Security Council to hold ISIS accountable for the genocide of the Yazidid people, a key factor in her recognition via the prestigious award. - "The Wright Way"** – a report on the Wright family, called the first family of American rodeo. With nine members who rank among the best in the world and five world titles between them, the Wrights compete in what many consider to be the last blue collar sport in America. Rodeo began as an event called saddle bronc in the old west. The goal is to remain, for eight seconds, on a randomly paired horse trained to dismount the rider. While the nature of the sport promotes intense competitiveness, the Wrights maintain an emphasis on family. Cody Wright started the family dynasty twenty years ago and is a two time world champion. In describing his technique for riding, Cody likens it to a dance where control is needed to deal with the adrenaline and fear which comes with each ride. Team Wright has qualified for the biggest rodeo competition, the National Finals Rodeo in Las Vegas, for the last fifteen years. But winning comes at a price; the job is very dangerous and there is no big money to be made. The family works the same land in Southern Utah they have for the last century and a half, defining their lives by hard work. Includes interviews with Bill and Evelyn Wright, parents; Cody, Jake, Jesse, Alex, Calvin, Stuart, and Spenser Wright; Coburn Bradshaw, brother-in-law; and Ryder, Rusty, Stetson, and Statler Wright, Cody's sons. The show focuses on emotions such as fear, loneliness, anger, and determination while teaching coping mechanisms. It will begin airing in February in 20 countries. Includes interviews with Laila Hussein, guide and I.R.C. Coordinator; David Miliband, head of the International Rescue Committee; Scott Cameron, "Ahlan Simsim" showrunner and Sesame Street producer; a family of Syrian refugees who live in a camp; and a family who live in a tent settlement outside the refugee camp. "Vision of Music" – a profile of Matthew Whitaker. Whitaker, a blind jazz pianist, has been called a prodigy and has performed globally since the age of 11. His parents say he always had an ear for music, playing at an advanced level without being taught. After a complicated birth, Whitaker underwent eleven surgeries in an attempt to restore his eyesight with no success. With the help of teacher Dalia Sakas, a classically trained concert pianist and director of music at a school for the visually impaired, Whitaker learned to hone his skills. Neuroscientists have studied his MRIs to find a link between brain simulation and creativity. Includes interviews with Moses Whitaker, Matthew's father; May Whitaker, Matthew's mother; Dalia Sakas, director of music studies at the Filomen M. D'Agostino Greenberg Music School in New York City; and Dr. Charles Limb, a surgeon and neuroscientist. (Sharyn Alfonsi – P: Katy Textor) (OAD: 02/23/20)

- 07/04/20 **48 HOURS: “Natalie Wood: Death in Dark Water”** (10:00 – 11:00p) - a follow-up report about the unexplained drowning death of Hollywood star Natalie Wood nearly four decades ago. County sheriff’s investigators speak for the first time and tell 48 HOURS that her then-husband, actor Robert Wagner, is now a person of interest; the investigators want to speak with Wagner about the circumstances surrounding her death that night in 1981. Wood drowned off the coast of Catalina Island in California in November 1981 after she went missing from the Splendour, her family’s yacht. Also aboard that night were Captain Dennis Davern, and actor Christopher Walken. The next day, Wood was found floating in the water wearing a red down jacket and flannel nightgown. After a two-week investigation, the death was ruled an accident. In 2011, as detailed in “Natalie Wood’s Fatal Voyage” (OAD: 11/19/11), the Los Angeles County Sheriff’s Department reopened the death investigation. In 2012, the Los Angeles Coroner’s Office amended the death certificate from an “accidental drowning” to “drowning and other undetermined factors.” Now, six years after that investigation 48 HOURS talks with the investigators about new witnesses, new evidence and new theories as to what happened that night. Rumors of foul play have long surrounded Wood’s mysterious death. At first, the three men aboard the boat told detectives that Wood, took off in a dinghy and went ashore. Over time, however, Wagner and Davern’s accounts have shifted, raising a red flag to the investigators. Investigators also say Wagner has refused to speak with them since the case was re-opened. Investigators today note the autopsy report indicates there were a number of bruises that appeared to be fresh on Wood’s body. The latest information is detailed through interviews with the detectives, and Natalie Wood’s sister, Lana Wood. Also included are archival interviews with Robert Wagner and Captain Dennis Davern. Original on-screen text graphic: 48 HOURS’ requests to interview Robert Wagner and Christopher Walken were declined. The Splendour is currently up for sale. **On-screen text graphic for the 07/04/20 rebroadcast:** 48 HOURS’ requests to interview Robert Wagner and Christopher Walken were declined. - 07/11/20 **48 HOURS: LIVE TO TELL: “The Chowchilla Kidnapping”** – On July 15, 1976, 26 children and their bus driver, Ed Ray, were kidnapped as they headed home from Dairyland Elementary School in Chowchilla, California. The three masked kidnappers, one armed, were later identified as: Fred Woods, and brothers James and Richard Schoenfeld. The kidnappers drove the bus to a wooded area where they preceded to unload the bus driver and children into a van that was set up as a makeshift prison. After driving for 12 hours, the van stopped 100 miles away from Chowchilla, at a rock quarry owned by Fred Wood’s father in Livermore, California. The victims were removed one by one from the van, and instructed to climb down a ladder to a truck trailer, buried 12 feet underground. The children and Ed emerged from the ground after 16 hours. The motive for the kidnapping was money, despite all three men hailing from wealthy families. All three pleaded guilty to 27 counts of kidnapping for robbery and ransom but each refused to plead guilty to eight counts of bodily harm. On February 17, 1978, the kidnappers were sentenced to life in prison without parole. Four years after the crime, lawyers appealed the finding of bodily harm and the appellate court overturned it, throwing out the sentence. In 2012, 36 years after the kidnapping, Richard Schoenfeld was the first to be granted parole. Three years later James Schoenfeld was paroled. Fred Woods who has repeatedly been caught with pornography and cell phones remains in prison, but was up for parole the week of this broadcast. 07/18/20 **48 HOURS: “FindJodi”** (9:00 - 10:00p) – a report on new information in the search for Iowa television anchor Jodi Huisentruit, who disappeared on her way to work on June 27, 1995. When Huisentruit did not arrive at the station for her morning assignment, police were alerted. Outside her apartment, they found signs of a struggle, but her car was still at the scene. An extensive search was conducted, but she was never seen again and her body has never been found. An investigation led authorities to information that Jodi had reported a possible stalker nine months before her disappearance. Several people became suspects, including close friend John Vansice, who some of her friends suspected wanted a romantic relationship, despite their 22-year age difference. Another was Tony Jackson, a serial rapist who lived nearby at the time of Jodi’s disappearance. Throughout the years, friends and family members have kept up the search for Jodi, despite her family declaring her dead in 2001 as a means to settle her estate. In 2003, a group of journalists created a website to keep the story alive and to crack the case. As of 2017, John Vansice, living in Phoenix, is still considered a suspect. Mason City police believe they are close to solving the case. On June 5, 2018, which would have been Jodi’s 50th birthday, four billboards were unveiled in Mason City, Iowa, keeping her memory alive with the hope of solving her disappearance. **On-screen text graphic:** FindJodi. 07/18/20 **48 HOURS: “Mandy Stavik: The Case No One Could Forget”** (10:00 - 11:00p) – an investigation into the 1989 cold case of murdered college student, Mandy Stavik. Stavik left her Acme, Washington home for a run with her dog on November 24, 1989. Stavik did not return. After a three day search, Stavik’s body was found in the Nooksack River. Male DNA was recovered during an autopsy, indicating a sexual assault; but upon testing, no matches were found. The case remained unsolved until after almost twenty-five years, when investigators discovered a new suspect. In 2013, Heather Backstrom and Merrilee Anderson, two mothers, were intrigued by the Stavik murder case. Separately, both women had long suspected the same man, Tim Bass, but kept their suspicions quiet. Each of the women had past experiences with Bass which had left them terrified, so Backstrom and Anderson decided to share their stories with investigators. In 1989, Bass lived less than two miles from Stavik’s house, right along her running route. During the original murder investigation, no one in the Bass household was questioned about Mandy’s murder. The police visited Bass to question him and he initially pretended he didn’t remember Stavik, but he later told police he recalled playing with her. When asked to submit a DNA sample to police, Bass declined. The police decided to set up a surveillance team to follow him all night long on his bakery delivery route, hoping he would throw away an item with DNA on it. Still unsure, the police wanted to cast a wider net of potential suspects to be sure they were on the right path. They contacted the bakery where Bass worked and spoke with his boss, Kim Wagner. Wagner agreed to assist the police and gave them DNA evidence he discarded: saliva from a cup. Three months later, the state crime lab confirmed Bass’s DNA was a match. On December 12, 2017, twenty-seven years after Stavik was found dead, Bass was arrested and charged with kidnapping, rape and murder. Twenty-nine years and six months to the day since Stavik was killed, Bass was convicted of her murder, rape, and kidnapping. He was given the maximum sentence – nearly twenty seven years. **On-screen text graphic:** Tim Bass could be eligible for parole in twenty-four years. A scholarship fund has been set up in Mandy’s name at Mt. Baker High. Molly named her daughter after her sister Mandy. Interviewed: Det. Kevin Bowhay, Det. Ken Gates, and retired Det. Shot four times, Daniel was found in his home after he didn’t show up for work. Investigators initially believed his death was tied to his police work, but their investigation uncovered the toxic relationship between Daniel and his ex-wife, Erika Sandoval. Daniel met Erika in 2009 and less than a year later, surprised everyone by eloping. Family and friends on both sides witnessed the volatile relationship and were concerned. After a confrontation in February 2011, Erika and Daniel were both arrested for domestic abuse, but no charges were filed; the couple divorced just after a year of marriage. Shortly after, Erika learned she was pregnant. Approximately six months after their son was born, Daniel asked Erika to move out which sparked a custody fight. In January 2015, the couple appeared to be on good terms while celebrating their son’s second birthday. Weeks later, Daniel mentioned to friends that he was dating someone new and posted a picture on Instagram. A month later, Daniel was found dead. Erika was brought in for questioning, but denied responsibility. Erika’s story changed and the police arrested her. Nearly five years later, Erika’s trial for first-degree murder began; on November 20, 2019, the case went to the jurors for deliberation. 60 MINUTES

- 08/02/20 **"The Emerald Triangle"** – a report on the legal marijuana business in California. Proving much less profitable than expected due to strict regulations and a thriving black market, farmers now deal with the backlash of the regulated marijuana market. 60 MINUTES spent a week in the Emerald Triangle, where a Mediterranean climate and rich soil famously account for the production of high quality marijuana. Includes a tour of the Flow Kana factory, where the herb is packaged from legal state-regulated farms to be shipped and sold to licensed stores around California. The regulated market amounting to a fraction of what it was predicted to be is due, in part, to Prop 64. Prop 64 gave towns and cities the power to decide whether marijuana businesses can open locally; with eighty percent voting no, the number of stores is very low and licensed stores are rare. While law enforcement attempts to stake out illegal grows, raids have proved inefficient with black market growers replanting immediately. Includes interviews with Mikey Steinmetz, who runs the Flow Kana Factory; Casey O'Neill, owner of a family farm; Mendocino County Sheriff Tom Allman; and Governor Gavin Newsom (D-CA). (See also: "Pot Shops", OAD: 09/23/07 and "The Pot Vote", OAD: 10/30/16) (C: Sharyn Alfonsi – P: Guy Campanile) (OAD: 10/27/19)
- "The Columbus Letters"** – a report on the mystery of missing Christopher Columbus letters. Includes interviews with Ambrogio Piazzoni, vice president of the Vatican library; Jay Dillon, a rare book dealer in New Jersey; Mark Olexa, Homeland Security Special Agent; Jamie McCall, assistant U.S. attorney for the District of Delaware; Paul Needham, a foremost expert on fifteenth century printing who runs the Scheide Library at Princeton University; Giovanni Prisco, captain of the Carabinieri Police's Cultural Heritage Squad; and Massimo de Caro, a notorious Italian book thief. - "Built by Angels"** – a report on the Christian holy site Lalibela, where 11 churches carved from a single block of stone sit on the central plateau of Ethiopia. Carved around the year 1200 by people called the Zagwe, legend says their king returned from a trip to Jerusalem and declared he would create a similar holy land in Ethiopia's northern highlands. Artists sculpted the architecturally intricate rooms in darkness and the churches imitate traditional construction. Members of the Ethiopian Orthodox church say it was constructed by angels – the site attracts droves of faithful pilgrims, many of who travel hundreds of kilometers on foot to visit the churches. Masons are unable to work on the structure of the building due to the belief that it was built via divine intervention, but the World Conservation Fund is teaching locals to repair and maintain the property. Includes interviews with Fasil Giorghis, architect and historian; Tewede Yigzaw and Getaye Abebeaw, farmers; Tsigie Selassie Mezgebu, pilgrim; Stephen Battle, architect with the World Monuments Fund; and Simon Warrack, master stone mason at the World Monuments Fund. Due to its status as China's beloved national symbol, the country has worked for decades to perfect breeding the bears in captivity. In 2016, the panda's conservation status was upgraded from endangered to just vulnerable. The partnership between China and America's Smithsonian National Zoo has brought the giant panda back from near extinction. This research suggests the giant panda can be saved. A cyber-attack on the Democratic Party and its candidates in 2016 resulted in the theft of millions of documents that were strategically dumped to influence the outcome of the presidential and congressional elections. While President Trump claims the attack was launched by Ukraine, the Muller Report clearly explained how the attack came from Russia. After acquiring documents, Russian agents used an online persona, Guccifer 2.0, to leak those documents to Trump operative Roger Stone and WikiLeaks founder Julian Assange. The document theft was a well planned and executed military cyberattack, according to the Justice Department. The release of the documents was often targeted to specific swing areas such as contested congressional districts in Florida. Includes interviews with Robert Anderson, leader of the FBI’s Counterintelligence and Cyber Divisions; John Demers, the Assistant Attorney General for National Security Division; Kelly Ward Burton, former Executive Director of the Democratic Congressional Campaign Committee; Annette Taddeo, a hacked politician; and Mark Caputo, a senior Politico reporter. 08/30/20 **"Red Flag"** – a report on Red Flag laws, first proposed in Congress and now adopted by 12 states, which allows the state to confiscate firearms from someone exhibiting threatening behavior. The law was born out of an increased focus on gun violence, with 366 mass shootings in the last year, and the movement for gun reform which has been building since the Sandy Hook shooting in 2012. 08/01/20 **48 HOURS: "Storm of Suspicion"** (9:00 – 10:00p) – a report on the investigation into the disappearance of Crystal McDowell, a divorced mother of two, who disappeared in Baytown, Texas, just as Hurricane Harvey hit the Houston, Texas area in August 2017. As police and emergency first responders struggled to keep up with the damaging storm, a team of police investigators gathered to track McDowell's disappearance. The historic flooding from the hurricane forced all available first responders into rescuing people, leaving it difficult to conduct a missing persons case. However, a dedicated team of police investigators gathered to track every clue left behind. The break in the case was the discovery of McDowell's car, found in a flooded motel parking lot. Police interviewed family and friends. The investigation led to the discovery of fractured relationships and hidden family secrets. Because of the storm, much of the physical evidence was washed away in the flood, but authorities focused on the ex-husband, Steve McDowell, certain that he had killed Crystal. Ultimately, police got their man: Steve McDowell admitted he strangled his ex-wife and disposed of the body in a densely wooded area near his house. Without his co-operation and because of the storm, her body would never have been located. He was charged with murder. 09/07/19 UPDATE: In June 2019, during his trial for murder, Steve McDowell testified that Crystal's death was a result of a spontaneous hug that got out of control. But DA Cheryl Lieck believed it was premeditated. After five days of testimony, evidence and argument, it only took three and a half hours for the jury to reach a verdict: guilty. One day later, the same jury sentenced Steve McDowell to fifty years in prison for the murder of his ex-wife. Original on-screen text graphic: Steven McDowell has not entered a plea. The couple's young children are living out of state with a family friend who is in the process of obtaining full legal custody. 08/01/20 **48 HOURS: “Justice for Kelsey Berreth”** (10:00 – 11:00p) – a follow-up report on ‘The Murder of Kelsey Berreth,’ featuring the evidence and trial which led to the conviction of Patrick Frazee for the 2018 Thanksgiving Day murder of his fiancée. Newly released Thanksgiving Day images show Frazee and Berreth at her door with the baby after returning from the store. A later image shows Frazee in that same location alone. Security footage shows Berreth was last seen alive shopping with her one-year-old daughter on Thanksgiving morning at a local Woodland Park, Colorado Safeway supermarket. Frazee’s secret girlfriend, Krystal Kenney Lee, a former Idaho rodeo queen and nurse has told authorities she knows how and why Berreth was killed. Lee told investigators Frazee asked her to kill Berreth with three different plots, but ultimately could not go through with it. According to Lee, Frazee told her he invited Berreth to play a guess what game with candles. He blindfolded, took a baseball bat, and “went to swinging.” After killing Berreth on Thanksgiving Day, he put her body in a black tote. Surveillance footage shows Frazee at an ATM with a black tote in the back of his truck. At Frazee’s request, Lee drove from Idaho to Berreth’s Woodland Park, Colorado townhouse to clean up the crime scene. Lee took investigators to Berreth’s apartment and Frazee’s ranch; she shared details regarding how she cleaned up the crime scene, where Berreth’s body was burned, and how she got rid of evidence. In December 2018, Frazee was arrested and charged with Kelsey’s murder. At trial, the prosecutors had no physical evidence which tied Frazee to Berreth’s murder, so the case rested solely on Lee’s testimony. An inmate at the same prison as Frazee, who watched a previous 48 HOURS episode on Kelsey’s murder reached out to investigators. He said Frazee gave him a hit list with the names of certain witnesses (Krystal Kenney Lee, Michelle Stein, and Chery Berreth) who needed to disappear. The defense called no witnesses and Frazee chose not to testify. After a 3 ½ hour deliberation, the jury unanimously found Frazee guilty of 1st degree murder and sentenced him to life in prison plus 156 years. In exchange for her testimony, Lee agreed to plead guilty to evidence tampering and will face a maximum of three years in prison. Original on-screen text graphic: A custody hearing is scheduled for 2-year-old Kaylee on December 5. - 08/08/20 **48 HOURS: “Chacey Poynter: Witness to Murder”** (10:02 – 11:02p) - In September 2016, University Park Fire Department Captain Robert Poynter was shot and killed while sitting in his wife Chacey Poynter’s Jeep on a deserted county road in Royse City, Texas. Chacey told police she called her husband for help after her Jeep got stuck in the mud and when Robert got in to help move her vehicle, he was shot by an unknown man. Investigators were skeptical of her story. When questioned by the police, Chacey admitted to multiple affairs and ongoing marital problems, including abuse. She eventually confessed to knowing the identity of the man who killed her husband -- Michael Garza, one of her lovers. Chacey claimed it was Michael who set the trap, so he could confront Robert and demand he leave her alone. On September 10, 2016, Chacey was arrested and charged with conspiracy to commit murder. Michael turned himself in and was charged with murder. The shotgun used to murder Robert belonged to Michael’s brother and was recovered by a farmer near where Robert was shot. Recovered digital evidence proved Chacey had groomed Michael. On July 10, 2018, Michael went on trial and testified that he believed Robert was abusing Chacey and implicated her as the shooter. On July 20th, Michael was found guilty and sentenced to 99-years in prison. At Chacey’s trial, prosecutors maintained she was the mastermind and her motive was to collect Robert’s life insurance policy; she was found guilty of murder and sentenced to life in prison, with the possibility of parole in 30-years. **On-screen text graphic:** Robert Poynter’s life insurance benefits were split among his three daughters. - 08/15/20 **48 HOURS: LIVE TO TELL: “Murder on Prom Night”** - On Sunday, April 30, 1989, police responded to a crime scene at the Lakeville, Indiana home of the Pelley family. Reverend Bob Pelley was found in an upstairs hallway; wife Dawn and young daughters Janel and Jolene were in the basement -- all shot at close range with a shotgun. Nine-year-old Jessica Pelley – now known as Jessi Toronjo - returned from a sleepover at a friend’s house to the news that her mother, stepfather, and sisters were murdered. Police questioned Bob’s 17-year-old son Jeff and later learned Bob had grounded him over the prom; police believed they had a clear motive, but no forensic evidence to prosecute. Thirteen years after the crime, a new prosecutor believed there was enough evidence and Jeff was arrested and charged with four counts of murder. In 2006, he was found guilty and sentenced to a hundred and sixty years in prison. Jeff’s defense lawyer filed an appeal and his convictions were set aside on a number of procedural grounds. He remained in custody and in February 2009, the Indiana State Supreme Court upheld the conviction. Currently, Jeff’s new defense team is working on his release by filing a motion for post-conviction relief. Jessi changed her name and appearance as a way to cope with the tragedy. After she tried to kill herself, Jessi was diagnosed with DID, dissociative identity disorder. On April 29, 2019 -- the thirty year anniversary of the murders -- *I am Jessica* was published. 48 HOURS (continued)

08/22/20 **48 HOURS: “The Golden State Killer”** (9:00 – 10:00p) – an updated rebroadcast about true-crime writer Michelle McNamara’s relentless search for answers, and the quest to find the elusive so-called “Golden State Killer”, who terrorized Californians by committing 50 rapes and a dozen murders between 1978-1986, and who was arrested this past week. McNamara died in 2016. Her widower, comedian Patton Oswalt, discusses his late wife’s untimely death which occurred during her investigation and those who are carrying on her work by finishing the book she was writing about the case. McNamara was fascinated with true crime and her on-line quest led her to a serial killer she had really never heard of: the EARS (East Area Rapist Surveillance) Killer, whom she rebranded as the “Golden State Killer”, and pursued clues which she hoped to compile into a book. Her obsession with the case took a toll on her health, and her untimely death devastated Oswalt. Now others are hoping to finish the work she started – by publishing the book and finding the killer. The killer was a man who stalked his victims, blindfolded them, and raped and/or murdered them in Northern California. The rapes ultimately stopped, but after a seven-year hiatus, began again in Southern California. In 2016, the FBI used the 40th anniversary to announce the renewed investigation and a reward for the killer. 04/28/18 UPDATE: Michelle McNamara’s book was released in February 2018. Now, almost two years to the date of McNamara’s death, police believe they have cracked the 44-year-old serial murder case. 72-year-old Joseph James DeAngelo, a former cop, was arrested at his home. He was never a suspect, but new technology helped to identify him. Investigators plugged the genetic profile of the Golden State Killer into a genealogical website and got a link to genetic material stored there by one of DeAngelo’s relatives. GEDmatch.com is an open source site that requires no subpoena. Police still needed his DNA to make a positive match, which they did by collecting a sample of his DNA from something he discarded in a public location. Many of his victims voiced their relief. This is what McNamara had always hoped for. DeAngelo was arraigned on two counts of murder in Sacramento County. He is also charged with murder in Ventura County and Orange County and more charges are expected. **08/22/20 UPDATE:** In June 2020, Joseph James DeAngelo pled guilty to thirteen counts of murder and thirteen counts of kidnapping with robbery. In court, he was confronted by victims and the family members of victims; he offered an apology. Original on-screen text graphic: Michelle McNamara’s book is expected to be published in early 2018. The FBI urges anyone with information on the Golden State Killer to call 1-800-CALL-FBI, or go to tips.fbi.gov. No on-screen graphic for the 04/28/18 rebroadcast. **On-screen text graphic for the 08/22/20 rebroadcast:** Joseph DeAngelo was sentenced to life in prison without the possibility of parole. In November 2017, Patton Oswalt remarried. Interviewed: Patton Oswalt; Billy Jensen (true crime journalist); Paul Haynes (researcher); Larry Crompton (Contra Costa County Sheriff’s Dept.); Anne Marie Schubert (DA, Sacramento County); Paul Holes (cold case investigator); Jane Carson-Sadler (victim); Margaret Wardlow (youngest victim); Debbi Domingo (daughter of victim); Michelle Cruz (sister of victim); Larry Montgomery (1986 investigator); Erika Hutchcraft (Orange County DA’s Sex Crimes Unit) (C: Tracy Smith – P: Susan Mallie, Lourdes Aguiar, Gayane Keshishyan Mendez, Lauren Clark; Producers for the 04/28/18 Updated Rebroadcast: Susan Mallie, Lourdes Aguiar; Producers for the 08/22/20 Updated Rebroadcast: Susan Mallie, Lourdes Aguiar, Lauren Clark) (OAD: 04/22/17; 1st Rebroadcast: 04/28/18)

48 HOURS (continued)

08/22/20 **48 HOURS: “The Plot to Kill Dr. Sievers”** (10:00-11:00p) – a follow-up to “Eleven Hundred Miles to Murder” (OAD: 02/18/17), a report on the 2015 murder of Dr. Teresa Sievers, murdered in her Bonita Springs, Florida home and the subsequent investigation. Police initially suspected her husband Mark Sievers, but he had an airtight alibi. A tip led police on a 1,100-mile trek that took the case in an unexpected direction. Mark Sievers believed there might be a tie to other suspicious deaths of doctors around the country. Eventually, Mark Sievers became a person of interest. Two months after the murder, police arrested two men in Missouri and charged them with Dr. Sievers’s murder: Curtis Wayne Wright and Jimmy Ray Rogers traveled from Missouri to Florida and murdered Dr. Sievers. Wright, a close friend of Mark Sievers, told police that Mark had taken out five life insurance policies on Dr. Sievers, had an open marriage, money problems, and other serious issues. Eight months after the murder, Wright admitted to killing Dr. Sievers and accused Mark Sievers of being the mastermind behind the crime. Mark Sievers was then charged with the murder of his wife. Curtis Wayne Wright plead guilty to the second-degree murder of Teresa Sievers and testified that it was Mark’s idea to kill Teresa. In exchange for his testimony, he will serve 25-years in prison. In October 2019, Rodgers went on trial and was convicted of second-degree murder and sentenced to life in prison. A month later while still maintain his innocence, Mark Sievers went on trial and was convicted of first-degree murder in the death of his wife. In addition to the guilty verdict, the jury asked the judge to sentence Sievers to death. On January 3, 2020, Mark Sievers was sentenced to death. **On-screen text graphic:** The Sievers daughters, now teenagers, are being raised by Teresa’s family. The judge denied Mark Sievers’ request for a new trial. Interviewed: Jessica Lipscomb, crime reporter, Naples Daily News; Sandra Hoskins, Dr. Sievers’s medical assistant; Connie Reiss Landy, Mark Sievers’s stepsister; Jennie Weckelman, Mark Sievers’s stepmother; Frank Pais, Dr. Sievers’s co-worker; Greg Bolin, childhood friend of Mark Siever and Curtis Wayne Wright; Tyler Juliette and Jeff Conway, Jimmy Ray Rodgers’ bosses. 08/29/20 **48 HOURS: “The Life and Death of Amie Harwick”** - a report on the death of Hollywood family therapist and author, Amie Harwick. On the morning of February 15, Los Angeles police responded to a call of a “women screaming;” they found 38-year-old Harwick lying unresponsive beneath the third-floor balcony of her home. Police found evidence of a struggle and forced entry. The cause of death was ruled to be blunt force injuries to the head and torso, with medical examiners finding evidence of strangulation. Harwick’s friends led investigators to her ex-boyfriend, Gareth Pursehouse. After dating in 2011, the relationship allegedly turned abusive. In 2012, a restraining order was filed against Pursehouse by Harwick. At the time of her death, the restraining order against Pursehouse had expired. Four days after Harwick’s death, Pursehouse was charged with one count of murder and first-degree residential burglary with a special circumstance allegation of lying in wait. He could face a minimum sentence of life in prison without the possibility of parole, and possibly the death penalty. He has not yet entered a plea. The death of Harwick, who was once romantically linked to THE PRICE IS RIGHT host Drew Carey, has put a spotlight on domestic abuse. This broadcast also contains follow-up interviews with stalking victims Peggy and Katherine, both former 48 HOURS subjects. **On-screen text graphic:** Amie’s parents, Penny and Tom Harwick, provided this statement: “We are heartbroken. We lost a daughter, but the world lost one incredible woman. We would like to thank Amie’s amazing friends for all of their support. We consider them our family.” Learn more about stalking, what you can do to prevent it and what you can do if you’re being stalked. Go to 48hours.com. - 09/06/20 **"The Ranger and the Serial Killer"** – an interview with Texas Ranger James Holland. Over the last year and a half, Holland coaxed serial killer Samuel Little to confess to ninety-three murders. Undetected for nearly half a century, Little was a drifter from Ohio who the FBI are now calling the most prolific serial killer in U.S. history. Little preyed on those at the fringes of society, allowing him to go unnoticed. After a suspicious cold case prompted his further inquiry into Little, Holland enabled judges and prosecutors across the country to close long-standing cases by speaking to Little over the course of seven hundred hours of interviews. By making Little comfortable, Holland was rewarded with detailed stories and drawings of the victims, all of whom Little says he still remembers vividly. Includes interviews with Damien, victim Denise Brother's son; Christie Palazzolo of the FBI and Angela Williamson of Department of Justice, violent crimes analysts; District Attorney Bobby Bland; and a phone interview with Little. (C: Sharyn Alfonsi – P: Draggan Mihailovich, Jacqueline Williams, Claire St. Amant) (OAD: 10/06/19. This rebroadcast includes an update.)

Scientists wonder if these patterns can be recoded, and have been researching how the discovered patterns may differ in people with autism or those contemplating suicide. Includes interviews with Marcel Just, a neuroscientist; Jamie Woods, 60 MINUTES associate producer; David Brent, a psychiatrist at the University of Pittsburgh; Matt Nock, a Harvard Professor; and Dan Toski, a former patient of Brent's clinic. - 09/05/20 **48 HOURS: "Dead Ringer"** - a report about former pro boxer Ramon Sosa, the potential victim in a murder-for-hire scheme, who with the help of law enforcement agents, managed to survive -- all the while setting up a sting operation to catch those responsible. Sosa owned the popular Woodlands Boxing and Fitness in Montgomery County, Texas. He had a family and a beautiful second wife who helped him run their booming business. After six years together, things began to sour between Sosa and his wife -- he learned of a divorce attorney and missing money from the business. And then someone wanted him dead. A friend of Sosa's named Mundo, who worked out at the gym, overheard Sosa's wife Lulu and was sure she had murder on her mind. They came up with a sting operation to protect the boxer, in which Mundo posed as a hit man. When they had evidence, they contacted the police, who then took over the case. Mundo still played along, agreeing to kill Sosa, and provided photographic proof of the death. Police staged the death scene, with Sosa's "dead body" photographed in a ditch with a bullet hole in the head. Lulu Sosa was arrested, and claimed she was innocent. She was charged with solicitation of capital murder. After 15 months, she gave up the fight and agreed to a plea deal to reduced charges and twenty years in prison. Original on-screen text graphic: Lulu Sosa comes up for parole once a year. This past Tuesday, she was denied parole for a second time. **On-screen text graphic for the 07/20/19 and 09/05/20 rebroadcasts:** Lulu Sosa comes up for parole once a year. - 09/09/20 **48 HOURS SUSPICION: "The Tiger King Mystery"** (10:00 – 11:00p) – a report on the disappearance of Don Lewis, whose body has never been found. A self-made millionaire, he was married to Carole Lewis. Together they ran "Wildlife on Easy Street" in Tampa, Florida -- billed as an exhibit space for big cats. In August 1997, Don vanished while supposedly traveling to Costa Rica. Though Carole was not an official suspect, his ex-wife, daughters, and other friends and associates were suspicious and claimed that Carole and Don's marriage was troubled. Carole had Don declared legally dead in 2002. In 2004, Carole Lewis became Carole Baskin when she married attorney and businessman Howard Baskin. With his help, Carole changed the name and mission of the animal exhibit; now called "Big Cat Rescue", it is a sanctuary focusing on animal rights. Interest was renewed in Don's disappearance due to the Netflix series "Tiger King", which chronicles an Oklahoma-based, eccentric big-cat owner named Joseph Schreiber, better known as Joe Exotic, and his battle with Carole who sought to shut him down. Throughout the series and on his own YouTube channel, Joe, the self-proclaimed Tiger King, alleged Carole had murdered Don in 1997 and fed him to their tigers. In 2019, Joe was convicted and sent to prison for, among other things, hiring a hitman to kill Carole. Currently, there are no suspects in the disappearance of Don Lewis. **On-screen text graphic:** If you have any information, please call the Hillsborough County Sheriff's Office at (813) 247-8200. 48 HOURS (continued)

- 09/12/20 **48 HOURS: “Home Renovation Homicide”** - a report on the murder of Shanti Cooper in Orlando, FL, for which her husband Dave Tronnes is suspected, allegedly over the ownership of a house undergoing years of renovations. In 2013, Shanti Cooper began an online relationship with Dave Tronnes that quickly blossomed. After just a few months, Dave moved from Minneapolis, MN to Orlando, FL to be with her. In 2015 the pair would move to a new home and begin renovations, which Shanti paid for. Keith Ori, host of a house-flipping television show, had difficulty getting the two to appear on camera together. According to prosecutor Ryan Vescio, the animosity came from Dave’s refusal to make Shanti a beneficiary to the trust that owned that house, effectively making him the sole owner. On April 24th, Dave called 911 after returning home in the afternoon and finding Shanti dead in the bathtub. In the lengthy police interview that followed, detectives questioned inconsistencies in his story: Shanti had numerous injuries on her person inconsistent with falling; there was no water on her or around the tub; and there was blood on the bed, which Dave dismissed as being from Shanti’s period. An autopsy would later find strangulation as the cause of death. Dave agreed to a polygraph, but due to the late hours, police could not find anyone to administer one and released him. Searching for a motive, police received a tip that Dave was a member at a local bathhouse and interviewed an employee who claimed to have seen Dave having sex with another patron. Dave maintained that Shanti was killed in a robbery and cited her missing diamond engagement ring as proof. In August 2018, Dave was arrested for Shanti’s murder. A search of the home he was staying at produced the missing ring. In November 2018, police interviewed Dave’s ex-wife, Carole, about her health conditions, which her loved one suspected was from Dave poisoning her. Carole denied this. A surveillance camera that police had set up at the couple’s property captured footage of investigators hired by Dave’s original defense team. Those lawyers eventually revealed to Vescio that they had two pieces of evidence that had been removed from the house: bedsheets with Shanti’s blood on them and a green cord. Tests could not determine if the cord was used to strangle Shanti. Police would also interview Edward Gismondi, who met Dave in a jail housing unit. Gismondi stated that Dave told him how certain hallucinogens could be used to poison a person’s food. He also told police Dave confessed to killing Shanti after she found messages on his phone pointing to an affair. However, police were unable to corroborate Gismondi’s claims. In 2019 Ryan Vescio left his position as a prosecutor and became counsel for Shanti’s estate in order to make sure her assets went to her son. Dave is awaiting trial. **On-screen text graphic:** Shanti’s son Jackson lives with her ex-husband Jim Cooper. Dave Tronnes still owns the house. Interviewed: Tara Stevens, realtor; Ryan Vescio, former prosecutor, Orlando State Attorney’s office; Cindy Dow, Shanti’s relative; Keith Ori, home renovator and TV host; Richard Zaleski, Dave’s attorney; Dan Dow, Shanti’s relative; Edward Grismondi, informant. (C: Erin Moriarty – P: Paul La Rosa, Dena Goldstein)
- 09/19/20 **48 HOURS: “The Final Hours of Cayley Mandadi”** - a report on the murder of a Trinity College student Cayley Mandadi, allegedly by one of the two men she was involved with. In October 2017, Cayley Mandadi was rushed to the emergency room by Mark Howerton, a man she had been having a relationship with. After leaving a music festival and having sex, Mark claimed she stopped breathing. Medical staff were unable to revive Cayley. Three months later, an autopsy concluded she had died from blunt force trauma to the face and head, leading to Mark’s arrest for murder and sexual assault. At trial, the prosecution presented witnesses from the night at the emergency room that noted bruises on Cayley’s legs and redness on Mark’s hands, and cited the fact that Mark had changed his story about where he and Cayley had sex. Friends of Cayley and a Trinity College security officer testified about Mark’s violent outbursts, including an incident that led to him being barred from campus. Jett Birchum, the other man Cayley had been involved with, testified that Cayley had agreed to break up with Mark at the music festival and that he witnessed Mark forcing her to leave with him. Mark’s attorney, John Hunter, questioned Jett’s credibility as he had given different testimony in court than he had to police and the grand jury. He also pressed Jett on the immunity deal he made with prosecutors over Jett’s alleged involvement in dealing drugs. Defense witnesses rebuked the autopsy: a forensic pathologist stated a skull fracture was consistent with a fall and a pharmacology expert testified that the large amount of MDMA in Cayley’s system could have led to hemorrhages and bruising. After 10 hours of deliberation over two days, a mistrial was declared. However, the prosecution plans to retry the case. Alison Steele, Cayley’s mother, worked to pass the CLEAR alert bill in Texas, which allows for emergency texts for missing persons between 18 and 64. **On-screen text graphic:** Mark Howerton’s retrial is scheduled for January 2021. Interviewed: Lawrence Baitland, Cayley’s stepfather; Alison Steele, Cayley’s mother; Taylor Clement, Cayley’s friend; John Hunter, Mark’s attorney; Daniel Conrad, Courthouse News reporter. - 09/23/20 **48 HOURS SUSPICION: “The Case Against Mary Katherine Higdon”** (10:00 – 11:00p) – a report on the case against Mary Katherine Higdon, who killed her boyfriend Steven Freeman at their home in Griffin, Georgia. On August 1, 2018, Mary Katherine called 911 and told first responders she shot Steven by accident – saying that when she handed him the gun, it went off. At the police station, Mary Katherine allegedly changed her story and confessed to murder. However, there were problems with the police investigation: the audio on the tape was impossible to hear due to a feedback hum and first responders moved the gun found next to Steven. Nevertheless, the prosecution believed they had a strong case based on the forensic evidence. The trial began in June 2019; both the prosecution and defense claimed abuse. Ultimately, the jury sided with the defense and Mary Katherine was found not guilty on all charges. **On-screen text graphic:** Mary Katherine Higdon has moved to another state. To honor Steven, Jennifer Freeman volunteers to raise awareness about domestic violence. Interviewed: Mary Katherine Higdon; Jennifer Freeman, Steven’s mother; Tom Higdon, Mary Katherine’s father; Sarah Higdon, Mary Katherine’s sister; Thomas Skinner, Andrew McRee, and Chase Pruitt, Steven’s friends; Detective Adam Trammel; Lieutenant Chris Wilson; Kate Lenhard, prosecutor; Jorge Carabajal and Michael Granims, Mary Katherine’s public defenders; Victor, juror; and Chris, juror. - 09/26/20 **48 HOURS: “The Corn Rake Murder”** - a report on the death of Amy Mullis from a farming accident for which her husband is suspected, though he maintains it was a freak accident. In November 2018, Amy Mullis was found dead by her son, Trysten, in a shed on the family farm. She had apparently been killed by a corn rake used on the farm. After an investigation her husband, Todd Mullis, was arrested for Amy’s murder. The autopsy showed a pattern of puncture wounds that indicated Amy had been struck with the corn rake multiple times. Other injuries she had also indicated she had been in a struggle. Police investigations turned up an affair that Amy had in the past. The couple reconciled, but Amy agree to leave her job and work on the farm, allegedly so Todd could keep an eye on her. Friends testified that Amy was unhappy. Eventually she would begin another affair with the farm’s manager, Jerry Frasher, which Todd found out about. Todd’s alibi was that he had been working in a barn with Trysten before his son found Amy’s body. However, Trysten would amend his story, adding that he went to the office at the front of the barn a few times. At trial, the prosecution maintained this allowed opportunity for Todd to commit the murder. They also cited that surveillance cameras around the property were not working the day of Amy’s death and suspicious internet searches related to infidelity and murder. Todd countered that there had been no surveillance footage for weeks before the murder, possible due to animals damaging it, and that the device the searches were made on was accessible to the entire family. After jury deliberations, Todd was found guilty. He filed a motion for a new trial based on the fact that his original attorneys did not focus on presenting Amy’s death as an accident as he pushed for. In September 2020, his motion was denied and he was sentenced to life in prison. **On-screen text graphic:** Todd and Amy Mullis' three children--Trysten, Taylor, and Wyatt--are now with Amy's family. Interviewed: Daniel Nesheiwat, legal expert; Matthew Troiano, legal expert; Dina Nesheiwat, legal expert; Woman #1, alternate juror; Woman #2, juror. (C: Jim Axelrod – P: Betsy Shuller, Lisa Freed, Lauren Clark)
- 09/30/20 **48 HOURS SUSPICION: “The Ambush of Kevin Harris”** (10:00 – 11:00p) – a report on hip-hop artist and producer Kevin Robert Harris II, who was gunned down outside of a music studio in Los Angeles, California on September 20, 2009. He was 21-years-old. Six years after Kevin’s murder, local police brought in the FBI to work the case. Detectives eventually ruled out the possibility of mistaken identity and are now convinced Kevin was the intended target. They have narrowed down the list of suspects and believe that Desmond Carter, an aspiring rapper and jealous rival who was supposed to meet Kevin at the studio that night, may be connected to the murder. Arrested in 2017, he was never charged and denies any involvement. Detectives feel that they are very close, but need information and -- along with Kevin’s family -- remain convinced Kevin’s murder will be solved. **On-screen text graphic:** The FBI is asking for information from the public. The tip line is (310) 477-6565. Interviewed: Kevin Harris Sr., Kevin’s father; Kathryn Harris, Kevin’s mother; Cameron Woods, childhood friend; Jasmine Tanner, friend; Sonya Teclai, poet and singer; Karan Staden, aunt; Rahman Dukes, music journalist; Pastor Winford Bell; Voviette Morgan, FBI; Sean Sterle, special agent, FBI; John Skaggs, former Los Angeles detective; Randy Thomas, studio owner; and Gizzle, hip-hop poet and rapper.
