Ellen O'Toole discusses her opinions regarding the note sent to the Atlanta Journal-Constitution. The hope is that exposing critical evidence to a nationwide audience on television, online and on social media platforms will help to solve this case. Also interviewed: Pam Sleeper (Kay Wenal's sister); David Hughes (contractor/business associate). **On-screen text graphic:** Anyone with information is asked to contact: Gwinnett County Criminal Investigation Division anonymous tip line at 770-513-5390. Simpson, the infamous and landmark trial for the murder of Nicole Brown Simpson and Ron Goldman, the controversy that surrounded it, the impact it had on race relations, how the verdict was more than just about a man on trial -- including the current and recent uproar over race, patriotism and free speech in America. Also included is the role of domestic violence in the murder trial and how the case impacted the careers of those involved. Interviewed: Fred Goldman (father of Ron Goldman); Tanya Brown (sister of Nicole Brown Simpson); Joe Bell (Simpson's childhood friend); Harry Edwards (Prof. Emeritus, UC Berkeley); Ron Shipp (former LAPD Officer/Simpson friend); Jim Newton (former Los Angeles Times reporter); Sylvester Monroe (writer); Lili Anolik (Vanity Fair contributing editor); Kato Kaelin (infamous houseguest); members of Simpson's defense team: Carl Douglas, F. 48 HOURS: “The Widow on Solway Road” (10:00-11:00p) – an investigation into the murder case against Raynella Leath for the death of her second husband, David Leath, who was found shot dead in his marital bed, the trial, and the mysterious death of the widow’s first husband, Ed Dossett, originally classified as an agricultural accident. Raynella and Ed Dossett were a power couple in Knoxville, Tennessee, where Dossett was the Knox County District Attorney General. Tragedy befell them, when Ed was diagnosed with terminal cancer; he then died in a freak accident on the family farm. Six months later, Raynella married David Leath, the local barber. After Leath’s death, the wheels of justice moved slowly, and Leath’s daughter, Cindy Wilkerson, filed a civil suit against Raynella. Prosecutors took notice and interest was revived in Dossett’s death. One theory was that Dossett’s unusual death was more about insurance money than cancer. His medical records were reviewed and the cause of death was ruled to be a morphine overdose. In 2009, Raynella went on trial for David Leath’s death but the jury deadlocked. In the second trial, she was convicted of first degree murder and sentenced to life in prison. After six years, the conviction was tossed out, because the judge was revealed to have been impaired by drug addiction. In 2017, fourteen years after Leath’s death, a third trial begins, but before the jury has a chance to deliberate, Judge Paul Summers (soon to be retiring), grants an acquittal (not guilty), dismissing the case; saying that prosecution had not met its case. Under Tennessee law, there is no appeal. Prosecutors are stunned. Jurors believe that, had they deliberated, they would have convicted her. Information also came to light about her trying to murder another man, Steve Walker, who had found out that his wife had given birth to Ed Dossett’s biological child. Raynella Leath is a free woman. **On-screen text graphic:** Prosecutors intend to file a petition to exhume the body of Raynella’s first husband, Ed Dossett, to gather more evidence. They will decide whether to review charges against her for his death. Raynella has moved back to the farm outside Knoxville on Solway Road. Interviewed: Diane Fanning (author); Cindy Wilderson (Leath’s daughter); Beth Roberts (Leath’s cousin); Steve Crump (prosecutor); Rebecca LeGrand and Josh Hedrick (defense attorneys); Dr. Greg Davis (Kentucky state medical examiner/defense consulting doctor); Steve Walker (intended victim); Paul Summers (trial judge, now retired); Michael Persicano, Jesse Caps, William McMichael (jurors) (C: Erin Moriarty – P: Josh Gaynor, Lisa Freed)

“Protecting the Sacred: Water, the Environment & Climate Change” – an interfaith special looking at how communities are responding to one of the greatest threats of our time. Featured are: (1) Dr. Christiana Zenner Peppard, associate professor of theology, science and ethics at Fordham University in New York, who discusses how water as a vital and life-giving resource is also one of the ways people feel the effects of climate change and what the implications are for individuals and society in the long term. (2) Last year, 10,000 Native American and non-native demonstrators took a stand against the construction of the Dakota Access Pipeline near Standing Rock Sioux Reservation in North Dakota. (3) Dr. Katharine Hayhoe, climate scientist and professor at Texas Tech University, speaks to the negative impact that climate change is having on the planet and how there is a narrow window of opportunity to mitigate further damage. (4) In Lancaster, PA, a grassroots coalition of people of faith and no particular faith formed “Lancaster Against Pipelines” three years ago to oppose the construction of a fossil fuel pipeline in the area. The Adorers of the Blood of Christ, a Catholic order of nuns, joined the resistance last year and recently filed a lawsuit against the Federal Energy Regulatory Commission (FERC) for authorizing the construction and operation of the Atlantic Sunrise Pipeline. Dear Vance:

On behalf of the Board of Directors of Ronald McDonald House Charities, our staff and families, I want to thank you for your generous contribution of six hundred nineteen dollars for our Ronald McDonald House from the proceeds of the KOAM-TV photo booth at the Tarzan Zerbini Circus.

Please know that your donation contributes to providing comfort and care to our families of the Four State Area. Ronald McDonald House Charities helps as many children and families as possible in our Four State area by supporting our Ronald McDonald House and other programs that help children reach their fullest potential.

Since registering our first guest on August 20, 1998, our 'home-away-from-home' has served over 2,900 families from 37 states and two foreign countries, whose loved ones were being treated at Freeman Hospitals or Mercy Hospital Joplin.

In the Words of Penny Schafer...

I can't say enough about how wonderful it is to have Ronald McDonald House. The staff & volunteers made all of us feel as we were family I felt more at ease when I couldn't be there for my daughter. It helped us financially, emotionally and our health stayed good because we had healthy food to eat. Ronald McDonald House helped us from baby to nanny, poppy, sister, mother, and father. Ronald McDonald Houses are so needed, I can't express how much they do for families.

Your donation truly helps keep families together when it matters most. Thank You.

Sincerely,

Annette C. Thurston
Executive Director

Our daughter Alexa was born two months early due to complications from my pregnancy. When she was born she only weighed 2.5 pounds. We soon found out that our daughter would be okay, but that she would have to stay in the NICU for two months... After a few days, we decided to stay at the RMH for the rest of Alexa's time in the hospital. We didn't realize what we were missing out on before! We soon found that we could spend much more time at the hospital for several reasons. One, we didn't have the commute to the hospital anymore which meant we could be there as often as we liked. Also, we were amazed at all the volunteer service that was given at the house. We hardly had to worry about cooking, as volunteers almost daily came and fixed meals for us. But, probably the best part of the house was the camaraderie and love we felt there from the volunteers, and other families like us. We made friends with other families staying there that also had children in the NICU. After nearly two months and countless visits to the hospital, we were finally able to take Alexa home with us. By this point she almost weighed five pounds. Although we were very excited to take our little girl home, we were sad to leave our new friends at the house behind.

The ratification of the 14th and 15th Amendments to the conclusion in 1866 and 1867 made law the freedom and enfranchisement of the Black-American. Upon the conclusion of the Civil War in April 1865, there were still a large portion of the Black-American population still kept in the bondage of slavery despite attempts by the Radical Republican government to free all those still held. It would take several years of political and military initiatives to truly bring forth the physical nature of freedom to those still held in the confines of slavery. During the years immediately following the end of the Civil War many Black-Americans relished in their new glory of freedom and sovereignty. This was a time of great rejoice and accomplishment, and these new freedoms were honored and celebrated by the growing Black-American community everywhere. It was on or around the day that each individual state gained emancipation from the federal government that was deemed the day of celebration upon the state's Black-American community. August 4 is the day set aside for celebrating the emancipation of the American slave in Joplin, MO and other neighboring towns as Neosho and Springfield, MO. Culture, Arts, Family Event, History	E. Station involvement in community	9.2.17	8:00am-5:00pm		<p>The station hosted its free photo booth during the Little Balkans Days Festival held in Pittsburg, KS. Every geographic region in Kansas is distinctive in some way. Due to its mineral resources, settlement patterns, and ethnic diversity, perhaps no region of the state is more distinctive than the southeast corner. From the 1880s through the first two decades of the twentieth century the inhabitants of southeast Kansas mined almost one-third of the nation's bituminous coal. The coal powered an extensive system of railroads in the region and was used to heat homes and businesses. Southeast Kansas coal, and later natural gas, also fired the kilns that processed great quantities of lead and zinc ore extracted from the tri-state mining region of Kansas, Missouri, and Oklahoma. Iron foundries, cement plants, tile and pottery manufacturers, glass pane factories, lead and zinc sheet mills, and brick plants made southeast Kansas the most industrialized region of the state. The establishment of the Little Balkans Festival Association in September 1984 helped to restore the image of the region. The Association's purpose was to educate the public about the origin and development of the term Little Balkans and to plan and conduct a regional exposition known as the Little Balkans Days Festival. The Festival has been held annually on Labor Day weekend since 1985 to pay homage to the region's history, ethnic diversity, and community spirit.</p>

The station began airing PSA's inviting the public to the event. Monarch Formal's mission is dedicated to establishing positive memories during important occasions in one's life. By receiving new, gently used formal's, accessories and donated services, Monarch Formal's make certain that individuals don't miss out on important life events because they don't have the proper attire. The event is a major fundraiser for Monarch Formal's. In 1991, Founder Tyleen Caffrey entered the foster care system just a few short weeks before her junior prom. With no previous resources, no prom dress, and no financial means to provide for herself, she reluctantly asked her foster parents. She was fortunate enough to have a foster mother who was a seamstress and made her formal. Tyleen was given an unforgettable evening through the generosity of her foster parents.</p> <p>During graduate school, Tyleen was president of the Student Association of Social Workers (SASW). She initiated and led a prom dress project in which she collected over 500 dresses, \$2500 in cash donations, and several donated services. SASW served nearly 100 youth in foster care. Tyleen received special recognitions for this project including being recognized by the Hattiesburg American newspaper as one of 12 people who made a difference in the community, named Social Work Student of the Year by the University of Southern Mississippi and she received the Claire Nowlin Social Work Student of the Year given by the Mississippi Chapter of the National Association of Social Workers. Tyleen continues her project and continues supporting the communities she lives in and the neighboring communities ensuring everyone has a formal for an upcoming event. The success of this project depends on the support from the communities. Tyleen is very involved in the community and hopes the community will support Monarch Formal's.</p>

What We Do: To improve the lives of all Americans, we provide public health education in a variety of ways. We're the nation's leader in CPR education training. We help people understand the importance of healthy lifestyle choices. We provide science-based treatment guidelines to healthcare professionals to help them provide quality care to their patients. We educate lawmakers, policymakers and the public as we advocate for changes to protect and improve the health of our communities.</p>

Many cooks and major vendors help out each year by providing food, prizes and live music for all. The different foods include traditional Italian, Mediterranean, French, Mexican, American, Greek, Slovenian, Italian-Cajun, Bohemian, German dishes among others. Nearly 3,000 people attend Festa yearly as the Foundation sets a money raising goal. Activities include more food samples than ever, Kids Zone where the varsity athletes work with the kids and do activities including face-painting, football toss and sand art, Mario's Market which features a silent auction, and a live auction. Festa provides food from ALL ethnicities & would love for you to join us in the cooking adventure. The Kiwanis Club of Joplin would like to thank you for coming to our third annual Joplin Arts Fest. The development of this festival has truly been a collaborative effort that could not have happened without the input and help from Joplin Regional Artists Coalition, Spiva Center for the Arts, Connect2Culture, and the financial assistance from the Joplin Convention and Visitors Bureau. The festival is designed to celebrate the variety of arts the Four State area has to offer. For your enjoyment, fine artists have filled the street, to display and sell their artwork. The stage will be occupied throughout the day with an assortment of performing artists for your entertainment. Art oriented not-for-profit organizations are also here to disperse information and raise awareness for all of the arts in the Joplin area. Spiva Center for the Arts, MSSU Art Students, and Wildcat Glades, KOAM/FOX14 along with a face painter, will have art related activities for kids.

The Kiwanis Club of Joplin is dedicated to helping to provide activities for kids, of all ages, that they might not be able to do otherwise. Thus, all proceeds from the festival will be used to help fund numerous programs and activities focusing on children and young adults in the Joplin community. Some of the programs the Kiwanis Club helps to sponsor are: Cerebral Palsy Center of the Tri-County, Salvation Army Children's Christmas, Christmas programs for two Joplin elementary schools, Joplin Boys & Girls Club, Joplin High School Key Club, and the Missouri Special Olympics, just to name a few.

We hope you will enjoy your day at the Joplin Arts Fest with some great food and drink while you look and meet the various artists and enjoy the performing artists.

Dear Public Service Director:

On Friday, September 8, XQ Institute and the Entertainment Industry Foundation (EIF) invite the public to help rethink the future of American high schools with a special one-hour event, **"EIF Presents: XQ Super School Live."** The telecast will air live from Los Angeles on all four major U.S. networks – ABC, CBS, FOX and NBC at 8:00-9:00 PM ET live/PT tape-delayed.

"EIF Presents: XQ Super School Live" will combine live musical, comedy and documentary segments to bring to life the past, present and future of the American high school system. Audiences can expect to see some of the biggest names from film, television, sports, music and digital media in the televised event.

Over the past 100 years, the United States has gone from the typewriter to the touchscreen and the switchboard to the smartphone, yet its high schools have remained virtually unchanged. To prepare America's youth for the 21st century, high schools must be rethought and reshaped so every student can succeed in college, career and life.

The broadcast will challenge viewers to understand that transforming high school education is crucial for the future of our country. And, it will show how educators, parents, school administrators, entrepreneurs, business leaders and students can serve as key influencers of change.

Please place these PSAs into rotation and air them as soon and as often as possible from July 24 to September 8. By airing these PSAs, you will help inspire the public to rethink high school and explore ways to prepare our students for careers of the future. To join the movement and learn more, visit <https://xqsuperschool.org/live>.

If you have any questions, please contact our team at psa@boombroadcast.com or at (609) 748-7411.

We provide science-based treatment guidelines for healthcare professionals to help them give quality care to their patients. We educate lawmakers, policymakers and the public as we advocate for changes to protect and improve the health of our communities. Our volunteer experts select the scientific research most worthy of funding — with great results. We have invested more than \$4 billion in research, more than any organization outside the federal government. We have funded 13 Nobel Prize winners and many lifesaving research advances such as the first artificial heart valve, cholesterol-lowering drugs, heart transplantation, and CPR techniques.
Biblesta, Community Event, Families, Teens	Public Service Announcement	9.14.17-9.30.17	12 Minutes, 45 Seconds	\$3,999	The station produced and aired PSA's supporting the city of Humboldt, KS and it's annual festival, Biblesta. HOW BIBLESTA BEGAN The idea for Biblesta came to Dr. Arthur Carlson in 1967 while attending a cottage prayer meeting. His church was planning a revival meeting, and everyone was praying that the attendance would be good and that many souls would be saved; however he really did not expect that to happen. While on his knees in prayer, he began imagining a parade that would focus people on the greatest book in the world...the Bible. Right then and there he decided the way to tell others about God was with a Bible Story Parade. In late summer 1968, the Humboldt Chamber of Commerce accepted Carlson's idea for a Bible themed parade and asked Carlson to be chairman. Carlson accepted the challenge and the 1st Biblesta Parade was deemed a success! A NAME FOR THE PARADE A contest was held in 1969 to name the event. Vernon Hawver's entry won the contest. He came up with his name by putting the words "Bible" and "Fiesta" together. So, from that time on, the celebration became known as "BIBLESTA". WHAT CAN I EXPECT TO SEE AND DO AT BIBLESTA? The Biblesta Parade consists of floats depicting events from the Bible, walking entries, equestrian units, and marching bands playing Christian music. Everyone is dressed in Biblical costumes. The events are arranged in chronological order from Genesis to Revelation. One of the favorite floats has been "Jonah and the Whale". Retired from the competition part of the parade, this forty foot float continues to be one of the most fascinating to parade visitors. Before and after the parade, enjoy gospel music in the City Square provided by nationally known entertainers (bring a lawn chair). Children can enjoy the pony rides, petting zoo, and Bible school. Food vendors are available throughout the day. Plan to stay for the FREE ham and bean feed. OVER 50 YEARS LATER The community of Humboldt continues to honor God through the Biblesta Parade. It is with humility, that Humboldt dedicates this day to the Lord. We trust that all who view the parade and share the musical programs with us will be strengthened and enriched for having been here. What a blessing it is to share God with others!

Poverty, Health, Circles Joplin, United Way	Public Service Announcement	7.1.17-9.30.17	1 Hour, 39 Minutes	\$14,310	During the quarter the station began airing PSA's in support of Circles Joplin . Circles Joplin, part of a nationally-recognized program with proven results in more than 80 communities, began in 2013. Circles is all about building relationships. Together, everyday men and women figure out how to do life better. Community members help participants find better ways to budget, resolve conflict, and gain the skills needed for successful employment. The best part about Circles is the fact that participants are changing their own lives. No handouts are given. People are supporting one another through friendship and fellowship to make life better for our whole community. Circles is a community collaboration in partnership with the national Circles program and the United Way of Southwest Missouri and southeast Kansas. Circles works to build relationships across class lines as a way to improve community conditions. The Circles program reduces the number of families and individuals who rely on government programs and charitable aid. More importantly, it breaks the cycle of poverty as graduates teach their children how to get ahead, not just get by. The program can increase the number of educated workers in the community and also reduce the unemployment and incarceration rates. Circles has a proven track record for success nationwide and has already begun changing lives right here at home.

Since our beginnings two decades ago and thanks to the efforts of our many volunteers, we have become the sole provider of blood products for 40 hospitals located in three states. When there is an excess of blood locally, CBCO supports other parts of the country that may be short on supplies. CBCO also supplies blood to the United States military, as part of a national effort to sustain our troops. Our Vision A world where everyone has a decent place to live. Our Mission Statement: Seeking to put God's love into action. Habitat for Humanity brings people together to build homes, communities and hope. About Joplin Area Habitat for Humanity: Founded in 1989, Joplin Area Habitat for Humanity is part of a global, nonprofit housing organization operated on Christian principles that seeks to put God's love into action by building homes, communities and hope. Habitat for Humanity is dedicated to eliminating substandard housing locally and worldwide through constructing, rehabilitating and preserving homes, by advocating for fair and just housing policies, and by providing training and access to resources to help families improve their shelter conditions. Habitat for Humanity was founded on the conviction that every man, woman and child should have a simple, durable place to live in dignity and safety, and that decent shelter in decent communities should be a matter of conscience and action for all. Homeowner families are selected based on their income, need, ability to pay, and willingness to partner with Habitat. Each homeowner family is required to complete 200-300 hours of volunteer labor on their home and those of other families. Once construction is completed, the house is sold to the new homeowners at a no profit and no interest. An organization staffed with many volunteers, the Joplin Area Habitat for Humanity relies on individuals willing to give of their time and talents to accomplish everything from housing construction to the selection of homeowner families. To aid its construction efforts, the Joplin Area affiliate seeks the continuing support of community businesses, churches, and individuals to provide the funds and specialized services. If you are interested in becoming a volunteer at our construction sites or on one of our committees, please fill out our contact form or call Joplin Area Habitat at 417-782-6533. All are welcome. Joplin Area Habitat for Humanity has an open-door policy. All who believe that everyone needs a decent, affordable place to live are welcome to help with the work, regardless of race, religion, age, gender, political views or any of the other distinctions that too often divide people. In short, Habitat welcomes volunteers and supporters from all backgrounds and also serves people in need of decent housing regardless of race or religion. As a matter of policy, Habitat for Humanity International and its affiliated organizations do not proselytize. This means that Habitat will not offer assistance on the expressed or implied condition that people must either adhere to or convert to a particular faith, or listen and respond to messaging designed to induce conversion to a particular faith. About Habitat for Humanity International: Founded in Americus, Georgia, USA, in 1976, Habitat for Humanity today operates around the globe and has helped build, renovate and repair more than 600,000 decent, affordable houses sheltering more than 3 million people worldwide.</p>

That same year Honor Flight partnered with Honor Air in Hendersonville, North Carolina and Hero Flight in Provo, Utah to establish the national "Honor Flight Network," which has expanded aggressively to include cities across the nation. By 2007 official Network hubs had been established in 32 cities, to localize community commitment, operational planning, and fund-raising. Today, there are 132 regional hubs in the United States. In fact, recent data shows that nearly 30 percent of adults with household incomes at or below the federal poverty line do not have a high school credential. The High School Equivalency campaign seeks to combat this critical issue by encouraging those without a high school diploma to take the first steps toward a better future and sign up for free adult education classes in their area. The "No One Gets A Diploma Alone" campaign celebrates the hard work of adults who have recently finished their high school diploma – and inspires those adults that have yet to complete high school. Through a series of surprise parties for recent graduates and their families, PSAs encourage adults and their loved ones to use the help that's waiting through free adult education classes around the country. The PSAs direct audiences to visit FinishYourDiploma.org, where they can find free literacy centers and adult education classes, learn the basics of earning a high school equivalency, and hear real stories from people who have successfully completed classes and finished their high school diploma. Launched in 2010, the campaign has already helped more than 1 million adults find free adult education classes in their area.</p>

Vance,

You have done a PSA for my relay for life golf tournament the last couple years. I am interested in doing one again this year but needed to verify the pricing with you please. The golf tournament is July 22 this year so wanted to know when you would recommend starting to run the PSA and when you would need the information in order to get it produced in time. We can discuss invoicing and payment once I confirm that we are going to run the PSA.

Also in the past KOAM has had a booth at our relay for life event in Joplin and was curious if they would want to participate as a team again this year. The actual relay for life event is June 10 from 4 to 10 PM at Cunningham Park. If KOAM is interested please let me know and I can get more information to you.

I look forward to hearing from you and working with you on both events.

Thanks,
Ryan

Dear Mr. Lewis,

The DAV Transportation Department, Bottom - Stogsdill Chapter 52 Joplin, MO and I, would like to thank you and the rest of the team at KOAM-TV 7 and FOX 14 for the exceptional Public Service Announcements, which have been seen by many.

Since the add you and your team put together has been broadcast, the transportation Department, has received many volunteer applicants to serve as drivers and office workers. In the past we have advertised on radio and in news papers, without nearly the response we have received from the Public Service Announcement you and your team created to recruit volunteer drivers to transport many of our Veterans in the Four State area, to their VA medical appointments in Kansas City, MO - Nevada, MO - Mount Vernon, MO and Fayetteville AR.

Dear Mr. Lewis:

On behalf of DAV National Commander Dave W. Riley and our more than 1.3 million members and their families, we extend our warmest thanks for your very generous donation of public service announcement advertising space from KOAM.

Creating awareness is instrumental to fulfilling our mission of keeping the promise made to America's 22 million veterans. DAV is unique in that we provide a lifetime of support for veterans of all generations and their families, helping more than 1 million veterans in life-changing ways each year by:

- Assisting with the filing of nearly 300,000 claims for benefits last year alone, ensuring veterans receive their earned VA benefits;
- Helping returning veterans transition to civilian life by connecting them with services that address their physical, emotional, and financial needs;
- Transporting veterans to and from medical appointments at no cost to them;
- Linking veterans to employment resources and opportunities. This year we will host more than 125 career fairs nationwide for military members, veterans and their spouses;
- Providing emergency grants to veterans impacted by natural disasters; and
- Connecting homeless veterans with benefits and resources.

Your support helps ensure that America's heroes are aware of the services we offer at no cost to them and make certain that the public is reminded of the sacrifices made by the men and women who have so honorably served our nation.

We appreciate your continued help in communicating our message. It allows us to serve more veterans in your community, and hope we will continue to earn your support. If there's anything we can do to further recognize your partnership with us on this initiative, please let us know.

Sincerely,

Dan Clare
DAV National Communications Director

Dear Traffic Manager:

The Ad Council has sent you a Hurricane Relief PSA digitally via Extreme Reach.

Former Presidents Support Hurricane Relief

Hurricanes Harvey and Irma are some of the strongest storms to hit the United States in decades. Former presidents Barack Obama, George W. Bush, Bill Clinton, George H.W. Bush, and Jimmy Carter have united to encourage Americans to visit OneAmericaAppeal.org to donate to recovery efforts in Texas and Florida. Air this PSA to remind your viewers that when we all come together, even a small donation can make a big difference.
